Is deadly

Is extremely flammable

May detonate

Is corrosive

7 Food, drinks, and cigarettes don't belong in a work area that contains chemicals:

True

False

8 Any unattended container with a potentially hazardous substance must have an identifying label of some sort.

True

False

9 Do you know where the MSDSs for your department are kept?

Yes

No

10 Every chemical requires the same protective measures.

True

False

11 Some chemicals may have a dangerous reaction with:

Air

Other Chemicals

Water

12 Which of the following is NOT one of your rights concerning material safety data sheets?

They must be available to you the entire time you are in the workplace.

If you request to see one for a product you use, and your employer can't provide it, you may refuse to work with that product after one working day (until it is shown to you).

If you request your own copy of an MSDS, your employer has 15 days, by law, to provide that copy.

Your employer must individually cover ALL the MSDSs for substances you use in an annual training session.

13 You have the right to have your own copy of USDA written hazard communications program.

True

False

14 If you have a question about a chemical or product, you may consult:

Its MSDS

Your supervisor

EHS

All of the above

NOTE! When finished, print out a copy, sign and date it, and return it to your Safety Officer.
