It is naturally rich in monoglycerides (lipids that act as an emulsifier) and moisturizing phytosterols and squalene.											

The Hydrosols we offer are specifically distilled for the Hydrosol, not as a co-product or even a by-product. The plant's cellular water and many components - normally lost under pressurized short steam runs for essential oil, or by using dried material - are what the producers specifically distill for by using only fresh plant material right from their farm or from local farms to ensure that the plant material is as fresh as possible.

One of our most popular blends, Patchouli Amber Spice combines spicy with woodiness to create an aroma that can be enjoyed by both men and women. This blend uses just the right amount of Patchouli to impart the mellow-sweet woodiness of Sandalwood, Amber, and the exotic spice of Cardamom. Those who usually dislike Patchouli may be pleasantly surprised by this fragrance.									
ROSE ESSENCE OIL (Proprietary Blend) Origin: USA	1085	\$2.00	\$14.50	\$22.50	\$39.00	\$69.50	\$119.50	\$209.25	\$405.00
Cover yourself in a bouquet of roses and other precious petals with this alluring scent. Bulgarian and Moroccan Roses mix with Jasmine, Ylang Ylang and Rose Geranium for a classic floral blend. Combined with Sandalwood and Amber, Rose Essence Oil makes the perfect base for any rose-related product.									
SANDALWOOD DREAMS (Essence Oil Blend) Origin: USA	1090	\$2.00	\$14.50	\$33.75	\$62.25	\$114.25	\$209.25	\$382.50	\$722.25
Sandalwood is one of the most ancient aromatic oils. Although endangered in the East, we use Sandalwood harvested from Australia. This blend supports the woodiness of Sandalwood with Vanilla, for a rich, sweet aroma. It makes an excellent addition to body care, natural perfumes, or any product where a touch of sweetness is desired.									

We gather oils from around the world to offer you a variety of choices. ANISIC AROMA FAMILY SAMPLES	SP-ANISIC	See Website for Prices
		The Anisic Family represents several types of molecules with the licorice odor: anethole, found in Anise, fenchone found in Fennel, and estragole (aka methyl chavicol) in Basil and Tarragon.
CITRUS AROMA FAMILY SAMPLES	SP-CITRUS	See Website for Prices
		Fresh, zesty citrus peel essential oils have differences in sweetness, tartness, crispness, etc.; their aromas can lift the spirit, elicit joy, calm the mind, and brighten the mood - so many happy scents to choose from, compliments of our benevolent Mother Earth! Use singly or in combinations as top note accords, or to lift and brighten other introductory notes of natural perfumes. Citrus oils comprise the main ingredients in colognes.
EARTH AROMA FAMILY SAMPLES	SP-EARTH	See Website for Prices
		We gather oils from around the world to offer you a variety of choices. Wet soil, mosses, lichens and roots - these grounding, supportive oils have aromas that remind us of our nature/natural world, the foundation of living organisms that give life to our planet. Here are some of the most popular, well known ingredients generally used as modifiers in smaller proportions within base note accords to create the foundation of a natural perfume.
ESSENCE BLEND SAMPLES	SP-ESSENCE	See Website for Prices
		Our Essence Oils are made with a variety of high quality Essential Oils, Absolutes, and CO2 extracts in a base of organic Jojoba oil and organic high oleic acid Sunflower oil. They may be applied directly on the skin as a fragrance, or as a base for creating another fragrance.
FLORAL AROMA FAMILY SAMPLES	SP-FLORAL	See Website for Prices
		Delicate to intense, and always beautiful, flowers have their own special language of scent. These aromatically sensual plant aromas - enticing and intoxicating - never fail to draw us near. Floral oils, most often used to formulate the heart/middle note or theme of a perfume, can also be used to modify or highlight other aromas in creative natural perfumery.
GOURMAND AROMA FAMILY SAMPLES	SP-GOURMAND	See Website for Prices
		Here is an array of gourmet, memory-evoking aromas - notes of honey, maple syrup, licorice, brown sugar, cacao, vanilla, coffee, butter/cream, caramel, coconut, new-mown hay, nutty, wine-like, smoky, leather and more. These aroma notes are commonly associated with the nurturing comforts of home and thus in subtle and not so subtle ways connote safety and stability in the familiar. Generally used as modifiers in small percentages to provide depth, complexity and/or warm notes in natural perfumery.
GREEN AROMA FAMILY SAMPLES	SP-GREEN	See Website for Prices
		Green notes of essential oils are as numerous and varied as the many colors of green there are in Nature's palette and come in all kinds of tones - grassy, leafy, bitter, sweet, spicy, herbaceous, minty, pungent, vegetable, resinous, and woody. Generally used highly diluted, green note essential oils add fresh, natural tones to perfume formulas, either singly, in combinations, or with other top and/or middle notes, especially citrus oils.
HYDROSOL SAMPLES	SP-HYDROSOLS	See Website for Prices
		This selection of organic Hydrosols can allow you to experience and compare the artisan-distilled, fragrant waters from aromatic plants. The tiny spray bottles are the perfect size for traveling, or to stash in your day pack or yoga bag.
JASMINE SAMPLES	SP-JASMINE	See Website for Prices

SPICY AROMA FAMILY SAMPLES	SP-SPICY	See Website for Prices Whether they conjure memories of favorite recipes or special holidays, places or people, these potent aromatic oils truly add a spice to life - and we love their effect in perfume formulations! Spice essential oils are used in very low concentrations to highlight and/or modify aspects of perfume compositions and are most often used in florals, Amber bases, and colognes.
VETIVER SAMPLER PACK	SP-VETIVER	See Website for Prices More than just a simple grass, its chemical complexity explains why Vetiver is often thought of as a perfume in itself. It is an outstanding base note with excellent fixative qualities. Dense and syrupy, Vetiver oils, much like Patchouli and Sandalwood, undergo chemical transformation and improve with age, making them important building blocks in natural perfume and incense formulations.
WOODY AROMA FAMILY SAMPLES	SP-WOODY	See Website for Prices The essential oils distilled from the wood of trees are some of the most important in natural perfumery - they are a significant part of the palette of base notes that ground, support, and sustain all the other notes in perfume compositions. Their deep, aromatic, and captivating aromas can be used singly, in combinations, or with other base notes to provide not only foundational value for perfumes but tenacity and fixative properties as well.
YLANG YLANG SAMPLES	SP-YLANG	See Website for Prices Sampling oils in this family as a group can help you discern the nuances of Ylang Ylang with your own nose. Discover how different extraction methods create VERY different results. Aromas range from the candy-like sweetness of Ylang Ylang I, to the more refined sweet-floral of Ylang Ylang, Fine. Just a touch of this euphoric oil adds an uplifting scent to your blends.
