HELP US TO HELP YOU

Here's your handy, pocket-sized Personal Checklist of United States Coins to help you keep track of your collection, and help us serve you better. It has been designed to provide two copies of your collection.

One copy, marked **KEEP THIS COPY**, is for you to keep as a pocket-size guide to your collection. Take it with you and you'll always know which coins you own!

The other, marked **RETURN THIS COPY**, should be returned to Littleton Coin. With this confidential checklist, we'll know which coins you're interested in, and we won't send you duplicates of coins you already have. Simply follow the 2 easy steps below and you'll receive just the coins you want... no duplicates!

1. Complete both copies of your Personal Checklist of U.S. Coins. Draw a line through the dates of the coins you have in your collection.

Example (at right):

ROOSEVELT DIMES. This tells us that you have the 1946-D, 1946-S and 1947 dimes, but do not have the 1946, 1947-D and 1947-S dimes.

1946	1947
1946-D	1947-D
1946-S	1947-S

2. On the copy marked **RETURN THIS COPY** (indicated at bottom of front cover), completely fill in customer information on the back cover and return this portion of checklist at your earliest convenience. In the future, as you add to your collection please let us know of any new purchases, and we'll add them to your confidential list.

Please Note: some extremely scarce issues have been omitted from the checklist as these coins rarely, if ever, become available for sale.

YOUR GUIDE TO U.S. COIN GRADING

Grade, (or condition), is a measurement of a coin's state of preservation (or quality). Hobbyists collect coins in a variety of grades, based on their individual preferences and budgets. Coins in different grades command different prices depending on the series, scarcity and demand. When you buy from Littleton, you receive a coin that well represents the designated grade, not one that barely makes it – each coin we offer must qualify as Littleton Select Quality. Below are general descriptions for circulated grades, as well as attributes of both Uncirculated and Proof coins. However, combinations of subtle differences can make up various ranges within a grade.

CIRCULATED COINS

Circulated coins have been used to some extent in daily commerce and have some “wear” from handling. Average Circulated coins have a nice appearance, and though they do not meet our standards to be graded Good or better, many of our customers find them highly appealing. Genuine Quality coins do not meet the standards to be graded Average Circulated – however, they do play an important role for many collectors. They offer an affordable way to add coins to a collection that may not otherwise be attainable due to scarcity and budget.

Because older and scarcer U.S. coins may be very difficult to locate in mint Uncirculated condition, circulated coins may better suit your need for some coin series and issues. The grades for circulated U.S. coins are described as follows:

Good

Coin will have a fully readable date. The rims will be nearly full and may be worn down to the tops of the letters. The design of the coin will be fully outlined.

YOUR GUIDE TO U.S. COIN GRADING

Grade, (or condition), is a measurement of a coin's state of preservation (or quality). Hobbyists collect coins in a variety of grades, based on their individual preferences and budgets. Coins in different grades command different prices depending on the series, scarcity and demand. When you buy from Littleton, you receive a coin that well represents the designated grade, not one that barely makes it – each coin we offer must qualify as Littleton Select Quality. Below are general descriptions for circulated grades, as well as attributes of both Uncirculated and Proof coins. However, combinations of subtle differences can make up various ranges within a grade.

CIRCULATED COINS

Average Circulated coins have a nice appearance, and though they do not meet our standards to be graded Good or better, many of our customers find them highly appealing. Genuine Quality coins do not meet the standards to be graded Average Circulated – however, they do play an important role for many collectors. They offer an affordable way to add coins to a collection that may not otherwise be attainable due to scarcity and budget.

Because older and scarcer U.S. coins may be very difficult to locate in mint Uncirculated condition, circulated coins may better suit your need for some coin series and issues. The grades for circulated U.S. coins are described as follows:

Good

Coin will have a fully readable date. The rims will be nearly full and may be worn down to the tops of the letters. The design of the coin will be fully outlined.

Very Good

Coin will have a fully defined rim and full legends with all the lettering and numerals distinct. Some detail in the design of the coin will begin to show.

Fine

Moderate wear will be evident. The date will be bold and all letters and legends will be clear. Major elements in the design will show some separation.

Very Fine

Approximately two-thirds of the coin's overall design will be visible. The date, letters, and major elements of the design will be sharply defined.

Extra Fine

All elements in the design will be clearly visible. There may be mint luster evident, especially around the edges of the design. The high points of the design will be slightly worn.

Very Good

Coin will have a fully defined rim and full legends with all the lettering and numerals distinct. Some detail in the design of the coin will begin to show.

Fine

Moderate wear will be evident. The date will be bold and all letters and legends will be clear. Major elements in the design will show some separation.

Very Fine

Approximately two-thirds of the coin's overall design will be visible. The date, letters, and major elements of the design will be sharply defined.

Extra Fine

All elements in the design will be clearly visible. There may be mint luster evident, especially around the edges of the design. The high points of the design will be slightly worn.

About Uncirculated

Wear is evident only on the highest points of the design. There may be abundant mint luster.

UNCIRCULATED AND PROOF COINS

Uncirculated

Uncirculated coins exhibit no wear and display all of the original details. Generally more expensive than circulated coins, they represent greater quality and scarcity. Uncirculated grades range from MS-60 Typical to

MS-70 Perfect. Most specimens range from MS-60 to MS63+, as very few coins meet the technical standards for MS-65 or higher.

Proofs

Proof is not a grade, but a method of minting coins that represents the pinnacle of the minter's art. Proof coins are made by a special process that uses carefully selected coin blanks and dies. The blanks are slowly fed into a specially adapted press, then struck at least twice to produce high-relief features contrasted against deep mirror-like surfaces. Later, they are packaged for collectors only.
