$ 250

Workstation Licensing: Per-seat license allows for unlimited processing in interactive desktop mode.

Concurrent Licensing: Allows sharing or floating of licenses among multiple users. For example an office w/ 3 users on different shifts could purchase a single concurrent license shared at each user's desk rather than 3 separate Workstation licenses.

***Free or Embedded:** Versions now Available. SimpleView and SimpleExport are now accessible within SimpleIndex

[1]**Service Processing:** Enables unattended processing via service or scheduled task. Base Service license allows processing of up to 1 Million pages per year. Purchasing additional Service licenses increases annual processing volume in increments of 1M pages.

[2]**Advanced Barcode Service:** By default, Service license uses DTK barcode engine. Advanced Barcode license enables the Accusoft 1D/2D barcode engine and Voting options in Service mode and removes the 1 million page per year and processing speed restrictions.

[3]**Annual Maintenance:** includes product upgrades, and telephone, e-mail and live online technical support, plus up to 1.5 hours of initial setup. All licenses must have current maintenance to receive support.

Effective Version 8.0 (May 2015)
