Introduction

The Genesis Parent Access tool is a safe, secure way to view your child's school record for the current school year. Ewing elementary school parents have access to the following information:

- Forms for you to complete
- Contact Information (email, phone numbers, emergency contacts) for your children
- Your child or children's daily attendance record
- Documents that have been uploaded for your students.

The rest of this manual will guide you these screens and how to use them. Please be aware that you may not see every screen for every one of your students (if you have more than one student in the school district). The school district chooses which screens can be made available. Screens may not be displayed if they do not apply to your student.

As students progress through the Ewing schools, the information available to parents increases. At the current time, Parent Access provides the following functions to parents.

<u>Elementary</u>	Middle School	High School
Student Summary	Student Summary	Student Summary

Getting a Parent Access Account

When you provide your email address to the school office, they will set up a Parent Access account for you and send you an email with your username and password information. You will need that information when you log into Parent Access.

- If you ever change your email, contact the school office to update your email and your Parent Access user account.
- If you do not have an email account with a internet service provider such as gmail.com or yahoo.com, the school office can give you a userid that you can use at a public computer. If you can get to the internet, you can get to Parent Access.
- There will be only one user account per family. Generally that is Guardian 1, unless Guardian 2 is a parent who lives at a
 different address.
- No parent can have an account if there is a Custody Issue against them.
- Parent Access is available by mobile phone.
- The first time you login, you'll be prompted to change your password. <u>Do not share it with your students</u> because your account may be used for official sign-offs and permissions.

What if I forget my password?

On the sign-in screen, click on the "Forgot Password" button. On the next screen, enter your email (logon ID) and click on "Submit." Check your email for a message containing your temporary password. (It could take as long as 10-20 minutes.) Then go to the Parent Access sign-in screen and log on using your temporary password. You will be prompted to change your password.

It may take as long as 10-20 minutes to receive the email. It will come from "Genesis Admin" [genesisadmin@ewingboe.org] . If you don't get it, check your Spam/Junk folders.

Note: If your logon id is not a real email address, contact the school office. They will give you a new password.

Logging in to Parent Access

In your internet browser, go to this URL. https://parents.ewingboe.org/genesis/parents?gohome=true
You will see a screen similar to this. Enter the username and password provided to you by the email sent from the school, and click on the "Login" button.

Logging Out

Closing the browser without logging out creates a security hole that only you can close: Be secure, always log out properly. In this era of Internet access, it is important to always properly close your sessions so that unauthorized persons cannot gain access to your information. Note: This applies not only to Genesis, but to every Internet/Web application you use.

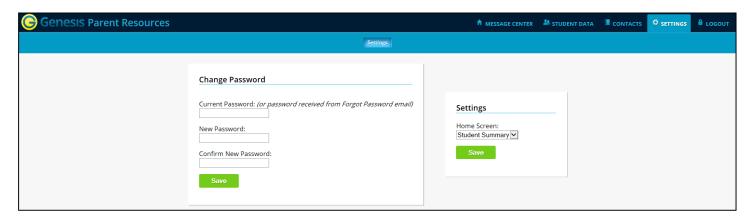

Closing your browser is not the same as logging off. You *must* log off of Web Access to eliminate the possibility of someone else accidentally getting access to your student's information.

For example, if you are accessing Web Access from a public place, such as a library or other public internet access point, if you just close your browser and walk away, without logging out, there is a chance that someone else will be able to immediately reattach to your Web Access session and view your child's information. Logging off properly terminates the Web Access session.

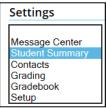

<u>Always log off of Web Access – Never just close your browser</u>

Changing Your Password

By clicking on the **Settings** tab, you can change your password.

You may also choose any of the options in your dropdown box to be the first screen you see for your student. Remember that the choices you see may vary.

Switching Between Students

For parents/guardians who have more than one student, click on the "Select Student" dropdown box near the top right of the screen in the light blue bar. Then click on the student you want to view.

Switching from English to Another Language

For parent/guardians who would like to view the screens in a language other than English, click on the "Select Language" dropdown list in the bottom left corner of the screen. This function is available on all Parent Access screens. The languages currently available are shown here.

Menu Choices for Student Information

The dark blue bar at the top of the screen contains the five major types of data that are available to you. Each of those 5 menu options has a submenu in the light blue bar directly below. The submenu options may vary from those shown here, and may vary for different students based on the school they attend.

Student Data Summary

- On the left, there is basic information such as student ID#, homeroom, team, grade and age.
- Note the <u>Lunch Balance</u>. When present, it's time to submit your payment to Food Services.
- A student's schedule is shown, when applicable.
- Bus information is also displayed.

	BUS	WEEK / DAY TUESDAY >					WEEK / DAY	
	ROUTE	TIME	BUS STOP	PICK UP / DROP OFF				
AM	EH02	6:57AM		220 Ewingville Rd				
PM	EH 02 - PM	3:11PM		220 Ewingville Rd				

Attendance

The first Attendance tab shows Daily Attendance. The second Attendance tab shows Class Attendance (when applicable).

When a school also takes Class Attendance, there is a second tab (next to the Daily Attendance tab) that will show class attendance per day of the month. *It is critical that you also check class attendance!* Unexcused absences, tardies and lates contribute to loss of credit at Ewing High School, and potentially a lower grade.

Daily Attendance (Homeroom)

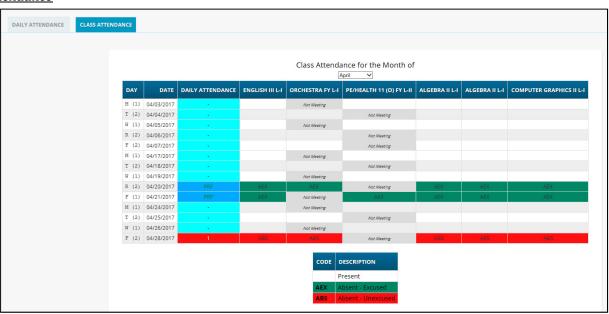

• The Attendance Calendars with each day color coded. Typical attendance codes include:

Unexcused absence Unexcused tardy Left early Excused absence Excused tardy Field trip

- The color-coded 'Legend' describes the meaning of each attendance code.
- Attendance totals for the year

Class Attendance

Gradebook

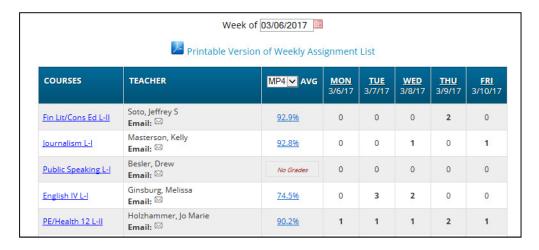

Some schools display the student's Gradebook for each class. Currently, the high school and middle school provide this information. Within the Gradebook, there are three tabs.

Gradebook Weekly Summary

This screen shows how many assignments are due for each class, and on what days. You can change the week and the marking period for which you'd like to see the average. You can also print the weekly assignment list.

- When you click on the Course, it takes you to the List Assignments tab.
- When you click on the average grade hyperlink, it takes you to the Course Summary tab.
- You can send an email to the teacher by clicking on the envelope icon next to the teacher's name.

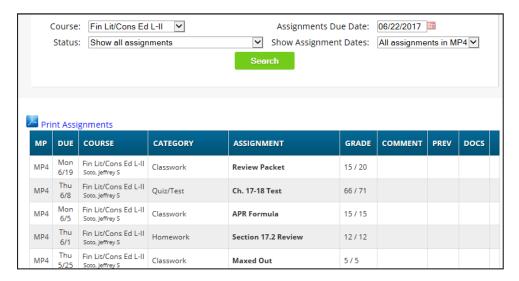

List Assignments

This screen allows you to view all the assignments for that course, and grades when they are available. You can change the search criteria to view the data in a different way. This is useful to limit or expand the assignments displayed on the screen. For example, you can:

- Switch to a different course
- Select a different due date
- Specify a different period of time (such as a MP, Month, Week, Day, or All)
- Look at assignments based on status (such as those that are graded, ungraded, missing, etc.)

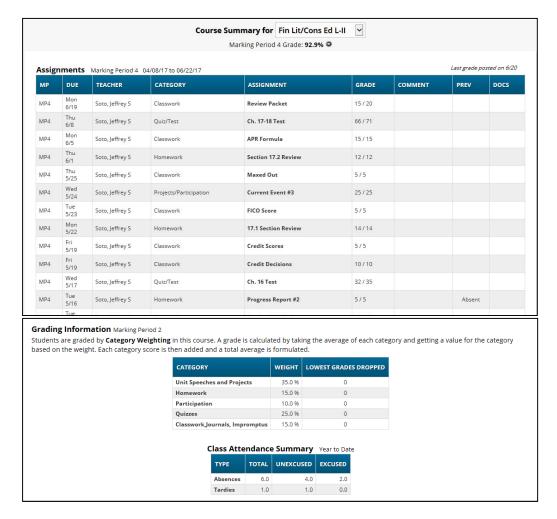

You can also print the listed assignments from this screen.

Course Summary

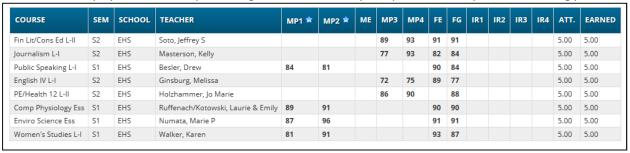

This screen will display the assignments for the MP that was selected on the Summary page. You can change the course at the top of the screen. Note: At the bottom of the page is important and helpful information, including:

- <u>Class Attendance Summary</u> (This includes how many unexcused tardies and absences may contribute to a lower grade or no credit for the course)
- <u>Category weights</u> used in grade calculation

Grading

Some schools display the student report card grades. In this example, a parent can keep track of marking period and exam grades.

Report Cards

Beginning in the 2018-19 school lyear, student report cards will be displayed on Parent Access. NOTE: Report cards will not be available for FMS and EHS students if the student has outstanding fines.

2. Once on the Grading page, click on the "Available Report Cards" tab.

3. You will see a list of the report cards available for viewing similar to the lists below. To <u>View</u>, click on the PDF icon to open the report card.

Discipline

The Discipline tab, when available, lists the various infractions. When you have concerns or questions, you may contact the Dean at the school.

2016-17 Discipline Record						
	DATE TIME INFRACTION ACTION		ACTION DATES			
1	12/1/2016	Period 1	Lateness to class	Conference with Student and Administrator	12/2	
2	11/23/2016	Period 1	Cut Teacher Detention	Extended Detention - 1 day	12/8	
3	11/19/2016	After School	Cut Detention	In-School Suspension - 1 day	11/28	
4	10/20/2016	Period 1	Lateness to class	Saturday Detention	11/19	
5	10/18/2016	Period 1	Lateness to class	Conference with Student and Administrator	10/20	

Fees and Fines

Some schools display the fees and fines that a student has accrued. The balance due must be paid to avoid loss of privileges.

Documents Library

When documents are posted to the Parent Access for your student, they will be listed in the Documents Library. Often they are provided simply for your information. However, especially at the beginning of the school year, you may be asked to confirm that you read the document.

To read a document, click on the blue title of the document. While you are viewing the document, you may print it, or you may also save it to your computer.

Acknowledging that You Have Read the Document

To acknowledge that you have read the corresponding document, click the button. This causes a confirmation dialog to appear:

Acknowledge that you have read this document

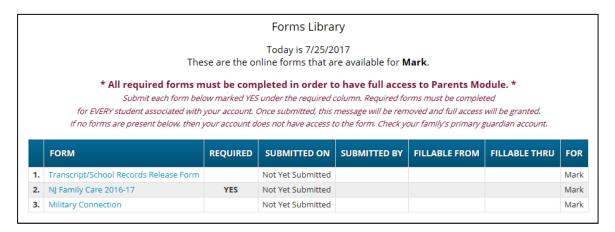

You must type the word YES (all in capital letters) into this dialog box and click the OK button to acknowledge that you have read the corresponding document.

WARNING: Clicking the button and entering YES into the prompt is a **legal** acknowledgement that you have read and accept the content of the document.

Forms Library

When forms are posted to the Parent Access for your student, they will be listed in the Forms Library. Forms request information needed from the parent in an electronic format. Note the column that designates a form as REQUIRED. You must complete that form before you will be allowed to view any other screens for your student(s). If you have more than one student who has a required form, you will need to complete the required forms for each student.

In this example, the NJ Family Care form is required.

When you click on the <u>name of the form</u>, it will be displayed so you can respond as needed. Here is a sample.

When you are done filling in the form, click the Update Answers button. This sends your answers to Genesis. If you do not click Update Answers button your answers will not be recorded.

Finalizing Forms

Some forms will ask you to finalize your responses. When you see this popup box, you should click the "Finalize" checkbox, and then click on "Update Answers." Until you do this, the form will not show as completed, and the data will not be sent to Genesis.

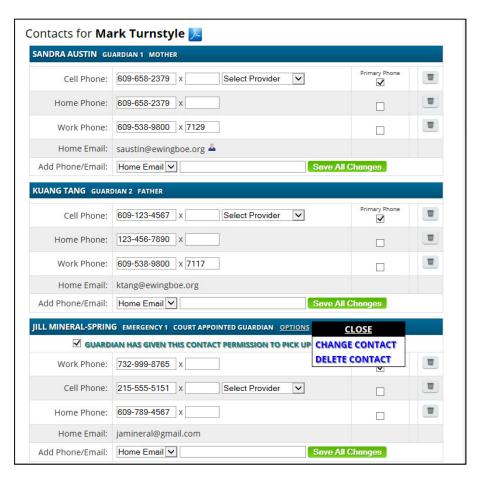

WARNING: Finalizing the form is a legal acknowledgement that the answers you have provided are accurate.

Updating Contacts

It is very important that the contact information the schools have for guardians, emergency contacts, and who is authorized to pick up a child from school. To facilitate keeping the data up-to-date, Contact information can be displayed on the Contacts tab. Parents can make changes in one of two ways.

1. You may update or delete some of the information yourself by clicking on the "Options" button. You may also add contacts by clicking on the green button at the bottom of the page. Be sure to click the "Save All Changes" or "Add Contact" buttons as appropriate.

2. Click on the blue icon next to the student's name and print the contact information. Make any changes on the printout and return to your school office so the student's information can be updated.

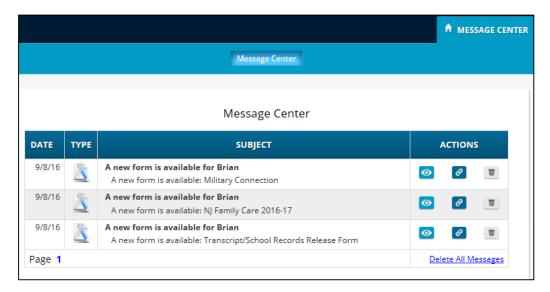

IMPORTANT:

DO NOT DELETE or change the names of any contacts against whom a Custody Alert has been previously identified. The name and relationship to the student of that contact must remain in order to protect the child. Contact the school office if you have any questions.

Message Center

The Message Center is like a mailbox. It identifies updates made to Parent Access, such as forms, documents, grades, etc.

- Click on the eye icon to view the document.
- Click on the paperclip (attachment) icon to display the Documents tab.
- After reviewing the messages, click the trash can icon to delete the message.

Alerts

If your school allows, it is possible for you to set up alerts. This means you will receive an email when a student has an update to one of the Parent Access screens. To sign up for an alert, check the type of alert you'd like to receive at the bottom of the screen next to your email address. You can change these settings at any time. A description of the alerts is as follows.
