

Starbucks Store Locator Tool

When sharing information with students about Starbucks and the Starbucks College Achievement Plan, follow these steps to find a list of Starbucks stores in a specific geographic area:

1. Go to <http://www.starbucks.com/store-locator/search>.
2. Enter the zip code of your high school (or the student's home or preferred location) in the location search box.
3. Locate the nearest **stand-alone/non-licensed*** Starbucks store. Stand-alone or non-licensed stores are not connected to another business.
Examples of licensed stores include:
 - Starbucks located inside a grocery store
 - Starbucks located inside a Target
 - Starbucks located within a hospital or hotel
 - Starbucks located within an airport

* If you have questions about whether a specific store is a stand-alone Starbucks location or a licensed store, please call the telephone number listed for that store.
