GENERAL INFORMATION

1. Directory

This directory is an authorized UNOFFICIAL publication of Marine Corps Base Quantico, Marine Corps Combat Development Command, and tenant activities.

2. Organization

The directory is composed of five major sections. These sections include; General Information, Alphabetical Listing, MCB Quantico, MCCDC and Tenant Organizations which include M&RA and MARCORSYSCOM.

3. Telephone Service

Long-distance telephone service for MCB Quantico is provided by Networx service. Networx service is accessed by dialing "99+1" followed by the 10-digit telephone number of the station that you are calling. Networx long distance charges will be identified in a locally produced monthly bill. Networx service is for OFFICIAL CALLING ONLY. Non-official long-distance calls will be made either with a personal calling card, collect, or on a public pay telephone.

4. Telephone Installation and Repair Services

Telephone installation and repair service at the Command is provided by civilian contractors. Installations, relocations, disconnections, and systems redesign are coordinated by the Telecommunication Network Branch, Communication Electronics Division. This work requires that a telephone service request be submitted. This request must include the following information:

- A point of contact: name and telephone number, building and room location.
- Telephone numbers and intercom numbers of each telephone involved. All requests for service are to be submitted to the Telecommunications Branch via respective organization Telephone Control Officer. Allow sufficient time for approval and scheduling of work. Telephone repair services are available by dialing 784-2500. Please identify the telephone number where the problem exists and the type of problem, if known.

5. Quarters Telephone Service

Barracks residents who desire telephone service should contact the contracted service provider by calling 800-893-2018. The Telecommunications Branch is not authorized to coordinate telephone service.

WARNING

DSN calls at this Command fall under the following restriction: "DoD telephone communications systems are provided for the transmission of official government information only and are subject to telephone communication security monitoring and telephone communications management monitoring at all times," Telephone Monitoring: MCO P2066.1 and MCB Order P2831.1A.

PERSONAL CALLS FROM GOVERNMENT PHONES

Regarding the proper use of DON telephones. The Navy is being obligated to spend substantial funds for telephone calls made for other than official business. In accordance with MCO P2066.1B, the following guidelines are established for proper use of telephone service by government employees:

- a. The use of Government assets, including the use of DoD telephones, is limited by SECNAVINST 5215 to the conduct of official business. GSA has amended 41 CFR Part 201-38 NOTAL to authorize federal agencies to permit federal employees conducting official business, to make reasonable personal use of government base telecommunications systems for emergency calls or calls the agency determines are necessary in the interest of the government.
 - b. Official business calls include personal, local, and long-distance calls if they do not adversely affect performance of the employee's official duties or the mission of the employee's organization, are of reasonable duration and frequency, and reasonably cannot be made at another time. Personal calls cannot result in a charge to the government even if the employee intends to reimburse the government. Thus, a personal long-distance call must be to an 800-toll-free number, charged to an employee's home telephone number or another non-government number, collect, or charged to a personal telephone credit card. Additionally, calls for information assistance may not be made if a charge results to the government telephone.
- NOTE: Reimbursing the government for an unauthorized call does not exempt violators from disciplinary action. Use of DoD Command and Control Networks (DSN, Networx, etc.) is not authorized for personal calls.
- c. Examples of permissible types of personal calls include checking on a family member, making or canceling personal appointments, checking on the status of home or auto repairs, and notifying family of overtime requirements or other changes in schedules.
 - d. If base operator intervention is required to complete the call, the local commander may use discretion of this policy and shall publish guidelines.
 - e. There have been no changes to existing policy regarding DoD employees making personal calls while on official travel to a temporary duty location. Any change regarding employees on official travel will be reflected in the joint travel regulations.
 - f. Use of DoD telephones to place calls to 1-900 numbers and similar toll calls are strictly prohibited. Activities providing telephone service managers, and the chain of command should make every effort to block or prevent such calls. Supervisors of government employees, both military and civilian, are responsible for:
 1. Ensuring that authorized use does not become abused.
 2. Ensuring all government billed toll and long-distance calls are for "OFFICIAL BUSINESS" except in case of an emergency, when prior authorization may be granted for a personal call. To preclude abuse, supervisors should maintain records of all toll and long-distance calls and then verify against actual bills.

3. Investigating all unauthorized calls and ensuring monetary repayment equivalent to billed charges and processing costs are collected from identified offenders. Appropriate administrative or disciplinary action should be taken when necessary.
4. Review and verify all bills for telephone service prior to payment.

DEFINITIONS

- **Station to Station** — These are calls from one military number on base to another military number on base.
- **Base Operator** — This is the MCCDC Base Operator.
- **911 on Base** — This number will call the Fire Department and Military Police on base only.
- **Toll Calls** — Any calls that require dialing (1) before the area code and are not placed on FX or DSN lines.
- **Overseas Calls** — Any calls direct dialed or operator assisted that do not use the DSN network.

FEATURE DIALING INSTRUCTIONS

The instructions given below are for telephones without specialized buttons. For information on the operation of your specific phone systems refer to www.quantico.usmc.mil/acitivities/?Section=TELCOM or contact Base Telephone Help Desk at 703-784-2500.

- **Hook Flash** — the mechanism on a phone's receiver cradle that allows the line to be disconnected. To utilize the hook flash feature, depress the button and quickly release it. Hook Flash/*78
- **3-Way Calling** — allows a station to have a three-party call of military numbers only. Hook Flash/Dial number/Hook Flash
- **Last Number Redial** — will redial the last number. Dial *73
- **Ring Again** — notifies a station when a busy military number becomes idle and places the call. Hook Flash/*79

The following features must be requested using a Work Request. Instructions for their use will be available when request is filled.

- **Call Pick-up** — allows a station to answer any incoming call to any other number in that pickup group. Dial *75
- **Call Waiting Basic** — alerts a station that it is being called by a third party from off the base.
- **Call Transfer Intragroup** — allows a station to transfer a call to another station in the customer group. MCCDC military numbers from our customer group.
- **Speed Call Long List** — allows a number to program up to thirty (30) numbers. These may be commercial or DSN.
- **Speed Call Short List** — allows a number to program up to ten (10) numbers. These may be commercial or DSN.
- **Call Forward Intra** — allows a number to forward all calls to another number within the Base Switch.
- **Call Forward Fixed** — allows a number to forward calls to a specific number.
- **Call Forward/Don't Answer** — if the called phone number does not answer within a specified time (3-5 rings), CDF forwards the call to a designated number.
