Techstream Software

Techstream V14.20.019 Software
New Techstream software is now available for download. Version 14.20.019 includes additional model coverage for 2020MY vehicles as well as Toyota ISTA Diagnostic Software support for the new Supra. Full support is provided for 2019 and earlier models.

Should you encounter any issues with Techstream software, please push the F12 button and submit a detailed Error Report.

[First time updating Techstream?](#)

[Techstream Support Quick Training Guide](#)

- [Update \(V14.0 and later\)](#)
- [Full Install \(New Installs\)](#)

Techstream Lite Getting Started
After you obtain a PC that meets the [minimum network and hardware requirements](#), follow these easy steps to get your Techstream Lite configured quickly. For detailed instructions refer to the [Techstream Lite Installation Instructions](#).

1. Install Mongoose VIM Software (Choose the link below that corresponds to the device you have. NOTE: If you install the incorrect driver, your Mongoose cable will not operate correctly.)
 - [Mongoose PRO VIM Software \(Blue Case\)](#)
 - [32-bit Mongoose PRO MFC Software Installer v1.2.10](#)
 - [64-bit Mongoose PRO MFC Software Installer v1.2.10](#)
 - [Mongoose PRO MFC2 VIM Software \(Green Case\)](#)
 - [32-bit Mongoose PRO MFC2 Software Installer v1.7.2](#)
 - [64-bit Mongoose PRO MFC2 Software Installer v1.7.2](#)
2. Install full version of Techstream Software [Techstream V14.20.019 Full Software Installer](#)
3. [Register Techstream Software](#)
4. Set Techstream [VIM Selection](#) to Mongoose PRO

Looking to upgrade your Mongoose MFC to Mongoose PRO? [Click here](#)

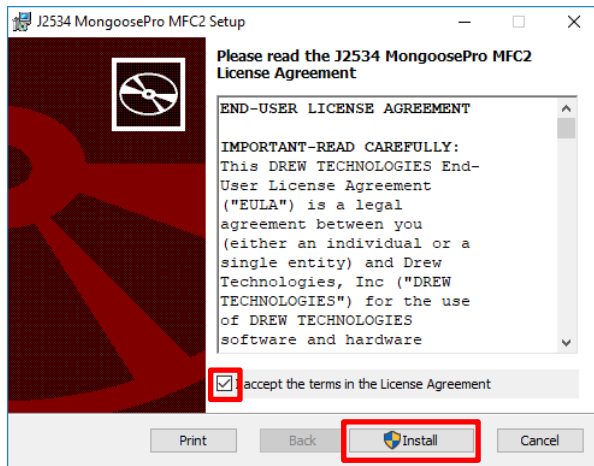

- From the Downloads folder on your PC, double click on the downloaded installation file.

NOTE: MongooseProMFC2_x64 shown as an example. Your content may differ depending on the downloaded version.

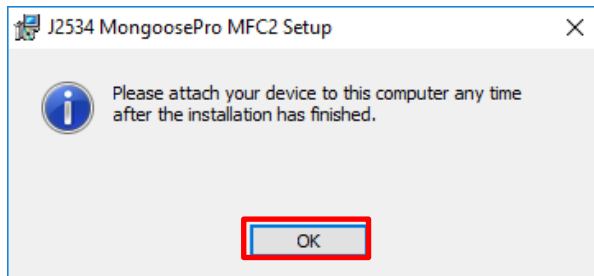

- A setup screen will appear as shown. Check the box labeled “I accept the terms in the License Agreement” then click **Install**.

NOTE: MongoosePro MFC2 installation screen shown as an example. MongoosePro MFC installation screen differs but follows the same setup procedure.

5. You will be instructed to attach the MongoosePro MFC/MFC2 device to the computer after the installation is complete. Click **OK**.

NOTE: MongoosePro MFC2 installation screen shown as an example. MongoosePro MFC installation screen differs but follows the same setup procedure.

6. Click **Finish** to exit the setup

NOTE: MongoosePro MFC2 installation screen shown as an example. MongoosePro MFC installation screen differs but follows the same setup procedure.

7. Connect the **MongoosePro MFC/MFC2** VIM to the PC USB port. The Mongoose driver will be installed automatically. After a few minutes, confirm the green LED light in the DLC3 (OBD-II) end of the VIM is flashing. This indicates the driver is installed and MongoosePro MFC/MFC 2 VIM is ready to be used.

Installing Techstream Software from Techinfo Website

Perform the following:

1. Go to <https://techinfo.toyota.com>, enter **User Name** and **Password** then click **Login**.

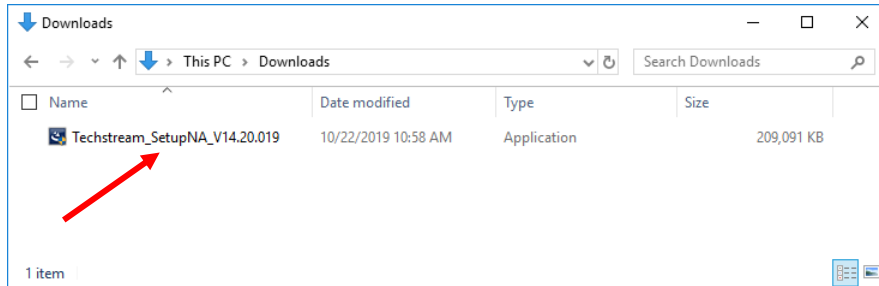

2. Click on **TIS** → **Diagnostics** → **ScanTool**

In the Techstream Software section, select **Full Install** to download the installation file.

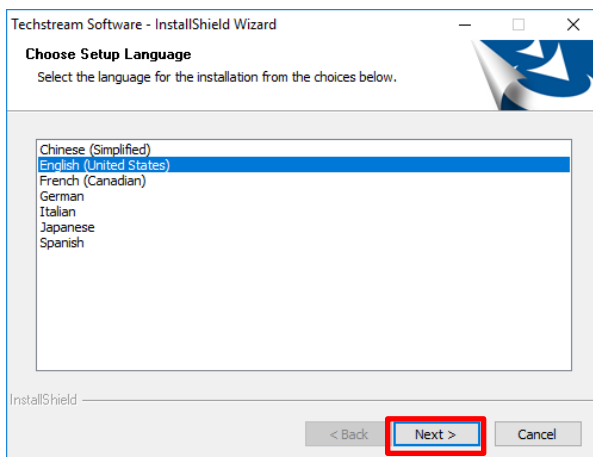

NOTE: The Techstream software version shown is for reference, as an updated version may be available.

- From the Downloads folder on your PC, double click on the downloaded installation file.

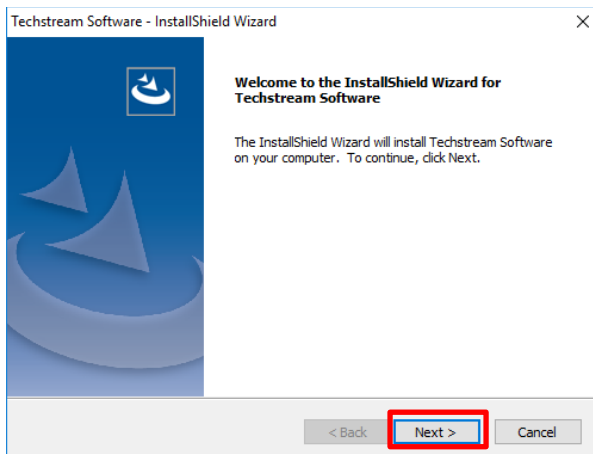

NOTE: Techstream_SetupNA_V14.20.019 shown as an example. Your content may differ depending on the available version.

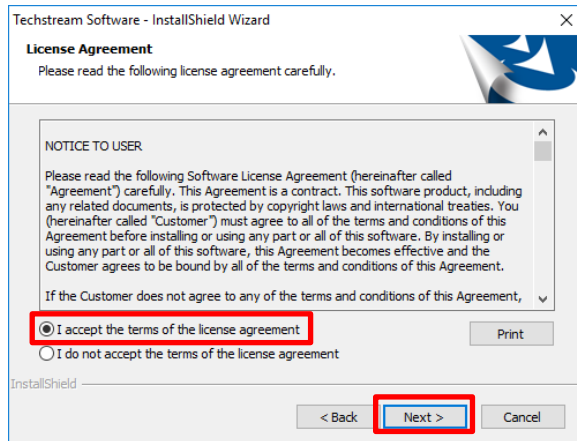

- Choose setup language and click **Next** to continue.

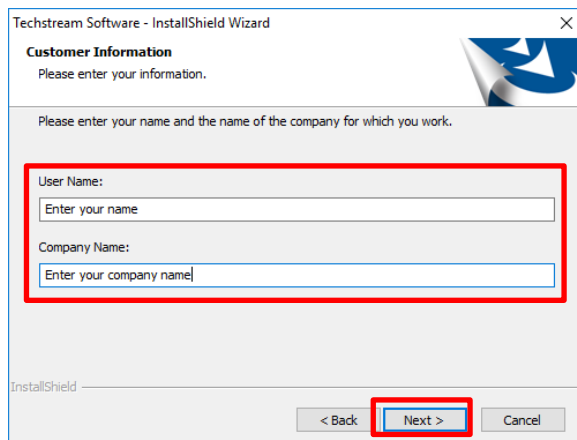

- Click **Next** again to continue.

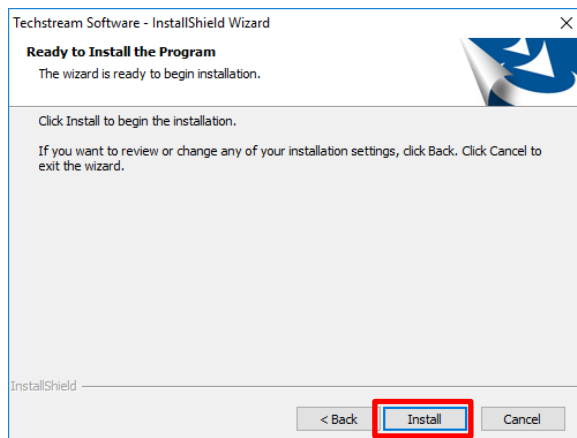

6. Check the box labeled “I accept the terms of the License Agreement” then click **Next**.

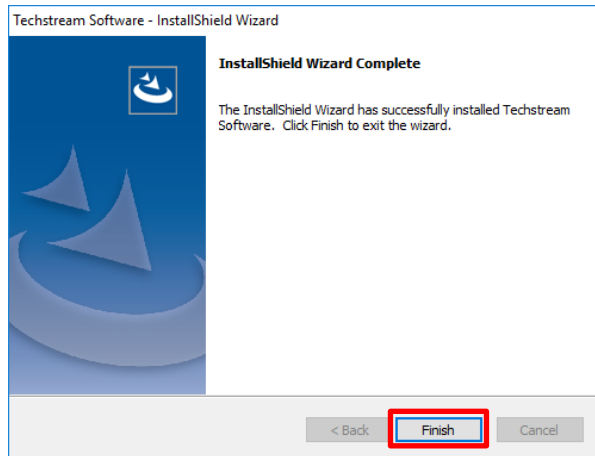

7. Enter your **User Name** and **Company Name**, then click **Next** to continue.

8. Click **Install** to begin the installation.

9. Click **Finish** to complete the installation

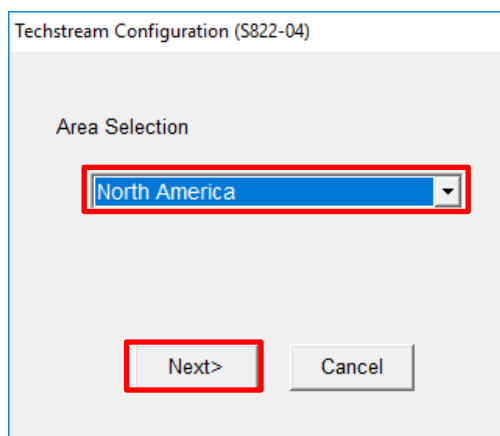

Configuring Techstream Software for Your PC

Perform the following:

1. From your Windows Desktop, double click the Techstream icon.

2. Select **North America** and click **Next** to continue.

3. Select a Language from the drop-down option. English is default. Click **Next**.

Note: The Register Techstream Software screen will close and the Techstream software is now registered.

Selecting the MongoosePro MFC/MFC2 VIM from Techstream

Techstream software requires a VIM selection before you can use the MongoosePro MFC/MFC2 VIM. Perform the following steps to select the appropriate VIM.

Perform the following:

1. Select **Setup** from the Techstream Main Menu
2. Select **VIM Select** from the **Setup** drop-down menu

3. Click the Interface setup drop-down arrow and select the appropriate VIM from the list, then click **OK**.

NOTE: MongoosePro MFC/MFC2 software must be installed before your VIM selection will be available. MongoosePro MFC2 selection shown as an example.

Connecting to Vehicle to Verify Techstream Lite Operation

Perform the following:

1. Connect **MongoosePro MFC/MFC2** device to PC via USB port.
2. Connect **MongoosePro MFC/MFC2** device to vehicle's **DLC3 (OBD-II)** port.
3. From the Techstream main menu, click **Connect to Vehicle**.

4. Vehicle information should be prepopulated as in the example below. Select the appropriate vehicle **Option** and click **Next**.

Vehicle Connection Wizard(S301-04)

Confirm the Information and press Next

Required Information:

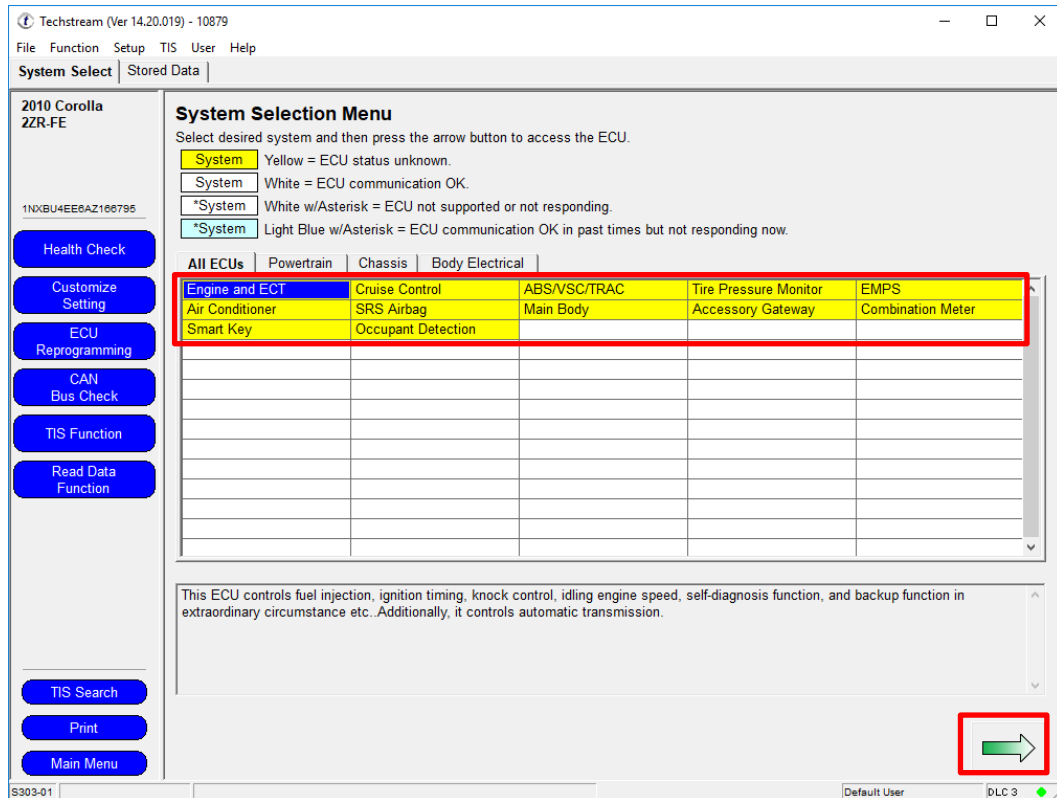

Division:	TOYOTA
Model:	Corolla
ModelYear:	2010
Engine:	2ZR-FE
Option:	w/ Smart Key w/o Smart Key

Optional Information:

VIN:	1NXBU4EE6AZ166795
Memo:	

Manual Help <Back **Next>** Cancel

- From the **System Selection Menu**, select an ECU and click on the **Green Arrow** to confirm communication with the ECU. If Techstream advances to the Trouble Codes screen, communication has been established and you are done!
