

School Supply Shopping

When shopping for your child's school supplies, please ensure you are purchasing the crayons that are **classic** colors, not neon or specialty colors.

I was able to find the 8 and 16 pack at Walmart. Most stores have the 24 count classic color crayons on sale for 50 cents during back to school shopping. Also, please ensure that the crayons are skinny crayons. Please do not purchase the fat crayons.

We only need the watercolor set with **8** colors.
