### VISUALIZE...CAPITALIZE...REALIZE...MAXIMIZE!

Glimcher Realty Trust (NYSE: GRT), a real estate investment trust (REIT), is a leader in the ownership, management, acquisition and development of enclosed regional and super-regional malls and community centers throughout the United States. The Company was formed to continue and expand the business and operations of The Glimcher Company, founded in 1959.

Over the last several years, by way of an aggressive acquisition and development program, Glimcher has emerged as a leader in the regional mall segment of the shopping center industry. Touting some of the country's most noteworthy properties, Glimcher's mall portfolio is among the best in the industry. Every year, more than 180 million shoppers visit these malls, which include: Jersey Gardens, a hybrid super-regional center in the highly competitive New Jersey/New York market; Lloyd Center, Oregon's largest enclosed mall; Polaris Fashion Place, the location for fashion in Central Ohio; University Mall and WestShore Plaza, both located in Tampa, Florida, and considered popular tourist attractions in their own right; and many others.

For decades, Glimcher has taken pride in its commitment to provide its retailers with "tools for success". Each property's Specialty Leasing Manager possesses strong retail and visual merchandising skills. They continually seek trendy, timely, innovative, one-of-a-kind, fresh, festive, or just plain fun products and services to enhance the center's retail collection. Every mall also has an on-site management team, which is dedicated to providing service at every level, from the consumer to the retailer. In addition, the Company's strong leasing team is on top of the latest national trends and continually works to refine each center's merchandising mix to suit the needs of a particular market.

Glimcher Realty Trust's common shares are listed on the New York Stock Exchange under the symbol "GRT." Glimcher Realty Trust is a component of both the Russell 2000® Index, representing small cap stocks, and the Russell 3000® Index, representing the broader market.
