Intensive Pronunciation Program Overview

Objectives:

- to develop an awareness of the important features of pronunciation
- to identify common problems for both individual and groups of students
- to practise listening for pronunciation features and incorporating them into dialogues, role plays and presentations
- to develop self-study pronunciation techniques with the use of a range of current audio-visual pronunciation resource materials.

Monday	Tuesday	Wednesday	Thursday	Friday

Group Discussion

- What is standard English?
- Does accent matter?
- Are all effective speakers of English native speakers?
- Which English accent do you prefer? E.g. English, American, Australian...?
- Do you want to totally lose your accent?
- What do you find most challenging about English pronunciation?
- How old were you when you started to learn English?
- Were you taught pronunciation?
- Do you have a favourite English speaker? E.g. celebrity, politician, neighbour...?
- Do you think pronunciation is easy to teach? Why?
- What is your motivation for learning English? E.g. study; live and work in Australia; use in business overseas; interest...?

Watch the YouTube clip of Amy Walker introducing herself in 21 different accents:

<https://www.youtube.com/watch?v=3UgpfSp2t6k>

- Which accents did you find difficult/easy?
- Which did you like?

Making Consonant Sounds

Some researchers believe seeing and feeling how a sound is formed physically will help you develop the ability to make that sound. Others think what you hear is more important. **What do you think?**

Where air is blocked or restricted:

Consonant	Both lips	Lips and teeth	Tongue and teeth	Tongue and the front part of roof of the mouth
/p/	✓			
/f/		✓		
/θ/			✓	
/m/	✓			
/t/				✓
/s/				✓
/w/	✓			

How the air passes through the mouth:

Consonant	Airflow is blocked in the mouth with a sudden release of air	Airflow is restricted and friction can be heard	Airflow is restricted but friction cannot be heard	Airflow is blocked in the mouth but it goes up into the nose
/p/	✓			
/f/		✓		
/θ/		✓		
/m/				✓
/t/	✓			
/s/		✓		
/w/			✓	

Yates, L. & Zielinski, B. 2009, *Give it a Go: Teaching Pronunciation to Adults*, Department of Immigration and Citizenship, Sydney

UTS:HELPS

Go to following websites for help making English sounds:

University of Iowa: <http://www.uiowa.edu/~acadtech/phonetics/english/english.html>

HELPS: <http://www.uts.edu.au/current-students/support/helps/self-help-resources/pronunciation/sounds>

BBC/British Council: <http://www.teachingenglish.org.uk/activities/phonemic-chart>

Consonant Clusters/Common Mistakes

Consonant clusters: Two or more consonants with no vowel between them.

- beginning of word e.g. **pretty**; **street**
- middle of word e.g. **degree**; **entry**; **instrument**
- end of word e.g. **sift**; **asks**

Consonant clusters at the end of words can show grammatical meaning:

- plurals e.g. **students**; **books**
- past tense e.g. **cooked**; **climbed**
- present tense e.g. **loves**; **thinks**

Common mistakes with consonants:

- use a different consonant e.g. 'light' sounds like 'night'
- delete consonant at end of word e.g. 'save' sounds like 'say'
- add a vowel e.g. 'past' sounds like 'pasta'

Common mistakes with consonant clusters:

- delete them e.g. 'first' sounds like 'fur'
- delete some of them e.g. 'tense' sounds like 'ten'
- add a vowel after or between consonants e.g. 'just' sounds like 'just a'; or 'improved' sounds like 'improve it'
- pronounce a different consonant e.g. 'fly' sounds like 'fry'

Adapted from Forman, R. 2011, 'Module 5: Phonemic Level', *UTS Subject 013107*, UTS, Sydney; Yates, L. & Zielinski, B. 2009, *Give it a Go: Teaching Pronunciation to Adults*, Department of Immigration and Citizenship, Sydney.

Making Vowel Sounds

- Length

The colon (:) following the phonemic symbol signals that the vowel is long (see *Sounds of English*). It also depends on whether it is stressed – short vowels may seem longer in a stressed syllable and long vowels may seem shorter in an unstressed syllable.

- Tongue position

Horizontal (how far forward or back) and vertical (how high or low in mouth).

	Forward	Back
/i:/ (as in <i>see</i>)	/i:/	/u:/
/u:/ (as in <i>blue</i>)		
/e/ (as in <i>pen</i>)	/e/	/ɔ:/
/ɔ:/ (as in <i>four</i>)		
/æ/ (as in <i>man</i>)	/æ/	/ɒ/
/ɒ/ (as in <i>hot</i>)		

	High	Low
/i:/ (as in <i>see</i>)	/i:/	/æ/
/æ/ (as in <i>man</i>)		
/ɪ/ (as in <i>bin</i>) /ʌ/ (as in <i>fun</i>)	/ɪ/	/ʌ/
/u:/ (as in <i>blue</i>)	/u:/	/ɒ/
/ɒ/ (as in <i>hot</i>)		

Adapted from Yates, L. & Zielinski, B. 2009, *Give it a Go: Teaching Pronunciation to Adults*, Department of Immigration and Citizenship, Sydney and Forman, R. 2011, 'Module 5: Phonemic Level', UTS Subject 013107, UTS, Sydney

Lip Shape:

	Spread lips	Rounded lips
<i>/i:/</i> (as in <i>see</i>)	<i>/i:/</i>	<i>/u:/</i>
<i>/u:/</i> (as in <i>blue</i>)		
<i>/e/</i> (as in <i>pen</i>)	<i>/e/</i>	<i>/ɔ:/</i>
<i>/ɔ:/</i> (as in <i>four</i>)		
<i>/i:/</i> (as in <i>see</i>)	<i>/i:/</i>	<i>/ɒ/</i>
<i>/ɒ/</i> (as in <i>hot</i>)		
<i>/e/</i> (as in <i>pen</i>)	<i>/e/</i>	<i>/ʊ/</i>
<i>/ʊ/</i> (as in <i>look</i>)		

When we say */i:/* and */e/* our lips are spread, while for */u:/*, */ɔ:/*, */ɒ/* and */ʊ/* they are rounded and pushed forward. For the remaining vowels, the lips are in a more neutral position.

Diphthongs

Diphthongs that glide to <i>/ɪ/</i>	Diphthongs that glide to <i>/ə/</i>	Diphthongs that glide to <i>/ʊ/</i>
<i>/e/ + /ɪ/ → /eɪ/</i> (as in <i>play</i>)	<i>/ɪ/ + /ə/ → /ɪə/</i> (as in <i>cheer</i>)	<i>/ə/ + /ʊ/ → /əʊ/</i> (as in <i>phone</i>)
<i>/ɔ:/ + /ɪ/ → /ɔɪ/</i> (as in <i>boy</i>)	<i>/ʊ/ + /ə/ → /ʊə/</i> (as in <i>cure</i>)	<i>/ɑ:/ + /ʊ/ → /aʊ/</i> (as in <i>loud</i>)
<i>/ɑ:/ + /ɪ/ → /aɪ/</i> (as in <i>buy</i>)	<i>/e/ + /ə/ → /eə/</i> (as in <i>hair</i>)	

Adapted from Yates, L. & Zielinski, B. 2009, *Give it a Go: Teaching Pronunciation to Adults*, Department of Immigration and Citizenship, Sydney and Forman, R. 2011, 'Module 5: Phonemic Level', UTS Subject 013107, UTS, Sydney

Diphthongs are a combination of two single vowels. We say them by starting with one vowel and gliding into another. Although they are made up of two vowels they are heard as one phoneme, not two. We put more emphasis on the first vowel than on the second.

APPENDIX TWO

SAMPLE PRACTICE DRILL SENTENCES FOR PROBLEM PHONEMES

Selected and adapted from Fairbanks, G. (1960). *Voice and articulation drillbook (2nd ed.)*. New York: Harper & Row.

Vowel /ɜ:/

1. She saw Bert and Bert saw her.
2. Can a bird learn to purr?
3. Irwin urged the girl to work.
4. Earl worked in a dirty shirt.
5. If you prefer, we'll rehearse the first verse.

Vowel /e/

1. Let the men help us get the bed.
2. They begged for rest before the extra session.
3. Everyone said it was an elegant dress.
4. His entry was an excellent etching of an elk.
5. One method is direct measurement of pressure.

Vowel /eɪ/

1. Stay and play with the baby.
2. James paid for the apron.
3. May baked a cake yesterday.
4. He sailed eighty miles away from the bay.
5. The rain made me late.

Vowel /əʊ/

1. Don't throw snow at your pony.
2. Open the window and close the door.
3. Don't go out in the boat alone.
4. We're both going home.
5. We won't go home till we know who stole the gold.

Vowel /ʊ/

1. Would you look for the cushion?
2. The rook stood on one foot.
3. He shook himself and pushed off into the woods.
4. I could eat a bushel full of cookies.
5. She's good-looking when she puts on the wool dress.

Consonant /r/

1. Harry tried to rip the orange ribbon.
2. Don't run across the narrow bridge.
3. The crows swarmed around the fruit.
4. Robert rode the roan right up the ridge.
5. I'll tell the story tomorrow morning.

Consonant /f/

1. My father takes me fishing every fall.
2. He felt footloose and fancy-free.
3. Did you find enough coffee for breakfast?
4. What seems fine at fifteen seems foolish at fifty.
5. A falling inflection frequently indicates finality.

Consonant /n/

1. Nell's nonsense isn't funny.
2. The Chinese and Japanese weren't friendly recently.
3. Nine fancy brown hens ran out of the barn into the rain.
4. Many are accompanied by downward inflections.
5. You can transfer what you learn into conversation.

Exercise 4

1. Sentences Containing the Most Used Words in the English Language

1	Where have you been?	16	Did you drop in at the supermarket?
2	What's for dinner?	17	I don't know.
3	I'm sorry.	18	You're late.
4	Do you want a cup of tea?	19	I'm thirsty.
5	Is there any cold water?	20	There is cold water in the fridge.
6	Did you have a good weekend?	21	It is too cold in here.
7	It's too hot in here.	22	I'm too tired to study tonight.
8	I'll look at it later.	23	Have you finished it yet?
9	Did you have a good day?	24	You look tired.
10	Can you give me a call later?	25	I'll call you back later.
11	Do you want to go?	26	Which one do you want?
12	Do you remember what happened?	27	I'll wait for you here.
13	Send me an email to confirm.	28	Did you pay the bill?
14	He said that he will do it.	29	Please hold the line.
15	She said that she would call.	30	You are next in the cue.

2. Sentences Containing Words with Initial Consonant Blends and Most Used Words in English

1	This time, try to swing higher.	16	The twigs on the tree have blossoms on them.
2	He needs to move swiftly to catch the bus.	17	The twins look exactly alike.
3	This tea is too sweet.	18	I've called him twice already.
4	Do you want to go for a swim?	19	The shops close late on Thursday nights.
5	They said that they will be here soon.	20	Chips are too fattening but I still want them.
6	This coffee is too cold.	21	The young man chopped the tree down.
7	I think that the government should make a law against that.	22	It is about time that the child wiped the food off his chin.
8	Take them and file them away.	23	The scraps were not put in the bin; instead they were just left on the table.
9	Facts are stranger than fiction sometimes when the lies are stripped away.	24	The point is that he scribbled all over the wall so he should be punished.
10	Find some strong string to tie up the parcel, please.	25	Don't shrug your shoulders like that.
11	Three people were seen running through the bank door after the robbery.	26	We heard a shrill cry from a bird who was sitting in the shrubbery.
12	Few children know how to throw a ball that high and then catch it.	27	I think you should see spring in Australia before you go back to your home country.
13	Look at that rain cloud in the sky.	28	We sometimes see snow on top of the mountains but not on the plains.
14	At school today, my little girl drew a number of small sketches of our house.	29	Come over here and see the spider weaving his web across the footpath.
15	I will still arrive on time for work even though the traffic is very congested.	30	The woman crashed her car right through the fence of the house next door.

Diagnostic Test 1

1. See you later.
2. Are you thirsty?
3. I have to go now.
4. What's that noise?
5. By tomorrow evening.
6. It's about five o'clock.
7. I sent a cheque to Roy.
8. It's on television today.
9. She's upstairs in the bath.
10. Peter works in a shoe shop.
11. Do you really want a drink?
12. I'll go to see Sarah before July.
13. Thanks a lot.
14. It's a pleasure.
15. I forgot to pay Mark for the toys.
16. Your jacket is on the chair outside.
17. Shall I do the washing?
18. Good idea.
19. We're usually home before the children.
20. There's a zoo near Hull. It's not far.
21. We bought an amazing orange and purple car. It's in the garage.
22. Can you just put the books over there by the door?

Your Ideas

Use these pages to make lists of vocabulary, phrases and sentences that you would like to practise this week.

Examples:

- sounds, vocabulary, phrases or sentences from today
- vocabulary, phrases or sentences from your field of study
- phrases and sentences that you would like to use with more confidence socially, in class or at work
- phrases and sentences that may help you in a job interview, a class presentation or an exam
- sections of poetry you enjoy.

Sounds – Past Tense Endings

HELPS Pronunciation Resources

Past tense endings

Speaking English accurately can be a challenge because there are different ways of saying words which are written the same way. For example, the 'ed' syllable ending for past tense verbs and participles can be pronounced as /t/ /d/ or /əd/.

Syllables in words can be tricky:

start (root word) has 1 syllable but start/ed has 2 syllables.
 stay (root word) has 1 syllable and stayed has 1 syllable also.

The end of the root word influences whether 'ed' is pronounced as:

- an extra sound /t/ or /d/ eg *stopped, stayed*
- an extra syllable /təd/ or /dəd/ eg *start**ed**, decid**ed***

We use the schwa /ə/ to pronounce 'ed' as an extra syllable.

Question: What is the rule for the pronunciation of the 'ed' ending?

Exercise: Listen or read the following words.
 Write them in the appropriate place in the table.
 Underline the stressed syllable.

shocked excited embarrassed confused disgusted surprised
 satisfied amazed disappointed depressed
 annoyed amused administered calculated notified

extra sound /t/ or /d/	extra syllable /təd/ or /dəd/

Exercise: Can you think of other words with 'ed' endings YOU need to use regularly?
 Check that you are pronouncing these words accurately.

Stress

Why is word stress important?

Stress is one of the most important speech tools used by English speakers to communicate meaning. English speakers use stress to highlight information they think is important. In addition, every English word with more than one syllable or word part has a defined stress pattern. You can look up a dictionary to see which syllable is stressed. English stress is as important as English sounds.

How does it work?

The English stress system is based on the CONTRAST between stressed and unstressed syllables, stressed and unstressed words. Stressed syllables are longer and louder than unstressed syllables. They also have some pitch change or movement of the voice up or down.

Basically, there are three levels of stress in English:

syllable stress in words	contrast between stressed and unstressed syllables in words e.g. ma ny peo ple be lieve
key word stress	stress in longer speech chunks, clauses or sentences e.g. / that in an increasingly globalised world /
focus word stress	the syllable in the stressed word which has the strongest pitch change in a speech chunk e.g. / that in an increasingly <u>g</u> lobalised <u>w</u> orld / ... <div style="text-align: center; margin-top: -10px;"> ↘ ↗ </div>

To listen to these phrases go to:

<http://www.uts.edu.au/current-students/support/helps/self-help-resources/pronunciation/stress>

What will happen if I don't use stress?

You may sabotage your communication and you may risk tiring and confusing listeners. Listeners may not be able to recognise even simple vocabulary if you stress syllables equally or use incorrect word stress. Listeners may not follow your meaning if you don't stress key words in information chunks.

HELPS Pronunciation Fact Sheet

Stress is essential for presenting key information clearly. Stressing information words at the end of a sentence or a speech chunk is also important because this is where new information often occurs in English.

How do I know which syllable to stress?

Word stress is so important that it is marked in dictionaries with **ˈ** before the stressed syllable. For example, 'emphasis' is written phonetically as /**ˈ**emfəsəs/. Dictionaries also mark secondary stress below the line, especially in multi-syllabic words and compounds. For example, 'multimillionaire' /**ˌ**mʌltɪmɪljə'neə/.

There are some basic or typical word stress patterns. Go to **Pronunciation Fact Sheet: Summary of common word stress patterns**.

Are there any 'secrets' for pronouncing stressed syllables well?

Yes. English speakers often pronounce unstressed syllables or parts of a word with a 'weak' or indefinite vowel. This vowel is so common, and so important in English, that it has a special name, the 'schwa' /ə/. Of course English speakers pronounce weak syllables in other ways as well; they say unstressed syllables more quickly and more softly than stressed syllables. Have a look at these examples:

/ə/ /ə/ /ə/ /ə/ /ə/ /ə/ /ə/
a/ma/zing fa/bu/lous cri/ti/cal un/be/lie/va/ble

Getting word stress right in academic contexts

Many words in academic contexts are multisyllabic. It's important to get the pronunciation of these words right.

Tips for pronouncing word stress correctly:

Divide the word into syllables. Mark the main and secondary stress if applicable.

Look up a good online or print dictionary to check.

Listen closely to how a fluent speaker of English pronounces the word.

Make a list of important vocabulary and mark the stressed syllables.

Practise, practise, practise! Get feedback from a fluent English speaker.

Word Stress

HELPS Pronunciation Fact Sheet

Summary of common word stress patterns

1. Two - syllable words

nouns and adjectives	O o	verbs	o O
	re cord (n)		re cord (v)
	pro duce (n)		pro duce (v)
	per fect (adj)		per fect (v)

2. Suffix words: pattern 1

	O o
- sion	vi sion
- tion	solu tion
- ssion	emi ssion
- cian	musi cian
- ic	econo mic

3. Suffix words: pattern 2

	O o o
- cy	demo cr a cy
- ty	u ni ty
- phy	geo gr a phy
- gy	physio lo gy
- al	me di cal

4. Primary and secondary stress in multisyllabic words

Many longer technical words have more than one stressed syllable. Many have a prefix and this usually has secondary stress.

5. Compound nouns

The most common stress pattern is stress on the first word, but there are exceptions.

stress on first word	pod cast, cli m <u>a</u> te change, da t <u>a</u> base, thi nk tank, ru n-up
stress on second word	Information te chnology, global wa rming, social se c <u>u</u> ri <u>ty</u>

6. Acronyms

Often have stress on the last letter.

UTS, ABC, DNA, USB, ID, PC, IT

Word stress worksheet

Practising word stress patterns

In English, key vocabulary, or words that provide information to the listener, such as nouns, adjectives, verbs and adverbs, are usually stressed. In addition, words of two or more syllables have one syllable which has the main stress and it is very important to get this right if you wish to be understood.

This worksheet will give you practice in using word stress correctly.

You can refer to the Fact Sheet, *Summary of common word stress patterns*, and check the word stress with a dictionary when completing this worksheet.

Stress patterns in 2-syllable words

Look at the following phrases from Kofi Annan’s speech and the stress patterns of the 2-syllable words.

Pattern 1

O o

fellow human beings
struggle

Pattern 2

o O

survive

Mixed 1 and 2

struggle to survive

Task 1

Put the following words into one of the two columns, according to their stress pattern. You will find that the stress pattern will vary according to what part of speech the word is a noun (n), verb (v) or adjective (adj). Then practise saying the words.

event (n) *recall (n)* *recall (n)* *reform (n/v)* *minute (n/adj)*
project (n) *cancel (v)* *project (v)* *audit (n/v)* *dispute (n/v)*

O o	o O

Stress in multisyllabic words

As explained in the fact sheet, multisyllabic words can have primary and secondary stress, especially if they have a prefix as in *unemployment*.

Task 2

Mark the primary and secondary stress in the following words with / ¹ / for primary stress and / ₁ / for secondary stress:

compromise reconstruction recyclable biological
integration guarantee expectation individual European

Task 3

Below are some presentation topics that students have been asked to speak on. All words are key words and should be stressed but you need to check the syllable stress before stating your topic. Mark the stress, then say the topics.

- | | |
|-------------------------------|------------------------------|
| i) Environmental emissions | ii) Successful negotiations |
| iii) Indigenous health issues | iv) Infrastructure projects |
| v) Statistical methods | vi) Economic decision-making |

Stress Practice

Clarity English offers you online language support. It is free for all UTS students through the UTS Library. Go to <http://www.lib.uts.edu.au/help/english-language> and follow the links.

The following exercises on word stress are taken from Clarity English – **Clear Pronunciation 2**.

Listen to the words then tick the answer with the correct stress.

- | | | | |
|--------------|------------------------------------|------------------------------------|------------------------------------|
| 1. really | <input type="checkbox"/> really | <input type="checkbox"/> really | |
| 2. report | <input type="checkbox"/> report | <input type="checkbox"/> report | |
| 3. remember | <input type="checkbox"/> remember | <input type="checkbox"/> remember | <input type="checkbox"/> remember |
| 4. yesterday | <input type="checkbox"/> yesterday | <input type="checkbox"/> yesterday | <input type="checkbox"/> yesterday |
| 5. exam | <input type="checkbox"/> exam | <input type="checkbox"/> exam | |
| 6. revision | <input type="checkbox"/> revision | <input type="checkbox"/> revision | <input type="checkbox"/> revision |
| 7. difficult | <input type="checkbox"/> difficult | <input type="checkbox"/> difficult | <input type="checkbox"/> difficult |
| 8. opinion | <input type="checkbox"/> opinion | <input type="checkbox"/> opinion | <input type="checkbox"/> opinion |
| 9. possible | <input type="checkbox"/> possible | <input type="checkbox"/> possible | <input type="checkbox"/> possible |
| 10. business | <input type="checkbox"/> business | <input type="checkbox"/> business | <input type="checkbox"/> business |

Look at the bold words and underline/highlight those that have the stress on the FIRST syllable. Then watch the video and check your answers.

1. What's the most **recent movie** you've seen?
2. Do you **enjoy romantic comedies**?
3. Who's your **favourite actor** or **actress**?
4. Do you **prefer eating popcorn** or **chocolate** in the **movies**?
5. Is **going to the movies expensive** in your **country**?

Clarity English offers you online language support. It is free for all UTS students through the UTS Library. Go to <http://www.lib.uts.edu.au/help/english-language> and follow the links.

The following exercises on word stress are taken from Clarity English – **Clear Pronunciation 2**.

Listen to the words below. In each group, three have the same stress pattern, and one is different. Underline/highlight the word that is different.

- | | |
|---|--|
| <p>1. politics
interesting
sensible
develop</p> | <p>4. introduction
photocopy
complicated
businesswoman</p> |
| <p>2. opinion
government
important
whenever</p> | <p>5. ridiculous
technology
experience
sympathetic</p> |
| <p>3. kangaroo
instrument
interrupt
disappear</p> | <p>6. application
entertainment
centimeter
fundamental</p> |

Listen to the sentences and look at the syllables in bold. Are the vowel sounds in those syllables weak or strong?

- | | | |
|--|-------------------------------|---------------------------------|
| 1. She promised to provide eggs for breakfast | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |
| 2. Megan began swimming when she was seven | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |
| 3. Put the potatoes and carrots into the pot | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |
| 4. A modern car engine is a complex machine | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |
| 5. She wants to become a better musician | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |
| 6. Most musicians can play the piano | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |
| 7. We had to measure the height of a mature apple tree | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |
| 8. We expect you to do extra work before the exam | <input type="checkbox"/> Weak | <input type="checkbox"/> Strong |

Clarity English offers you online language support. It is free for all UTS students through the UTS Library. Go to <http://www.lib.uts.edu.au/help/english-language> and follow the links.

The following exercises on word stress are taken from Clarity English – **Clear Pronunciation 2**.

The suffixes –ion, -ic, -ical, -ial and –ity sometimes affect the stress on a word. Listen to each pair of words. When you add the suffix, does the stress stay on the same syllable or move to a different syllable? Select ‘same’ or ‘different’.

- | | | | |
|-------------|-------------|---------------|-------------|
| 1. revise | revision | 11. permit | permission |
| 2. artist | artistic | 12. history | historical |
| 3. public | publicity | 13. celebrate | celebration |
| 4. tropic | tropical | 14. economy | economics |
| 5. inform | information | 15. essence | essential |
| 6. minor | minority | 16. possible | possibility |
| 7. practice | practical | 17. decide | decision |
| 8. office | official | 18. technique | technical |
| 9. operate | operation | 19. science | scientific |
| 10. secure | security | 20. describe | description |

Frequently Used Academic Words

The Academic Word List (Averil Coxhead, 2000):
 a list of 570 high-incidence and high-utility academic word families
 for Secondary School, Higher Education, Career

There is a very important specialized vocabulary for learners intending to pursue academic studies in English at the secondary and post-secondary levels. The *Academic Word List*, compiled by Coxhead (2000), consists of 570 word families that are not in the most frequent 2,000 words of English but which occur reasonably frequently over a very wide range of academic texts. These 570 words are grouped into ten sublists that reflect word frequency and range. A word like *analyze* falls into Sublist 1, which contains the most frequent words, while the word *adjacent* falls into Sublist 10 which includes the least frequent (amongst this list of high incidence and high utility words). The following ten sublists contain the headwords of the families in the *Academic Word List*. In other words, the ten sublists contain the most frequent form of the word, more often a noun or verb form, although there may be one or more important related word forms. For example, the headword *analyze* would also include *analyst*, *analytic*, *analytical* and *analytically* in the word family.

The *Academic Word List* is not restricted to a specific field of study. That means that the words are useful for learners studying in disciplines as varied as literature, science, health, business, and law. This high utility academic word list does not contain technical words likely to appear in only one, specialized field of study such as *amortization*, *petroglyph*, *onomatopoeia*, or *cartilage*. Two-thirds of all academic English words come from Latin, French (through Latin), or Greek. Understandably, knowledge of the most high incidence and high utility academic words in English can significantly boost a student's comprehension level of school-based reading material. Secondary students who are taught these high-utility academic words and routinely placed in contexts requiring their usage are likely to be able to master academic material with more confidence and efficiency, wasting less time and energy in guessing words or consulting dictionaries than those who are only equipped with the most basic 2000-3000 words that characterize ordinary conversation.

Sources: Coxhead, Averil. (2000). A new academic word list. *TESOL Quarterly*, 34, 213-238.

(Kinsella, San Francisco State University, 8/03)

Chunking and Pausing

Why are chunking and pausing important?

Pausing and chunking are vital communication tools for both listeners and speakers. Speakers divide speech into ‘pieces’ or ‘chunks’ to communicate a thought or idea, or to highlight information they think is important. This is the simplest and most effective way to ‘package information’ for the listener. Dividing information into chunks makes it easier for listeners to understand.

What exactly are speech chunks?

A speech chunk can be a word, a phrase or a whole sentence. Speech chunks can be signalled in different ways:

- pauses – moments of silence, sometimes very short
- slowing down
- strong stress on the last key word in the chunk

When you are working with a written version of a spoken text, it’s handy to mark short pauses with a single slash / and a double slash // for longer pauses.

When should I use chunking and pausing?

You can use pausing and chunking to:

- | | |
|---|---|
| <ul style="list-style-type: none">• state information• give an opinion• emphasise a point• put forward a criticism
• soften a criticism
• contrast a point | <p>This is a powerful /
but unfortunately flawed /
argument //</p> <p>The main problem with the argument is /
the lack of hard / statistical evidence //</p> <p>I do understand /
that collecting data / is difficult //</p> <p>However / ...</p> |
|---|---|

Chunking and Pausing in Presentations

When you give a presentation, it's important to pause enough to signal that you are introducing a new topic. Pause at the end of one section and before you start a new one. Then state the new topic and pause so the listener can get ready for new information.

What will happen if I don't use chunking and pausing?

Speech without pauses and speech chunks can overwhelm the listener with 'too much information'. The listener may feel 'lost' in a 'forest' of words. Without chunking and pausing, it will be hard for listeners to follow your meaning and know where they are in your presentation.

Try reading the examples below. Which one do you think a listener would find easier to understand?

Example 1

Does it really matter whether people speak with an accent as long as they can be easily understood many people now believe that in an increasingly globalised world we should accept variations in pronunciation that is accent however there's no point is speaking with an accent if people can't understand you is there?

Example 2

*Does it really matter /
whether people speak with an accent /
as long as they can be easily understood?//
Many people now believe /
that in an increasingly globalised world /
we should accept variations in pronunciation /
that is / accent //
However / there's no point is speaking with an accent /
if people can't understand you / is there?//*

Chunking and Pausing Practice

Listening Worksheet: Kofi Annan

BBC Learning English website: Talk about English, Better speaking, Episode 3 – Kofi Annan
http://www.bbc.co.uk/worldservice/learningenglish/webcast/tae_beterspeaking_archive.shtml

BBC presenter, Callum Robertson, and language teacher, Richard Hallows, listen to a clip from the former Secretary-General of the United Nations, Kofi Annan. They talk about what makes Kofi Annan an effective speaker of English and ways you can practise and improve your English pronunciation.

Callum Robertson [1:28 min]: *Kofi Annan is from Ghana in West Africa, and ... uses English as an international language, in a highly effective way. In this excerpt from a speech on globalisation, he's asking his listeners to make sure that the process of economic globalisation helps everybody in the world, the poor as well as the rich.*

Task 1: Pronunciation and communication strategies

Listen to Kofi Annan speaking. Do you think he is an effective speaker of English? Comment on the features below.

intelligibility: easy to understand, speaks clearly (example)

speed: _____

pausing: _____

vocabulary: _____

stress or emphasis: _____

overall impression: _____

Task 2: Chunking and pausing

Listen and read the transcript below [1:48].

Mark the pauses with a slash (/) (// for longer pauses).

It is a much tougher
sell out there in a
world where half of our
fellow human beings struggle to
survive on less than two
dollars a day. Try to
imagine what globalisation can possibly
mean to half of humanity
that has never made or
received a phone call. The
simple fact of the matter
is this. If we cannot
make globalisation work for all
in the end it will
work for none.

UTS/ELSSA/Pronunciation resources/MW '09

Pausing and Focus Stress

TED presentation by Richard St John: *The 8 secrets of success*

This presentation is given on the website

http://www.ted.com/talks/lang/eng/richard_st_john_s_8_secrets_of_success.html

This segment begins at 1.00 of a 3.33 minute presentation.

Richard St. John describes himself as an “average guy who found success doing what he loved”. He spent more than ten years interviewing people he considered successful to find out the reasons for success. These ‘secrets’ were then distilled into 8 words, 3 minutes and a successful book.

Task 1: Listening

Listen to the presentation and write down the 8 secrets to success.

- | | |
|-----|------|
| i | v |
| ii | vi |
| iii | vii |
| iv | viii |

Task 2: Controlled speaking

Listen to the following extract from the presentation.

- Mark the pauses with a slash (/).
- Highlight or underline the focus words.
- Practise reading the transcript using pausing and focus stress.

Transcript

And the first thing is
passion. Freeman Thomas says, "I'm
driven by my passion." TEDsters
do it for love, they
don't do it for money.

Carol Coletta says, "I would
 pay someone to do what
 I do." And the interesting
 thing is, if you do
 it for love, the money
 comes anyway.

TED Presentation: extension activity

Listen to more of the same talk.

- a. Mark the pauses with (/)
- b. Highlight or underline the focus words.
- c. Compare with your partner.
- d. Practise reading using pausing and focus stress.

Work! Rupert Murdoch said to
 me "It's all hard work.
 Nothing comes easily. But I
 have a lot of fun."
 Did he say fun? Rupert?
 Yes! TEDsters do have fun
 working. And they work hard.
 I figured, they're not workaholics.
 They're workaholics! Good! Alex Garden
 says, to be successful, put
 your nose down in something
 and get damn good at

it.” There’s no magic. It’s
practice, practice, practice. And it’s
focus. Norman Jewison said to
me, I think it all
has to do with focusing
yourself on one thing.” And
push. David Gallo says “Push
yourself. Physically, mentally, you’ve
push push push.” You gotta
push through shyness and self-doubt.
Goldie Hawn says, “I always
had self-doubts. I wasn’t good
enough; I wasn’t smart enough.
I didn’t think I’d make
it.” Now it’s not always
easy to push yourself, and
that’s why they invented mothers.

Word and Focus Stress Practice

Read the following item aloud and underline words that you think should have focus stress. Then mark the word stress for those words you have underlined.

Primary stress should be marked before the stressed syllable above the line and secondary stress below the line. E.g. pro,nunci'ation.

Australia and the Global Financial Crisis

A year ago, Australians were preparing themselves for a long period of recession.

Many companies began belt-tightening in the expectation of poor consumer demand, while individuals also started to reduce their debt in case they were to lose their job.

Well, some companies did suffer, and unemployment did rise, but not nearly as much as expected. In fact, technically, Australia has not been in recession and consumer confidence seems to be rising.

So, why has Australia escaped the worst of the global recession? There are several possible reasons. One is that the Federal Government almost immediately began to introduce stimulus packages by giving handouts and by providing for a range of infrastructure projects. These measures have increased retail sales and stimulated sections of the construction industry. Moreover, China's economy has continued to grow, so sales of resources to China have not fallen as much as expected. Other reasons are that the Australian economy was in surplus before the Global Financial Crisis (GFC), our banks are well-regulated and the government agreed to guarantee bank deposits for the short-term. Economists are reasonably optimistic that Australia will weather the crisis better than most countries.

Stress for New Information

Stress on words that give new information at the end of a sentence

Information that may be *new* to the listener, is usually placed towards the end of the clause or sentence in English. Although the information is near the end of the sentence, it is stressed in speaking because it is important for the listener. If you let your voice fade away at the end of a sentence, an important part of your message might be lost to the listener. This new information has the focus stress.

Example: *My presentation today is about obesity.*
 I've just been accepted into the Master's program.

Obesity and *Master's program* are the topics of the sentences but the words appear at the end of the sentences. Those words must be stressed in the usual way i.e. *o'besity* with stress on the second syllable and '*Master's ,program*, with main stress on the word *Master's* and secondary stress on *program*.

Task 1

Here are some more examples where the sentence begins with information that the listener probably has some background knowledge of, and ends with the new information that the listener wants to receive.

The *new* information is underlined. Other key words that are stressed are in italics. In pairs, practise reading the text, paying attention to the stress on key words but with the focus stress on the underlined words.

The listener should give feedback to the reader.

NB. Refer to the Fact Sheet, *Summary of common word stress patterns*, or a dictionary, for help with word stress on multisyllabic words.

A new *tourism program* has been set up to promote Indigenous tourism in Australia. *Many people* want to experience Indigenous culture first hand but find it difficult to access special tours and camps. The *new* program will feature Indigenous businesses in local and international marketing and will set up training and mentoring programs. (adapted from 'Tourism champions help sell Australia to the world', *National Indigenous Times*, 10 December 2009, p.31).

In the following section of a presentation, underline the words or phrases that carry new information. Highlight any other words that you think should be stressed to convey the message. Practise with your partner.

The focus of my research is the role of music in education. It would seem that musical training can have intellectual benefits for children. However, in many primary schools, music is a very minor part of the curriculum and is not taken seriously. Moreover, most primary school teachers these days receive very little training in music.

(When giving a presentation, you will be surprised how often the focus words are placed towards the end of a sentence. Practise saying them with appropriate stress.)

Signpost Words – Pausing and Stress

Signpost words (also called *transition signals*) such as *Firstly*, *In other words*, and *It's quite clear that...* are used to guide the listener.

These words should therefore be spoken clearly and given appropriate emphasis. This involves pausing after the word or word group, and using suitable stress and intonation. Not all signpost words should receive the same amount of stress. It depends on their importance in the development of your presentation. Note that a comma in punctuation indicates that a pause is likely in speech.

Task

Read the sentences below and do the following:

- mark with / where you think you would pause. If it is a longer pause to give more emphasis, mark with //
- highlight/underline any stressed words or syllables
- read the sentences aloud and compare with your partner.

(Note that punctuation within the sentences has been removed.)

- a. So first of all let
me introduce myself.
- b. In the second part I
will be examining the causes
of teenage binge drinking in
Australia.
- c. Another factor is the increase
in teenage violence on weekends.
- d. On the other hand will
a tax on alcopops make
much of an impact?
- e. However if such a tax

- is introduced young people will
merely switch to other kinds
of alcoholic drinks.
- f. One suggestion already taken up
by some licensed premises is
to limit drinking hours.
- g. As a result a pilot
education program is being introduced
in some schools.
- h. Finally and most importantly we
must look at community attitudes
to teenage drinking.
- i. To summarise we've looked at
some of the causes of
teenage binge drinking and some
possible solutions.

UTS/ELSSA/Pronunciation resources/MW 09

Stress Practice

What time does your plane leave?

I know what time the airport bus leaves, but when does your plane leave?

My plane leaves at midnight. What about yours?

1

How long have you worked here?

I want to know how long you've worked here, not how long you've lived here!

I've told you how long I've worked here, now you tell me.

2

Are you Joe Smith?

Which member of the Smith family are you?

I can't believe that's your surname!

3

Why didn't he tell me he was hungry?

He told everybody else, why not me?

Why did you have to tell me? Can't he speak for himself?

4

Why don't we go to the cinema tonight?

I don't want to go to the theatre.

I can't wait until tomorrow.

5

Are you going to get him a present for his birthday?

Or just a card?

I know you got him a present for Christmas; are you going to do the same for his birthday?

6

What do you want to do this evening?

I've told you what I want to do; now you tell me.

I know what you want to do tomorrow evening but what about today?

7

Do you ever go to rock concerts?

I know you go to classical concerts.

Or do you just watch them on the video?

8

Diagnostic Test 2**Box 96 Student handout**

Imagine that you have just moved into a new house and are describing some of the things that you have had to buy. You start by describing what you have bought for the kitchen.

In here, the dearest things were the electrical appliances – things like a dishwasher, a fridge and a stove. There was no cutlery, so I bought some knives, forks and spoons. I'd been given some bowls, but no cups and saucers, so I bought six of each. I needed furniture, too, and curtains for some of the rooms. I had to make some difficult choices. I bought purple curtains for the dining room. That wasn't my idea, but they should look really good in there. They'll help keep out the noise. And I got a nice old wooden table and some chairs. They cost about a thousand dollars. I've painted the walls pale orange and hung a large poster near the window. And I've put an oil painting on the opposite wall with an unusual pair of lamps. Yesterday I bought blue carpet for the stairs. And I had to get a barbecue for the yard. Another job is to paint the outside of the house and the garage. I'll enjoy doing that.

Practice Text 1

***Oh the Places You'll Go* by Dr Seuss (children's book)**

Listen to the book on YouTube (0:00-0:54):

<https://www.youtube.com/watch?v=1rzUTfflr0>

Congratulations

Today is your day

You're off to great places

You're off and away

You have brains in your head

You have feet in your shoes

You can steer yourself any direction you choose

You're on your own, and you know what you know

And you are the guy who'll decide where to go

You'll look up and down streets. Look 'em over with care

About some you will say, "I don't choose to go there."

With your head full of brains and your shoes full of feet

You're too smart to go down any not so good street

And you may not find any you'll want to go down

In that case of course you'll head straight out of town

Harry Potter and the Philosopher's Stone

(J K Rowling)

Listen to Stephen Fry reading it on YouTube (0:08-2:08):

<https://www.youtube.com/watch?v=xFJtWwTLgt4>

Chapter 1 – The boy who lived.

Mr and Mrs Dursley, of No. 4 Privet Drive were proud to say that they were perfectly normal thank you very much. They were the last people you would expect to be involved in anything strange or mysterious because they just didn't hold with such nonsense. Mr Dursley was the Director of a firm called Grubbings, which made drills. He was a big, beefy man with hardly any neck, although he did have a very large moustache. Mrs Dursley was thin and blond and had nearly twice the usual amount of neck which came in very useful as she spent so much of her time craning over garden fences, spying on the neighbours. The Dursleys had a small son called Dudley and in their opinion, there was no finer boy anywhere. The Dursleys had everything they wanted but they also had a secret and their greatest fear was that somebody would discover it. They didn't think they could bear it if anyone found out about the Potters. Mrs Potter was Mrs Dursley's sister but they hadn't met for several years. In fact, Mrs Dursley pretended she didn't have a sister because her sister and her good for nothing husband was as 'unDursleyish' as it was possible to be.

Practice Text 3**Kevin Rudd's apology speech**

Listen to it on YouTube:

<http://www.youtube.com/watch?v=b3TZOGpG6cM>

I move that today we honour the Indigenous peoples of this land, the oldest continuing cultures in human history.

We reflect on their past mistreatment. We reflect in particular on the mistreatment of those who were Stolen Generations — this blemished chapter in our nation's history.

The time has now come for the nation to turn a new page in Australia's history by righting the wrongs of the past and so moving forward with confidence to the future.

We apologise for the laws and policies of successive Parliaments and governments that have inflicted profound grief, suffering and loss on these our fellow Australians. We apologise especially for the removal of Aboriginal and Torres Strait Islander children from their families, their communities and their country.

For the pain, suffering and hurt of these Stolen Generations, their descendants and for their families left behind, we say sorry.

...To the mothers and the fathers, the brothers and the sisters, for the breaking up of families and communities, we say sorry.

And for the indignity and degradation thus inflicted on a proud people and a proud culture, we say sorry.

Practice Text 4**Barack Obama in Berlin speech**

Listen to it on YouTube (starts at around 2.50):

<http://www.youtube.com/watch?v=fhse6js54aw>

Here, for thousands of years, the people of this land have journeyed from tribe to principality to nation-state; through Reformation and Enlightenment, renowned as a “land of poets and thinkers,” among them Immanuel Kant, who taught us that freedom is the “unoriginated birthright of man, and it belongs to him by force of his humanity.”

Here, for two centuries, this gate stood tall as the world around it convulsed — through the rise and fall of empires; through revolutions and republics; art and music and science that reflected the height of human endeavor, but also war and carnage that exposed the depths of man’s cruelty to man.

It was here that Berliners carved out an island of democracy against the greatest of odds.

Practice Text 5**Martin Luther King's speech at Lincoln Memorial, Washington DC on 28 August, 1963.**

Watch with subtitles on YouTube:

<http://www.youtube.com/watch?v=smEqnklfYs>

[\(From 12:13 – 13:50\)](#)

So even though we face the difficulties of today and tomorrow I still have a dream. It is a dream deeply rooted in the American dream.

I have a dream that one day this nation will rise up and live out the true meaning of its creed: "We hold these truths to be self-evident; and all men are created equal."

I have a dream that one day on the red hills of Georgia the sons of former slaves and the sons of former slave owners will be able to sit down together at the table of brotherhood.

I have a dream that one day even the state of Mississippi, a state sweltering with the heat of injustice, sweltering with the heat of oppression, will be transformed into an oasis of freedom and justice.

I have a dream that my poor little children will one day live in a nation where they will not be judged by the colour of their skin but by the content of their character.

I have a dream today.

Connected Speech

HELPS Pronunciation Fact Sheet

Connected speech

Why is it important?

We use the term Connected Speech to refer to sound changes that occur when we are speaking. Understanding these changes can dramatically improve your understanding of fluent native speakers of English. And if you don't use at least some of the features of connected speech yourself, you may sound stilted and formal. This can be a barrier to communication, particularly in informal situations. Formal presentations without the features of connected speech may also be a strain on a native speaker audience.

What are the features of connected speech?

Basically, there are three features of connected speech.

Unstressed words As the name implies, these words are usually 'smaller', less important words than the stressed information words which carry most meaning in English. Unstressed words are usually pronounced more lightly and softly than stressed words and many are pronounced with the indefinite or schwa vowel sound /ə/. For example, *I'm a student at UTS* has 3 unstressed words: *I'm, a, at* 2 information words: *student, UTS*

Stressed words are usually 'content' words such as nouns, adjectives, verbs and adverbs.

Why is it important to know how to pronounce unstressed words?

Unstressed words are important because they make stressed information 'stand out'. Saying unstressed words more quickly and lightly also gives the speaker time to lengthen the stressed syllables in key words and make clear intonation contours. Here is a summary list of common unstressed words.

articles	the, a, an
prepositions	at, to, for
pronouns	me, you, him, her, it
conjunctions	and, but
auxiliary verbs	is, was, has, have, had
modal verbs	can, could, should

Weak forms can be said with stress, depending on context. Example: Did he throw the ball to you? No, he threw it **AT** me. Try the sentences below, changing the stress.

Box 42 Teacher reference

(Sentences with weak forms marked)

- | | |
|---|--------------------------------|
| 1 He <u>threw</u> the ball <u>at</u> me. | /hi/ ... /ət/ ... |
| 2 You <u>must</u> come over <u>for</u> dinner soon. | ... /məs/ ... /fə/ ... |
| 3 Bill <u>and</u> Mark <u>have</u> left. | ... /ən/ ... /əv/ ... |
| 4 <u>Have</u> you got more <u>than</u> Tom? | /həv ju/ ... /ðən/ ... |
| 5 I <u>was</u> at home <u>from</u> five o'clock. | ... /wəz ət/ ... /frəm/ ... |
| 6 <u>We</u> could talk about it <u>at</u> lunch. | /wi kəd/ ... /ət/ ... |
| 7 Ask <u>them</u> to come <u>to</u> the party. | ... /ðəm tə/ ... /tə/ ... |
| 8 <u>Can</u> you tell <u>us</u> now? | /kən ju/ ... /əs/ ... |
| 9 <u>We</u> were going <u>to</u> the park. | /wi wə/ ... /tə ðə/ ... |
| 10 When <u>do</u> you get the results <u>of</u> your tests? | ... /də jə/ ... /əv jə/ ... |
| 11 <u>There</u> should <u>be</u> some more in <u>the</u> box. | /ðə ʃəd bi səm/ ... /ðə/ ... |
| 12 When <u>are</u> you taking <u>him</u> to see <u>her</u> ? | ... /ə ju/ ... /ɪm tə/ ... /ə/ |

Consonant clusters are often difficult to say. Often a 't' or 'd' sound is left out. Example: mostly – can't hear the 't'. Try the words and phrases below. Are there any 't' or 'd' sounds left out?

Box 45 Student handout

Part A

postman correctly wastepaper facts restless lastly exactly
friendly kindness handshake hands landscape blindness
grandmother

Part B

- | | |
|-------------------------|-------------------------|
| 1 It was next morning. | 13 Did I hurt you? |
| 2 Hold tight. | 14 We reached Berlin. |
| 3 She's world champion. | 15 She arrived there. |
| 4 It was just him. | 16 We crossed over. |
| 5 It's in first gear. | 17 I phoned Keith. |
| 6 Take a left turn. | 18 It moved towards us. |
| 7 I heard singing. | 19 They're second hand. |
| 8 She changed clothes. | 20 He finished first. |
| 9 I'll send Lucy. | 21 I slept badly. |
| 10 It was hard work. | 22 I found Ruth. |
| 11 They kept quiet. | 23 I understand this. |
| 12 It looked good. | 24 I felt bad. |

When words are said slowly all vowels are pronounced, but in natural speech vowels can be left out. Example: family – you don't hear the 'i'. Try the words and phrases below.

Box 46 Student handout

Part A

camera definite every factory family favourite history
marvellous police recovery reference secretary separate
similar strawberry traveller

Part B

- | | |
|--------------------|---------------------|
| 1 A friend. | 9 A officer. |
| 2 Modern | 10 A digital |
| 3 A plant. | 11 Absolutely |
| 4 A car | 12 A frequent |
| 5 time. | 13 A book. |
| 6 A great | 14 A answer. |
| 7 Remarkably | 15 Entirely |
| 8 A personal | 16 An amazing |

Linking: Consonant and Vowel

4.1 74 Listen to these phrases and repeat them, linking the words together where this is indicated.

- a) divide_in two
- b) historical_evidence
- c) as soon_as possible
- d) take_over control
- e) it'll_end next week
- f) the Data Protection_Act
- g) a wide_area
- h) keep_up with_it
- i) an_increase_in crime
- j) the main_aim

Hewings, M. 2004, *Pronunciation practice activities*, Cambridge University Press, Cambridge.

Box 32 Student handout

A	B	C
1 hot <u>u</u>	a hot <u>u</u> pizza	a hot <u>u</u> oven
2 good <u>u</u>	a good <u>u</u> excuse	a good <u>u</u> price
3 seven <u>n</u>	seven <u>n</u> languages	seven <u>n</u> people
4 short <u>t</u>	a short <u>t</u> boy	a short <u>t</u> way
5 red <u>d</u>	a red <u>d</u> bike	a red <u>d</u> apple
6 brown <u>n</u>	a brown <u>n</u> suit	a brown <u>n</u> beard
7 white <u>e</u>	white <u>e</u> wine	white <u>e</u> coffee
8 bad <u>d</u>	a bad <u>d</u> cold	a bad <u>d</u> illness
9 ten <u>n</u>	ten <u>n</u> cars	ten <u>n</u> letters
10 light <u>t</u>	light <u>t</u> rain	light <u>t</u> green
11 wide <u>e</u>	a wide <u>e</u> river	a wide <u>e</u> gap
12 green <u>n</u>	a green <u>n</u> sofa	green <u>n</u> grass

Linking: Vowel and Vowel – when 2 vowels are together often a /w/, /j/ or /r/ sound is inserted.

77 Listen to these phrases and decide if a /w/, /j/ or /r/ sound needs to be inserted. Mark them in the correct places. Then listen and repeat the phrases, inserting the sounds where appropriate.

- a) try out
- b) agree on this
- c) two of them
- d) extra income
- e) radio operator
- f) media event
- g) high above the earth
- h) How does this tie in?

Hewings, M. 2004, *Pronunciation practice activities*, Cambridge University Press, Cambridge.

Box 33 Student handout

A

- 1 Where are you going?
- 2 When?
- 3 Why?
- 4 Who is he?
- 5 Have you got cousins there, too?
- 6 How will you get there?
- 7 How long will it take?
- 8 Have you been there before?
- 9 How long will you be there?
- 10 Why don't you stay longer?
- 11 Will you take Adam a present?
- 12 Why an umbrella?

B

- a By air.
- b I grew up there.
- c Yes, a new umbrella.
- d He asked me for one.
- e Tomorrow afternoon.
- f I'll stay a week.
- g They all live in France.
- h It's too expensive.
- i To see Adam.
- j A few hours.
- k My uncle.
- l To Austria.

Hewings, M. 2004, *Pronunciation practice activities*, Cambridge University Press, Cambridge.

Intonation

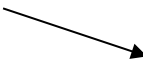

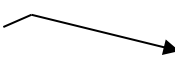

Why is it important?

Intonation is a layer of meaning beyond words and helps speakers communicate meaning through the rise and fall of the voice. The patterns of rise and fall are described as ‘tones’. The different types of meaning intonation communicates include:

- grammatical meaning, e.g. different tones for types of questions
- status of information, e.g. main or subordinate, finished or unfinished
- attitude, e.g. whether we’re certain or not, have doubts or reservations
- feelings, e.g. whether we’re confident, happy, enthusiastic, sad, bored, etc.
- relational, e.g. how ‘open’, friendly or ‘closed’ we are towards a listener, or to communicate empathy or shared feeling.

How does it work?

Like stress, intonation operates on a system of contrasts. But now the contrast is between the movement of the voice UP (↗) or DOWN (↘). Intonation can change the meaning of what a person says even when the same words are used.

Example	Communicative purpose and function
 It was <u>interesting</u>	You are giving information. You are certain and confident about the information. This is a statement.
 It was <u>interesting</u> (?)	This intonation could indicate that this is a question even though the grammar indicates a statement. It could also indicate that you aren’t sure or that you haven’t finished yet. Question or incomplete statement.
 It was <u>interesting</u> ...	You have more to say. Incomplete statement.
 It was <u>interesting</u> ...	You have some doubts or reservations or you want to qualify this with more information. You may also be referring to what has already been said or will be said.
 It was <u>interesting</u> !	You want to emphasise this. Depending on the context, you may feel enthusiastic, happy or surprised. Or you may want to contrast or contradict what someone else has said. Exclamation.

What will happen if I don't use intonation appropriately?

You may mislead your listener or your audience. For example, repeatedly using high rising intonation at the end of speech chunks and sentences can be irritating and confusing. Listeners can also get confused because they can't distinguish between what information is finished and what is not. The speaker may also give the impression of seeking feedback or approval and therefore lacks confidence.

To get a feeling of how this works, try saying the following:

I **went** to the **lecture** ↗ / it was **great** ↗ / the **lecturer** was **clear** ↗ /
she **asked** if we had **questions** ↗ / but **everyone** just **sat there** ↗ //

If you don't finish off with a falling intonation at some point, the listener is left 'hanging', waiting for the 'story' to end. Now try a different intonation:

I **went** to the **lecture** ↘ / it was **great** ↘ / the **lecturer** was **clear** ↗ /
she **asked** if we had **questions** ↗ / but **everyone** just **sat there** ↘ //

Note: High rising intonation is common in casual conversation and, in this context, is not a problem. It often indicates that the speaker is 'open' or wants to 'connect' with the listener.

What's wrong with using a lot of high rising intonation in presentations?

In a presentation, a series of high rising tones may communicate that:

- you haven't finished a piece of information. This can be confusing for listeners because they need to understand each piece of information so they can build understanding as they progress through the presentation with the speaker
- you are uncertain or tentative about what you are saying. This can be a problem if you want to communicate your thoughts with confidence.

For more information go to the HELPS website: <http://www.uts.edu.au/current-students/support/helps/self-help-resources/pronunciation/intonation>

Intonation helps speakers communicate meaning through the rise and fall of the voice.

Lester: Test 3 – Part 2 (the first part of his talk – scroll down to find Test 3)

Listen to Lester describing the public transport system of Hong Kong:

<http://legacy.australianetwork.com/passport/lester.htm>

1. Mark in the intonation at the end of each chunk:

falling intonation ↘ rising intonation ↗ level intonation →

In Hong Kong we've got a very well developed transportation system.

We've got buses,

double-deck buses,

taxis, trams, ferries, underground metro and minibus.

It's, minibus is about half the size of a bus

and takes around sixteen people.

A lot of people take them 'cos they're a bit faster than normal buses.

And we use the ferry for carrying people across the harbour

because Hong Kong is formed by an island

and a peninsula.

2. Does Lester vary his intonation?
3. What is your impression of his intonation?
4. Why do you think he chooses this pattern of intonation?
5. What would be an alternative pattern of intonation for a talk in a formal situation?
6. What would be the difference in the effect on the listener?

To listen to intonation for different types of questions, go to Clarity English. Click on <http://www.lib.uts.edu.au/help/english-language> and follow the links to **Clear Pronunciation 2, Standard Intonation**

UTS/ELSSA/Pronunciation Intensive Course/MW/2010

Useful Resources

Books and audio resources

Pronunciation for academic study

Smith, J. & Margolis, A. 2007, *English for academic study: pronunciation study book*, Garnet Education, University of Reading. CDs featuring British English.

Clear explanation and practice of sounds, stress, intonation and features of connected speech. Includes sections of sample presentations for practice of particular pronunciation features. Easy-to-follow format.

Pronunciation for academic presentations

Reinhart, S. 2002, *Giving academic presentations*, University of Michigan Press, Ann Arbor, USA.

This is an excellent introduction to giving academic presentations. Each chapter contains a section specifically dealing with pronunciation. Pronunciation areas covered include: pausing, stress, intonation, noun phrases, unstressed words and syllables.

Pronunciation in general Australian English

Boyer, S. 2002, *Understanding English pronunciation*, BER, Glenbrook, NSW.

Boyer, S. 2003, *Spelling & pronunciation for English language learners*, BER, Glenbrook NSW.

These 2 books are comprehensive introductions to the pronunciation of Australian English. They cover sounds, stress, intonation and spelling, chunking and pausing. The language used relates to general Australian English. Audio cassettes and CDs. Answer section for self-study.

Boyer, S. 1998, *Understanding everyday Australian* (Books 1, 2 and 3), BER, Glenbrook, NSW.

This book focusses on spoken language and Australian idioms. There are exercises and answers.

Zawadzki, H. 1994, *In tempo: an English pronunciation course*, NCELTR, Sydney.

This book concentrates on the rhythm and stress of Australian English and is especially suitable for learners from Asian language backgrounds and speakers of other 'syllable-timed' languages such as French. Audio cassettes or CDs. Answer section for self-study.

Pronunciation exercises in British English

Hancock, M. 2003, *English pronunciation in use: intermediate*, CUP, Cambridge. CDs.

Hewings, M. 2007, *English pronunciation in use: advanced*, CUP, Cambridge. CDs.

These 2 books contain many exercises suitable for tertiary students. They cover sounds, word stress in multi-syllabic words, sentence stress, intonation and ways to organise information and keep conversation going. Both intermediate and advanced levels are recommended. The intermediate book has a guide for speakers of specific languages with recommended units to study. Both books have an answer section for self-study.

Rogerson, P. & Gilbert, J.B. 1990, *Speaking clearly*, CUP, Cambridge.

Easy-to-follow introduction to the rhythm and stress of English. Also covers sounds.

Pronunciation and speaking skills in the Australian workplace

da Silva Joyce, H., Wilson, L. & Zawadzki, H. 2007, *Getting it right at work: negotiating and problem solving*, NSW AMES, Sydney. DVD and workbook.

da Silva Joyce, H., Wilson, L. & Zawadzki, H. 2007, *Getting it right at work: customer service*, NSW AMES, Sydney. DVD and workbook.

These resources focus on workplace communication. The DVD presents unsuccessful and successful versions of workplace interactions. Each interaction type has an in-depth explanation of communication strategies, examples and activities focussing on the key pronunciation features which contribute to successful communication. Answer section for self-study. *Negotiating and problem solving* is concerned with internal workplace communication. *Customer service* deals with communicating with the public.

Pronunciation in American English

Gilbert, J. 1993, *Clear speech*, 2nd edn, CUP, Cambridge.

This is an easy to follow introduction to the rhythm and stress of American English. It also has a section on listening to lectures.

First Language Interference

Swan, M. & Smith, B. (eds) 2008, *Learner English: a teacher's guide to interference and other problems*.

This is an excellent outline of pronunciation problems caused by the influence of a speaker's first language on the pronunciation of English. Languages include European, Asian and African language groups.

Internet resources

IELTS preparation, Australian listening content

Very good modelling and analysis of the pronunciation of students answering questions in an IELTS interview situation: <http://australianetwork.com/learningenglish/>

Go to *Passport to English* link to practise IELTS. Use the other links to practise listening to Australian English.

The **BBC World Service** has excellent videos, recordings and quizzes to help you learn about and practise English pronunciation. British English. There are tips for learning about and improving pronunciation as a communication skill at:

<http://www.bbc.co.uk/learningenglish/english/features/pronunciation/introduction>

Medical English

Faculty of Health 2009, *Clinically speaking*, University of Technology, Sydney.

<http://m.uts.edu.au/current-students/health/clinical-practice/clinically-speaking>

Clinically Speaking was designed to help students to succeed in clinical placements by improving communication with staff, patients and their families. It includes iVoc, clinical clips and classroom-based workshops.

Sounds of English

This is a great website with audio and dynamic diagrams showing the pronunciation of English sounds. American English.

<http://www.uiowa.edu/~acadtech/phonetics/english/english.html>

A useful site with interactive sound-based exercises on sounds, intonation and stress is at: <http://davidbrett.uniss.it> Use the *Phonetics and Phonology* link.

The **BBC World Service** online has excellent videos, recordings and quizzes to help you learn about and practise pronunciation of sounds. British English.

<http://www.bbc.co.uk/worldservice/learningenglish/grammar/pron/>

A good website for practising pairs of problem sounds (e.g. /l/ and /r/), final consonants and consonant clusters. There are also links to YouTube videos on pronunciation.

<http://www.manythings.org/pp/>

An easy-to-use reference for the sounds of English with quizzes to help you learn the phonetic alphabet. British English. <http://www.stuff.co.uk/calcul nd.htm>

Pronouncing dictionary

Use this to check stress and sounds of English words.

<http://dictionary.cambridge.org/dictionary/american-english>

Presentation skills

The TED video site has a wide range of excellent presentations. It is particularly useful for non-native speakers of English as interactive transcripts are provided. The presentations are drawn from the fields of Technology, Entertainment and Design, Business, Science and Global Issues. The online interactive transcripts give you the opportunity to 'read along' with the speaker and imitate their pausing, stress and intonation. The audio can be stopped and repeated and this is an excellent opportunity to practise the speech techniques used by each speaker. Note: transcripts must be viewed on the website. For an overview of the presentations go to:

<http://www.ted.com/talks/list>

Excellent model presenters on the TED site include:

Hans Rosling, a dynamic presenter who presents statistics with passion:

http://www.ted.com/talks/hans_rosling_reveals_new_insights_on_poverty

Ken Robinson on how schools kill creativity.

http://www.ted.com/talks/ken_robinson_says_schools_kill_creativity.html

A great pep talk is the 3-minute presentation by Richard St. John on the secrets of success: http://www.ted.com/talks/richard_st_john_s_8_secrets_of_success.html

Another very good site is <http://www.ruf.rice.edu/~comcoach/>

This website contains an introduction to essential presentation skills and video clips illustrating effective and ineffective practices. Each page has up to 4 videos illustrating a section of a speech, questions for analysis of the speech sample and feedback.

General English

<http://www.abc.net.au/rn/>

This website has a wide range of Australian programs including documentaries, news, interviews and lectures on subjects such as current affairs, science and technology, education, the media, health, law, the arts and religion. One can listen online, and download podcasts and transcripts.

<http://www.radioaustralia.net.au>

This website has an interesting selection of programs based on Australia, Asia and the Pacific. Topic areas include the news, current affairs, business, science, technology, education, health, the arts, social issues and sports. Free MP3 downloads and RSS webfeeds are available.

The BBC World Service Learning English websites have some excellent resources for practising listening and the pronunciation English.

- a. <http://www.bbc.co.uk/worldservice/learningenglish/grammar/pron>

This website has explanations and models for listening and practice of the sounds of English and features of connected speech. mp3 downloads available.

- b. http://www.bbc.co.uk/worldservice/learningenglish/webcast/tae_betterspeaking_archive.shtml

This website features 12 programmes in which well-known, fluent non-native speakers of English talk on a variety of topics. A trainer analyses the features of their speech and gives tips on improving pronunciation and speaking skills. mp3 downloads available.

- c. <http://www.bbc.co.uk/worldservice/learningenglish/language/wordsinthenews>

This website features news items (including an archive) with listening and practice of key vocabulary items. Transcripts and downloads are available.

How to Practise Pronunciation

Before you start, get a ‘pronunciation tool box’.

This should include:

- a notebook specifically for pronunciation
- a recording device such as an mp3 recorder (or mobile phone)
- a dictionary with phonetic transcription (showing the sounds in words).

Find someone to give you feedback

Let’s call this person a ‘pron buddy’, someone who speaks English clearly and fluently, perhaps a friend, work colleague or fellow student. Your ‘pron buddy’ can be your ‘sounding board’, that is, someone who can give you regular support and feedback about how you sound in academic or work situations. You could practise difficult words or expressions from your subject area or even rehearse giving a talk or presentation. You could also ask for feedback on your speech in general conversation.

Find some resources

Look at the *Useful Resources* and use the comments to help you select books and web resources that have exercises on the pronunciation features you want to focus on, or provide intensive listening practice.

Did you know that many libraries, including the UTS library, have ‘talking books’, that is, books with CDs or audio cassettes. These will usually be novels and are useful because you can listen and read at the same time. They can help you to improve your pronunciation of general English, expand your vocabulary and gain confidence with English sounds and spelling conventions. The ABC (the national Australian broadcaster) also has a huge range of audio books.

The TED video website has a wide range of excellent presentations. It is particularly useful for non-native speakers of English as interactive transcripts are provided. Go to the HELPS website for live links to these webpages

Identify the speech features you want to improve

Do some **self-analysis**. Your pron buddy may be able to help you. Here are some questions you can ask yourself:

- What aspects of my pronunciation are affecting my communication?
- What would help me to communicate more effectively?
- What words or expressions are people asking me to repeat?
- Are there some sounds which re-occur in these words, expressions, etc.?

- Is it hard to say longer words and word groups clearly and fluently?
- Am I getting feedback that I 'speak too fast'?

Learn to listen to yourself

The feedback you can get from listening to a recording of your voice is very powerful. It's often a shock – even for native speakers – to hear themselves speaking! But this is one of the most useful things you can do. The best way to do this is to **record** yourself speaking so you can listen to yourself and reflect on how you sound. Very often we actually have a pretty accurate idea of what's making us difficult to be understood when we listen carefully to how we are speaking. To be on the safe side however, check your impressions by getting feedback from your 'pron buddy'. Otherwise, you could be 'too hard' or 'too soft' on yourself!

Use the **Pronunciation Checklists** to guide your analysis.

UTS/ELSSA/Pronunciation Project 09/Marilyn Wise and Halina Zawadzki

Ways of Practising Pronunciation

1. **Work on the basics.** Note down key words, high frequency terminology from your subject area or general conversation. Mark the syllable stress and note any problem sounds. Check your dictionary. Practise with your 'pron buddy'. Try reading the items and get feedback. If you need more help, ask your buddy to record the items you need to improve. Practise the items aloud.
2. **Record your voice and listen to yourself.** You will gradually become better and better at analysing your speech. This will help you to self-correct 'on the spot' when you are communicating in real-life situations.
3. **Focus on one feature at a time at first and practise systematically.** It's hard to do *everything* correctly, especially if you have a number of things to work on, so just practise one thing at a time. For example, words which contain a problem sound, words stress, the key words in a speech chunk. You can slowly build up to controlling more features at the same time.
4. **Limit what you say,** for example, the main key word and its tone, or link one or two words together, or only say the key words. Add more words to make phrases. Repeat several times till you feel more confident.
5. **Build your fluency, accuracy and speed.** When you are practising something difficult, speak slowly at first, saying just a few words at a time. Slowly add more words, repeating as you go and getting a little faster each time.
6. **Identify a 'model' speaker** – in other words, someone who speaks English well and who you want to sound like. It could be someone you regularly see on TV for example. Or it could be someone in your class or workplace. Listen carefully to your 'model'. What strategies do they use to speak effectively? Try to imitate the way they speak.
7. **Record a short piece of speech** (about 15-20 seconds) from radio or TV. Try to write what you hear. Ask your pron buddy to check what you have written. Then listen again and underline the key words and syllable stress in longer words. Notice any features of fluent, connected speech; for example, the schwa or linking.
8. **Download a podcast and transcript from ABC radio.** Choose a small chunk and listen carefully to that section. Underline the key words and syllable stress in longer words. Identify key vocabulary to practise. Try reading the chunk to your pron buddy and get feedback. You could also record yourself reading the same piece. Compare your version with the model recording.
9. **Use a system of notation.** This is helpful because it's a way of marking a text and reminding you of what's important when you're practising.

10. Here are examples of the notation you can use:

- speech chunks and pauses marked with a slash / or //
- stressed syllables in key words marked in **bold**
- focus words have an underlined stressed syllable
- arrows mark the direction of pitch movement of the voice, e.g.
 - ↘ for falling intonation
 - ↗ for rising intonation

UTS/ELSSA/Pronunciation Project 09/Marilyn Wise and Halina Zawadzki

Pronunciation Checklist for Presenting

Overall impression: Was meaning communicated clearly and in an interesting way?

Student:	Yes	Needs practice/examples
<p>Chunking and pausing</p> <p>Was information divided into chunks?</p> <p>Did the speaker use pausing appropriately?</p>	<p><input type="checkbox"/></p> <p><input type="checkbox"/></p>	
<p>Key words and focus stress</p> <p>Were key words stressed?</p> <p>Were focus words given more emphasis?</p>	<p><input type="checkbox"/></p> <p><input type="checkbox"/></p>	
<p>Word stress</p> <p>Was correct stress used in words and word groups?</p>	<p><input type="checkbox"/></p>	
<p>Sounds</p> <p>Were sounds produced well enough not to be confusing for the listener?</p>	<p><input type="checkbox"/></p>	
<p>Vocal features</p> <p>Was the speed just right?</p> <p>Was the volume just right?</p>	<p><input type="checkbox"/></p> <p><input type="checkbox"/></p>
