The Story of Cherished Teddies...

In 1990, Priscilla Hillman submitted thirty-six oil paintings of teddy bears — complete with tattered paws, tiny black eyes, and irresistible 'take-me-home' expressions — to Enesco. Two years later, those original designs had been transformed into three-dimensional figurines and became the **Cherished Teddies® Collection** — which has touched the hearts of young and old alike ever since.

Later, Priscilla's son, Glenn, became involved in the **Cherished Teddies** creation process too. He began designing **Cherished Teddies** figurines alongside his mother as soon as he had graduated from Vassar College with a degree in Architectural History.

Most of the pieces in the collection are now designed jointly, with both mother and son adding insight and creativity to each design. Every **Cherished Teddie** starts

life in the minds of Priscilla and Glenn, who lovingly capture the unique personality and charm of each new **Teddie** in an original drawing. Their final drawings are then sent overseas to the **Cherished Teddies** sculptors, who follow all of the size and colour specifications indicated on the original artboards.

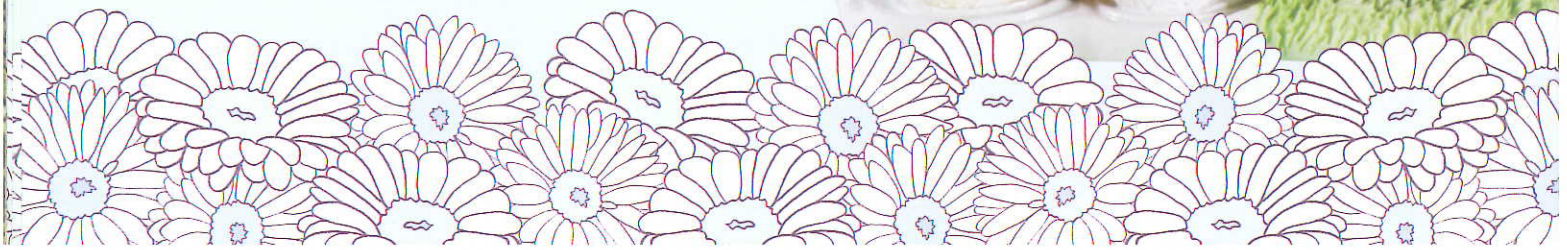

Each and every figurine is then given a name, chosen by Priscilla and Glenn, along with an individual title or sentiment — making them even more special and the perfect choice for sharing with your *Cherished* loved ones.

Since her early childhood, art has always been a central part of Priscilla Hillman's life. So it may come as somewhat of a surprise to learn that she never actually trained as an artist — opting instead for a scientific career path!

Although she had always loved drawing, Priscilla actually studied botany at the University of Rhode Island. After graduating, she worked for the US Oceanographic Office, as a marine biologist! Thankfully, despite her scientific background, she continued pursuing her artistic interests, and in the mid-1980s she eventually broke away from her scientific background and became an illustrator of children's books.

So where did the inspiration for **Cherished Teddies** come from? Well, during a convalescence from a serious back problem, Priscilla occupied her active imagination by 'drawing images in her mind' of adorable, well-worn bears any grandmother might have in her attic. When she recovered, Priscilla began sketching and painting these bears. It is these very sketches which she sent to Enesco — and the rest, as they say, is history!

Since the launch of its first pieces, in 1992, **The Cherished Teddies Collection** has received numerous awards and world-wide acclaim. Each adorable figurine comes with a 'Certificate of Adoption', fulfilling Priscilla's original hope, that her **Teddies** find a special home...in your home!
