Introducing a revolutionary new ship that's poised to change the way guests experience the world. With its visionary design, it will raise the bar on cruise vacations to even greater heights. Welcome *Celebrity Edge*, the first in Celebrity Cruises' new class of ships designed to leave the future behind.

Celebrity Edge marks a turning point in Celebrity's approach to ship design. From the very first sketches, to an innovative way to experience those designs in a virtual reality setting, every step was done in 3-D, making *Celebrity Edge* the first ship to be completely designed in 3-D. This allowed every detail to be reviewed, fine-tuned and perfected. From the incredible new Magic Carpet to the private plunge pools in the Edge Villas, Celebrity was able to design the most refined ship at sea – before even starting to build it.

One of the biggest influences on the design of *Celebrity Edge* was the desire to make the destination experience even more immersive – starting right on board. *Celebrity Edge* has a unique, outward-facing design that breaks from traditional ship design. On *Celebrity Edge*, guests will feel more connected with the sea and the exciting places they will visit in a variety of spaces ranging from the Edge Stateroom with Infinite Veranda, to the reimagined, terraced pool deck that offers even greater views of the destinations and every glorious shimmer of ocean in between.

When it came time to choose a name for this visionary new vessel, Celebrity looked no further than the very thing that makes the ship so unique – the fact that throughout more than two years of exploration and excitement, every single design element has been taken to the leading-edge of possibility. *Celebrity Edge*. There was no other choice.

On *Celebrity Edge*, the brand takes its popular Camp at Sea program to the next level with interactive experiences for younger travelers of all ages.

The brand says it's "Never the same camp twice," because it's the first and only fully customizable Camp at Sea program. The schedule of activities changes on every sailing based on the interests of the participants. And, through the brand's collaboration with well-known companies – including Anturus, Xbox, Fat Brain Toys, and Lonely Planet – Celebrity has created four fun-filled categories of interest – Art, Recreation, Culinary, and S.T.E.M. – and has designed more than 500 activities overall.

Celebrity's Camp at Sea program makes every sailing a brand new adventure. And, this incredibly robust program was used as inspiration to design two completely separate contemporary spaces that house the Camp at Sea activities, one for the kids – known as Camp at Sea – and one for the teens – known as The Basement.

DESIGNED BY

To help bring Camp at Sea and The Basement to life, the brand turned to award-winning architect and designer Scott Butler, founding partner of Wilson Butler Architects.

Introducing Eden, a unique venue where state-of-the-art design is fused into every element, including the world-class cuisine served by “Edenists.” Spanning three decks at the aft of the ship with almost 7,000 sq. ft. of glass, Eden has more outward-facing glass than any other room found at sea.

By morning, Eden is a chillful escape where yoga, a good book, or coffee and a croissant can be enjoyed; in the afternoon, Eden becomes more playful; and, as the sun sets on Eden, the energy transforms inward and the views of the outdoors fade into sinful darkness.

Within Eden are three unique culinary venues, including:

EDEN CAFÉ

In the morning and through the afternoon, Eden Café offers a wide variety of beverages and casual culinary bites – complimentary for guests.

EDEN BAR

On Deck 5 at Eden Bar, guests’ senses are in for a tantalizing new treat, with specialty cocktails in abundance. The Library of Plants towers 18-feet above the bar, offering it’s bounty of fresh ingredients to be used for garnishes for hand-crafted, artisanal cocktails.

Inspired by classic French bistros, the mouthwatering sights, scents, and sounds of a bustling boulangerie-pâtisserie will excite guests almost as much as the food itself. The ambience changes from morning to evening, and the venue offers seating options that range from the planter-edged sidewalk to the inner café with stunning views of the sea.

ACCOMODATIONS

Celebrity Edge promises an assortment of firsts – firsts for the cruising industry and firsts for the world – with the ship’s refined, outward-facing design. As part of these firsts, new suite categories and iconic, never-before-seen stateroom design are at the forefront.

The most transformational aspect of the new stateroom design is the introduction of the Edge Stateroom with Infinite Veranda. These revolutionary rooms take the standard veranda stateroom and, with the touch of a button, blur – even erase – the boundaries between inside and outside. The entire living space becomes the veranda, letting guests walk right out to the water’s edge.

Infinite Verandas offer the latest technology that allows guests to precisely adjust nearly every comfort feature in their stateroom. The in-room automation allows them to control everything from lighting, to shades, temperature, and service with a simple touch screen. Guests can even choose a setting that will tuck them in and gently wake them in the morning; it’s world-class service at the touch of a button.

Not only do these staterooms feature the latest in design and technology, they’re even more spacious. In fact, they’re 23% larger than the award-winning *Celebrity Solstice* Class veranda staterooms. The added space made it possible to include a luxurious king-sized bed from *Celebrity’s eXhale* bedding collection in every standard-sized stateroom. Bigger rooms called for larger bathrooms too, so they have been expanded by 10% and include even larger modern showers.

Infinite Verandas are also the home of *Celebrity’s* iconic, eponymous classes, *Concierge Class* and *AquaClass*. *Concierge Class* offers dedicated concierge services, where every detail makes a big difference, while the spa-inspired *AquaClass* staterooms feature services and amenities that make every day feel like a visit to the spa.

For modern travelers exploring the world on their own, a new stateroom category was made with them in mind; the *Edge Single Stateroom with Infinite Veranda* is perfectly proportioned for the individual traveler. These rooms offer all the same amenities and services as a double stateroom – just for one.
