

Photosynthesis and Cellular Respiration Foldable

For this assignment, you are going to be making a 5-flap foldable for the cellular process of photosynthesis and cellular respiration. Use your notes, if necessary, to assist you on this review activity.

Set-up

- Fold the right side of the paper over to the left side.
- Do not cover the holes.
- Turn the paper sideways and fold over $\frac{2}{3}$ leaving a $\frac{1}{3}$ section. Then fold the $\frac{2}{3}$ side in half to get 5 equal size flaps.
- Cut along the lines you just folded ONLY to the center fold line.

Front Flaps

- Label each flap following the order below:
 - Organelle
 - Equation
 - Reactants in Equation
 - Production in Equation
 - Importance to Organism (must be 2 sentences)

Inside Back- Photosynthesis

- Fill in the boxes following the prompt on the front flap for the process of photosynthesis.

Inside of the Flaps- Cellular Respiration

- Fill in the boxes following the prompt on the front flap for the process of cellular respiration.
