GREENS

## GREEN VIBRANCE

Green Vibrance is a concentrated superfood with a purpose: to make you healthier and stronger. Green Vibrance feeds each cell with what it needs to run at its best. Our vitality is the sum total of the health of each cell. To reach optimal health, the immune system must be strong, and a robust gastrointestinal tract must draw in complete nutrition. Those nutrients must in turn be delivered to all cells of the body by a healthy circulatory system.

### CONCENTRATED NUTRITION

The ingredients in Green Vibrance were selected to support essential bodily functions without which life cannot be sustained. Cereal grass powders and juices deliver virtually all known nutrients and several uncharacterized co-nutrients of great value. For example, cereal grasses contain a hidden “growth factor” that causes young animals to more rapidly develop, growing larger, stronger, and healthier with robust immune systems. Those same cereal grasses allow mature animals (and undoubtedly humans) to repair bodily tissues more quickly. Organic kale sprouts, organic broccoli sprouts, organic spirulina, chlorella, organic beet juice, organic parsley, organic spinach, organic carrot, green bean, zucchini and rockweed enrich the nutrient density and diversity of the primary food ingredients in Green Vibrance.

### PROBIOTICS AND DIGESTION

Our industry leading dose of 25 billion friendly probiotics, balanced by a rich combination of Bifido- and Lacto- bacilli from 12 strains in each serving of Green Vibrance bolsters the one system that

### CHOCOLATE COCONUT

A decadent alternative to the classic green superfood taste, with only one gram of sugar per serving. This flavor was chosen at Expo West 2017 as the best of the varieties offered.

must function well first and foremost if health is to be improved or optimized. One must be able to digest food and transport nutrients into the body from the gastrointestinal tract before health can be sustained. The 12 strains of probiotics in Green Vibrance help assure a healthy G.I. tract by supporting colonies of robust, “good” intestinal flora.

### ANTIOXIDANTS AND CIRCULATION

We all will encounter aging and degenerative disease in time. Nutritive antioxidants may diminish the severity and slow the advance of oxidative damage caused by the human metabolism.<sup>†</sup> Each serving of Green Vibrance delivers a powerful 1,293 mg of herbal antioxidants in addition to beta-carotene, vitamin C, vitamin E and other antioxidants naturally present in the other plant components of the formula. These antioxidants, plus lecithin, soluble fibers, policosanol and other ingredients help support cardiovascular health.<sup>†</sup> A strong heart and clear arteries are essential to delivering nutrients to and removing waste from every cell in the body. Ginkgo biloba extract, grape seed extract, green tea extract, pomegranate extract, and grape skin extract are all known to improve peripheral circulation.

### IMMUNITY

The immune support delivered by Green Vibrance is found in its content of beta-glucans, ResistAid® arabinogalactans and Astragalus extract.<sup>†</sup> But let us not lose sight of the immune enhancing effect of a healthy digestive tract. 50% of your own immune cells are found there. Well nourished, vibrant cells, amply protected by the army of antioxidants in Green Vibrance, are themselves resistant to disease.<sup>†</sup>

### MATCHA TEA

Made with DōMatcha®, an authentic green tea from Uji, Japan. Matcha boosts the antioxidant profile and adds a touch of caffeine, enhancing the energizing effects of Green Vibrance.
