

Complete Visual Compliance Screening Instructions

The University of Illinois uses Visual Compliance® to expedite screening of several U.S. Government lists of individuals or entities that are barred or otherwise restricted from entering into certain types of transactions with U.S. persons. The lists, which may be found in Visual Compliance® under Authorities Consulted, are specifically applicable to export controls and must be screened to ensure that the University does not engage in a transaction with a barred entity.

Restricted party screening should be completed:

- Before initiating formal or informal collaborations
- Before discussing plans to engage in sponsored projects
- Before exchanging personnel, materials, data, confidential information, or money with foreign persons, academic institutions, governments, companies, or other foreign entities.
- Before considering research collaborations or appointments

Restricted party screening must be completed for:

- Foreign sponsors and vendors
- Foreign research collaborators
- Foreign sponsors of international travel and international conferences
- University-sponsored applicants on H1-B and J-1 Research Scholar, Professor, and Short-Term Scholar visas
- All personnel associated with export controlled research
- Foreign entities with whom the University has Confidentiality or Non-Disclosure Agreements
- Foreign visitors, visiting scientists, and visiting speakers
- Subcontractors and Subawardees to sponsored projects
- Recipients of Materials Transfer Agreements

You should keep a record of each restricted party screening you conduct. Visual Compliance allows for the creation of a pdf document or you can email the results. This document should be retained in printed or electronic (preferred) form for future access if needed. The Export Controls Compliance Officer can work with each unit on how and where each unit should retain search records.

Dynamic Screening Alert

Visual Compliance maintains an audit trail of all restricted party screenings and has a dynamic screening function that rescreens all entries daily and provides a notification if there is ever a change in the status of a previously screened party.

If there is a change in the status of a previously screened party, you, as the original search registered user, will receive an email from Visual Compliance. The sender is report@visualcompliance.com and the subject line is **Daily RPS Dynamic Screening Alert**.

The body of the email will begin with:

NOTICE: Visual Compliance RPS Dynamic Screening has found a same-alert match for a previously screened party.

Following that notice will be details on the original search and the status change.

If you ever receive a **Dynamic Screening Alert** email, please forward that to exportcontrols@illinois.edu. The Export Controls Compliance Officer will be able to assist you with next steps.

Getting Started

1. Register

UIUC faculty and staff wishing to use Visual Compliance® will need to register. Registration instructions are also included in the Visual Compliance Quick Instructions document. If you have any questions, please contact the Export Controls Compliance Officer at exportcontrols@illinois.edu. Training is recommended before use and a link can be found on the log in page. The University of Illinois system has unlimited licenses for the official use of employees and departments, and utilizes a single sign-in portal to access Visual Compliance®.

2. Login

Registered users will use the University of Illinois's single sign-in portal to access Visual Compliance. The link is: <https://smo.uillinois.edu/visualcomp>

You will first be instructed to sign into the Tri-Campus Discovery Service Proxy. Log in using your UIUC NetID and password.

ILLINOIS LOGIN

You must log in to Tri-Campus Discovery Service Proxy to continue.

Enter your NetID:

RPS Search Page

Once logged in, Click on **RPS** at the top of the page; or click on **Restricted Party Screening** in the bulleted list.

Note: Individuals (Name) and entities (Company or Institution) must be screened separately.

All words entered in the respective fields are evaluated in the search. This means that if all of the words you supply do not occur in a given target record, that record will not be returned in the results, the same as in an eBay or a Google search.

EXAMPLE: In a search for the University of Illinois, you might enter the words "University Illinois" You retrieve results, including the University of Illinois at Chicago. However, on your second try, you enter "University of Illinois at Chicago" Your results do not include the University of Illinois (the target record) because you added the word "Chicago" in your keywords, which does not occur in the target record.

Conduct a Name Search

1. Enter the **first name** and **last name** of the person you wish to search in the **Name** box. Do not include a middle name. You should conduct a search for each non-U.S. collaborator, official or key person listed in your documents or engaged in the activity.

NOTE - Address, City and State fields are optional. When a country name is included in the search request, any risk country alerts for sanctions, embargoes, and other prohibitions and cautions are returned with the search results.
2. From the **comment** dropdown box, choose an item that describes your search.
3. Add additional comments in the **text** box. These comments will be displayed in the email reports and saved in the audit log for later reference or search.
4. Click **Fuzzy Level** box and choose **2** from the dropdown.
5. Ensure defaults for **Field Specific** and **Remove business words** boxes are checked.
6. Check **Thesaurus** box when doing a Name Search only.
7. Hit the **Screen** button.

The screenshot shows the 'VISUAL COMPLIANCE Research Edition' interface. At the top, there are navigation tabs for 'CCL/ECCN', 'ITAR/USML', 'Inventory', 'RPS', 'Regulations', 'Schedule B', 'Resources', and 'Home'. Below this is a header for 'RESTRICTED PARTY SCREENING' and 'AUTHORITIES CONSULTED'. The user is identified as 'REGISTERED USER: KATHY GENTRY, UNIVERSITY OF ILLINOIS'. The main section is 'INDIVIDUAL AND COMPANY SCREENING'. It contains several input fields: 'Name' (filled with 'Kathy Gentry'), 'Company', 'Address', 'City', 'State', and 'Country' (with a dropdown menu). Below these is a 'Comment' dropdown and a text box. Search options include radio buttons for 'Exact', 'Phonetic', and 'Fuzzy Level' (set to '2'), and checkboxes for 'Stemming', 'Thesaurus', 'Field Specific', and 'Remove business words'. There is also an 'ECCN for country controls check' dropdown. At the bottom of the search options is a 'SCREEN' button. To the right, there are three panels: 'BLOCKED FOREIGN NATIONALS BY COUNTRY', 'BLOCKED ENTITIES AND FUGITIVE LISTS', and 'GEOGRAPHIC LOCATION FROM IP ADDRESS'. At the bottom of the interface, there are icons for 'RPS Changes', 'GSA Changes', 'Blocked Vessels', 'IAEA Facilities', and 'Risk Country'. Red callout boxes with numbers 1 through 7 point to the Name field, Comment dropdown, Fuzzy Level dropdown, Thesaurus checkbox, Field Specific checkbox, SCREEN button, and the bottom of the page respectively.

Terms Found on Search Page

Exact – Returns records containing whole or partial exact matches to the spelling of the keywords entered, for all keywords supplied. (The keywords provided will be modified in the search with the use of stemming or thesaurus.)

Phonetic – Accounts for variations in the way a name can be spelled; looks for letter combinations that sound the same.

Fuzzy – Looks for words with letters that resemble those searched, compensating for minor spelling errors, with levels of sensitivity of 1 to 4.

Stemming – Automatically adjusts for word endings, (i.e. –ed, –ing), returning results containing the "root" of the word.

Thesaurus – Accounts for variations in form and style for geographic place names (United Kingdom, Great Britain, England, U.K.) and possible variations in proper names (Robert, Rob, Bob, Bobby).

Field Specific – Prevents name and company keywords from being searched in the 'Notes' field. Deselect to also search Notes.

Remove business words - Strips business declarations (i.e. LLC, Inc, GmbH). Recommended for all users.

ECCN for country controls check - Runs the ECCN number selected through the Commerce Country Chart license determination evaluation for the country entered in the RPS search.

Export, Munitions, GSA, Police, Banking, and/or International - You will generally want to check all of the lists which is how the default is set. However, you have the option of choosing the specific lists you want to check .

Conduct a Company or Institution Search

1. Enter the company, institution, entity you wish to search in the **Company** box. Use a few descriptive words from the name. For example, if the name is University of Illinois at Chicago, you may want to enter “University Illinois” or “University Chicago.” You should search each foreign collaborator, institution, company, business listed in your documents.

NOTE - Address, City and State fields are optional.

2. Choose the appropriate country from the **Country** dropdown menu.

NOTE - **Country** is not optional for a **Company or Institution Search**. When a country name is included in the search request, any risk country alerts for sanctions, embargoes, and other prohibitions and cautions are returned with the search results.

3. From the **comment** dropdown box, choose an item that describes your search.

4. Add additional comments in the **text** box. These comments will be displayed in the email reports and saved in the audit log for later reference or search.

5. Click **Fuzzy Level** box and choose **2** from the dropdown.

6. Ensure defaults for **Field Specific** and **Remove business words** boxes are checked.

7. Hit the **Screen** button.

The screenshot shows the 'Visual Compliance Research Edition' interface. At the top, there are navigation tabs: CCL/ECCN, ITAR/USML, Inventory, RPS (selected), Regulations, Schedule B, Resources, and Home. Below this are three main sections: RESTRICTED PARTY SCREENING, AUTHORITIES CONSULTED, and SANCTION PROGRAMS. The user is logged in as 'KATHY GENTRY, UNIVERSITY OF ILLINOIS'. The main search area is titled 'INDIVIDUAL AND COMPANY SCREENING' and contains several input fields: Name, Company (filled with 'Huawei'), Address, City, State, and Country (filled with 'China'). Below these fields is a 'Comment' dropdown menu and a 'SCREEN' button. To the right of the search fields are three informational panels: 'BLOCKED FOREIGN NATIONALS BY COUNTRY', 'BLOCKED ENTITIES AND FUGITIVE LISTS', and 'GEOGRAPHIC LOCATION FROM IP ADDRESS'. At the bottom of the search area, there are several checkboxes: 'Exact', 'Phonetic', 'Fuzzy Level' (set to 2), 'Stemming', 'Thesaurus', 'Field Specific' (checked), 'Remove business words' (checked), and 'ECCN for country controls check'. There are also checkboxes for 'Export', 'Sanctions', 'GSA', 'Police', 'PEP/OIG', and 'International', along with a 'Reset Defaults' button. At the bottom of the page, there is a footer with a copyright notice: 'The method of queuing, validating, submitting and processing RPS queries used in Visual Compliance is protected under U.S. Patent 8,484,659 - Distributed processing of binary objects via message queues including a failover safeguard.'

Company or Institution Search No Matching Records If you conduct a **Company or Institution Search** and there are no matching records, you may proceed with the activity and/or processing your documents the same as the name search.

Company or Institution Search Matching Records

If you conduct a Company or Institution Search and are ANY matching records for the person name, notify the Export Controls Compliance Officer (exportcontrols@illinois.edu) before proceeding any further.

The screenshot shows the 'VISUAL COMPLIANCE Research Edition' interface. The search criteria include: Name: n/a, Company: Huawei, Address: n/a, City: n/a, State: n/a, Country: PR China [CN]. The search type is 'Fuzzy [2] matches, which returned 29 results. Field Specific on, Business words removal [Export, Sanctions, GSA, Police, PEP and International data groups.*]'. The date of search is Thursday, June 13, 2019, at 12:18 PM EDT. A red stamp reads 'RESTRICTION FOUND CONTACT EXPORTCONTROLS@ILLINOIS.EDU'. Below the search details is a table with columns 'Risk Status', 'Jurisdiction', and 'Notes'. The table lists several risk entries for Huawei-related entities under various jurisdictions (US, EU). At the bottom, there is a table with columns 'Reference', 'Name', 'FRC (Click for PDF)', and 'Alert'. This table lists 7 specific Huawei entities with their respective reference numbers and alert icons.

Risk Status	Jurisdiction	Notes
Risk	US	Subject to military end-user and/or end-use based control policy for specified ECCN dual-use items under EAR Part 744 or related policy, or policy of denial for CCL items that contribute to military capabilities.
Risk	EU	Subject to European Union Arms Embargoes or E.U. restrictive measures related to the export of arms based on political commitment
Risk	US	Restricted as an export destination under EAR Part 736 General Prohibition Three (Foreign-produced direct product re-exports) for ECCN 0A919 and 9x315 or '600 series' items in the Commerce Control List.
Risk	US	Prohibited as an export destination for defense articles and defense services under the ITAR (126.1), including denial policy and U.S. Arms Embargo countries.
Risk	US	Restricted as an export destination under Department of State U.S. Arms Embargoes.
Risk	US	Restricted as an export destination under EAR Part 736 General Prohibition Three (Foreign-produced direct product re-exports).
