WHAT IS MCKINNEY-VENTO?

The McKinney-Vento Education for Homeless Children and Youth (EHCY) program is designed to address the problems that homeless children and youth face in enrolling, attending, and succeeding in school. Under this program, the Georgia Department of Education (GaDOE) must ensure that each homeless child and youth has equal access to the same free and appropriate public education, including preschool, as other students.

Homeless children and youth must have access to the educational and other services that they need to enable them to meet the same challenging state academic achievement standards to which all students are held. In addition, homeless students may not be separated from the mainstream school environment.

State educational agencies (SEAs) and local educational agencies (LEAs) are required to review and undertake steps to revise laws, regulations, practices, and policies that may act as a barrier to the enrollment, attendance, or success in school for homeless children and youth.

The GaDOE EHCY program is required by the U.S. Department of Education (ED) Office of Elementary and Secondary Education (OESE) to submit data on program performance. The data reflect information principally from LEAs with McKinney-Vento subgrants; however, some information regarding all LEAs throughout the state is required.

EXECUTIVE SUMMARY

The Office of School Improvement at the Georgia Department of Education (GaDOE) conducts an annual comprehensive analysis of available LEA McKinney-Vento program data. Data sources include GaDOE's Student Record, School Improvement's annual homeless survey, and data from other state agencies. This report provides the results of the 2014-15 program year analysis. The key trends, patterns, and relationships included:

- *Georgia has a growing student homelessness problem:* The number of identified homeless students in Georgia increased every year from 2011-12 (34,379) to 2014-15 (39,113). The growth from 2013-14 to 2014-15 was 5.6 percent.
- The percentage of students who experienced homelessness varied greatly among districts: While some districts reported no homeless students, other districts reported populations above 10 percent, including: Seminole County (10.3 percent), Haralson County (10.9 percent), Polk County (11.7 percent), Dublin City (17.2 percent), Hancock County (30.4 percent).
- The living arrangements for homeless students were varied, but most were doubled-up: At 71.4 percent, doubled-up was the most common form of accommodation for homeless students. Living in hotels or motels was the second most common at 17.2 percent. Another 9.7 percent were living in shelters, transitional housing, or awaiting foster care. The unsheltered homeless population was 1.7 percent.
- Black students and students with disabilities experienced high rates of homelessness: In 2014-15 Black students constituted 57.8 percent of homeless students but only 35.7 percent of the total student population. Students with disabilities were 11.0 percent of the total student population and 16.5 percent of the homeless population.
- *Homeless students struggled academically:* Only 17 percent of homeless students scored proficient or distinguished on the End of Grade or End of Course language arts Milestones tests. In mathematics, only 14.9 percent scored proficient or distinguished.
- *Homeless students faced greater risk of suspension:* Homeless students were more likely than non-homeless students to receive in-school suspension (12.1 percent compared to 8.9 percent) and out-of-school suspension (11.1 percent to 6.3 percent).
- *Homeless students attended school at a lower rate than non-homeless students*: Homeless students had an attendance rate of 92.1, compared to a non-homeless attendance rate of 95.6.

NATIONAL STANDARDS

The United States Department of Education (ED) made a call for States to revise state plans with meaningful standards that can lead to quality services and increased academic achievement. The National Center for Homeless Education (NCHE), which serves as the ED's technical assistance and information center for the federal McKinney-Vento Education for Homeless Children and Youth (EHCY) program, recommends that state educational agencies (SEAs) and local educational agencies (LEAs) embrace the ten standards below to measure the effectiveness of EHCY program implementation. Each of the ten standards has multiple indicators (56 total) to measure quality.

- 1. All homeless students, identified and enrolled at the time of the state assessment, take the state assessment required for their grade levels.
- 2. All homeless students demonstrate academic progress.
- 3. All children in homeless situations are identified.
- 4. Within one full day of an attempt to enroll in school, homeless students are in attendance.
- 5. All homeless students experience stability in school.
- 6. All homeless students receive specialized and comparable services when eligible.
- 7. All preschool-aged homeless children enroll in and attend preschool programs.
- 8. All homeless unaccompanied youth enroll in and attend school.
- 9. All parents (or persons acting as parents) of homeless children and youth are informed of the educational and related opportunities available to their children and are provided meaningful opportunities to participate in their children's education.
- 10. LEAs help with the needs of all homeless children and youth through collaborative efforts both within and beyond the LEA.

Currently, EHCY programs are not mandated to collect all the outcome data represented by the 56 indicators of quality. However, it is important to note that the McKinney-Vento Standards and Indicators encompass a majority of the measures that the U.S. Department of Education's Homeless Children and Youth Program requires states to report from their EHCY subgranted LEAs. In addition, ED endorses the usage of the Standards and Indicators. The original McKinney-Vento Standards and Indicators were included in the U.S. Department of Education's 2004 Policy Guidance for the Education of Homeless Children and Youths Program. The revised McKinney-Vento Standards and Indicators have been approved by the U.S. Department of Education as a tool for homeless education programs to ensure compliance with federal requirements and to improve their services.

After meeting with representatives from ED, NCHE and National Association for the Education of Homeless Children and Youth (NAEHCY) officials, GaDOE's EHCY program staff met with a small group of LEA EHCY liaisons and LEA transportation officials to discuss and modify proposed standards. In addition, the EHCY program staff met with other divisions within GaDOE, including: Counseling, Data Collections, School Improvement, Transportation and Consolidated Application developers. After considering the 56 indicators of quality embedded in the 10 NCHE standards, Georgia chose 25 indicators of program quality to track performance across the state.

DEFINITION OF HOMELESSNESS

The following definition, as provided in the McKinney-Vento Homeless Assistance Act, must be used by LEAs when determining the homeless status of a student. Homeless children and youth are defined as individuals who lack a fixed, regular, and adequate nighttime residence. The term "homeless" includes children and youth who experience any of the following:

Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason: If economic hardship, such as an accident or illness, loss of employment, loss of public benefits, or conditions of poverty, forces a family or youth to share the housing of others temporarily, the children and youth are eligible for McKinney-Vento services. A long-term, cooperative living arrangement among families or friends that is fixed, regular, and adequate should not be considered a homeless situation, even if the parties are living together to save money.

Living in a motel, hotel, trailer park, or camping ground due to the lack of alternative adequate accomodations: Motels, hotels, and camping grounds will almost always be homeless situations, as they are rarely fixed, regular, and adequate. In contrast, trailer parks often are fixed, regular, and adequate residences. Asking questions about the condition and size of the trailer, the number of people living there, the intended length of stay, and whether the family or youth has an adequate alternative will help determine if the student is eligible for McKinney-Vento services.

Living in an emergency or transitional shelter: Emergency or transitional shelters of all kinds, including youth shelters, domestic violence shelters, family shelters, transitional living programs, and supportive housing programs are homeless situations.

Abandoned in hospitals: A child or youth abandoned in the hospital is eligible for McKinney-Vento services.

Awaiting foster care placement: Children and youth awaiting foster care placement are considered homeless; therefore, they are eligible for McKinney-Vento services. Children who are already in foster care are not considered homeless.

Living in a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings: An example of a place that meets these criteria is a public restroom.

Living in a car, park, public space, bus station, train station, abandoned building, substandard housing, or similar setting: Substandard housing is any dwelling that deviates from, or falls short of, local laws, standards, or norms.

Migratory children: Migratory children who qualify as homeless living in circumstances described above.

Services and Barriers

The Georgia Department of Education (GaDOE) awards competitive grants to local educational agencies (LEAs) with large numbers of McKinney-Vento eligible students to facilitate the enrollment, attendance, and academic success of homeless children and youth across the state.

Requests for applications are issued by GaDOE once every three years based on the availability of McKinney-Vento funds. The Grant Evaluation and Continuation Report is required from grantees every second and third year of the grant cycle to ensure the continuation of funds for the following fiscal year.

GaDOE provides technical assistance and support to applicants throughout the grant application process in the form of workshops and on-site support. Completed applications are received by GaDOE and screened for eligibility and completeness. Applications are then reviewed and rated using GaDOE contracted reviewers.

Upon completion of the competitive grant process, available grant funds are allocated to grantees based on the applicants' needs and homeless population.

GaDOE is required to review and evaluate the progress of local McKinney-Vento grantees in meeting the objectives of the program. This review and evaluation supports the awarding of grant funds to maintain and further the support of the homeless children and youth in the LEAs.

In the 2014-15 school year, over \$1.87 million was allocated to facilitate the enrollment, attendance, and success of homeless children and youth in Georgia's public schools. The following pages provide detail about the 50 McKinney-Vento grant recipients.

2014-15 Program Highlights

The district's McKinney-Vento program actively and regularly engaged key community stakeholders to ensure the academic success of students in transition. This included:

- Technical assistance to 100 school sites and 10 shelter sites
- Edited Homeless Student Board Regulation to provide better clarity to school sites on enrollment and other McKinney-Vento services
- Created Homeless Education Advisory
- Computers, printers, and IT support at six shelter sites
- Backpack give away program
- Collaboration with local community groups

2014-15 Program Highlights

A notable success in the district's McKinney-Vento program was EHCY achievement on standardized tests compared to their non-EHCY counterparts. The EHCY pass rate on the CRCT improved in every content area. The largest improvement was in the area of Reading, where the pass rate improved from 87.1 percent in FY13 to 92 percent in FY14.

BIBB COUNTY

2014-15 Program Highlights

Throughout the year, the district's McKinney-Vento program partnered with community agencies and utilized grant funds to provide resources and academic assistance to students experiencing displacement in our district. The program provided access to experiential learning opportunities for students through academically-focused summer programs based throughout the community.

Each program had a different approach and was located on community sites or college campuses. Pre- and post- data gathered from the programs indicated that the majority of students made strong academic gains. More than 90 percent of families returning

surveys agreed that the programs provided a safe environment with a strong focus on learning. During the summer of FY15, 82 students were served through outreach.

2014-15 Program Highlights

The district implemented FAFSA Day. Each high school hosted a day to assist students and their families with completing the FAFSA. As a result of the program, the district doubled FAFSA participation compared to the previous year.

CARROLLTON CITY

2014-15 Program Highlights

The district used a case management process to promote the academic success of homeless students. The percentage of students passing in grades 4-12 increased from 86 percent to 90 percent. Afterschool tutoring programs were offered in grades PK-12.

CARTERSVILLE CITY

2014-15 Program Highlights

The Backpack Buddy program and the Least of These program were established in 2009 by the homeless liaisons in Cartersville City Schools and Bartow County Schools. The Backpack Buddy program was a collaboration between local churches, businesses, school systems, and the Bartow Collaborative. The bags were packed by volunteers and delivered to each school on Thursdays. Students also received bags of food.

The program contributed to gains in test scores among homeless students, and resulted in fewer behavior issues and better attendance. The program, along with the Least of These program, have raised awareness in the

Cartersville community about the needs of homeless children and youth and their families.

2014-15 Program Highlights

Based on needs assessments and educator feedback, the district's McKinney-Vento program developed a tutoring and mentoring program for homeless children and youth. Retired educators were paired with identified homeless children and youth and provided one-on-one tutoring twice per week throughout the school year.

Tutors and teachers worked closely to ensure that students were learning direct classroom content. Review of the program participants' results showed an identifiable increase in academic success, attendance, and class participation.

Additionally, teachers identified a decrease in disruptive classroom behaviors.

2014-15 Program Highlights

In 2014-2015, the district aimed for 65 percent of HCY to have fewer than 15 absences from school. This goal was met with approximately 283 HCY. Another goal set by the district was for 65 percent of HCY to remain in their school of origin. This goal was exceeded, with 81 percent of HCY remaining in their school of origin. The district implemented responsive strategies that often utilized the services of approximately 25 local organizations and agencies to provide services to the HCY of Chattooga County Schools from non-LEA sources.

Additionally, the program offered:

- Backpacks, school supplies, and hygiene products
- Supplemental transportation to school-related activities and tutoring
- Contracted group and individual counseling services

CLARKE COUNTY

2014-15 Program Highlights

Due to increased awareness activities, district identification of homeless students increased by an average of 20 percent. Students were provided services and resources tailored to their specific needs, including enrollment, school supplies, and housing and shelter assistance.

2014-15 Program Highlights

The district's McKinney-Vento program partnered with community agencies and individuals to offer a holiday sponsorship project that provided assistance with holiday related costs so families were able to allocate their resources toward housing stability.

The program implemented a threefold readiness model for academic success and focused on providing students with gifts to support their personal, physical, and academic wellbeing. In an overwhelming response, 70 out of 75 sponsored students received devices to assist them with accessing the internet for homework or developing their technical skills. Through the generosity of community partners, students had access to comparable resources that enriched their educational

2014-15 Program Highlights

The goal of the district's McKinney-Vento program was educational stability for children experiencing homelessness. The district lived by the One Child, One School, One Year motto and collaborated with neighboring districts to assist homeless students in continuing in their school of origin whenever possible. The district worked with each family to assist with transportation and other needs. Families were provided enrollment assistance and expedited evaluations for student enrollment.

DAWSON COUNTY

2014-15 Program Highlights

The district's McKinney-Vento program worked with community partners to providemore than 600 children with free school supplies. Because of the overwhelming community interest, the district was able to provide a resource room to homeless students and those students at risk of homelessness and poverty. This resource room gave access to school supplies, shoes, clothing, underwear, socks, hygiene products and much more.

In addition to the resource room, a nonprofit was created to fill gaps in resources in the area. Since 2013, over \$11,000 in donations have provided food for families, covered hotel costs, utility bills, medical bills and medications, and many other things that support family stability.

DECATUR CITY

2014-15 Program Highlights

Based on feedback from 10 high school seniors, and their counselors, a need for support was identified. The district, in partnership with a community agency, provided assistance with graduation fees, laptops, and \$200 to each student for dorm and apartment items. All 10 students graduated on time. Eight students were accepted to college, one to a vocational school, and one entered the workforce.

2014-15 Program Highlights

The district's McKinney-Vento program served its homeless students and families through collaborative efforts with the use of the Brainchild Study Buddies. Homeless students in the district who transition through the Effingham Family Promise, an emergency shelter for homeless families, had an opportunity to enhance their learning using the tech savvy educational device-the Brainchild Study Buddy.

Both program directors and staff received training to utilize the Brainchild Study Buddies so they were better able to assist students in learning. The program engaged students in building math, reading, science, and social studies skills to support learning during the school year.

FULTON COUNTY

2014-15 Program Highlights

The district partnered with several outside agencies such as the Assistance League of Atlanta, World Changers Church and the police department to provide emergency food to homeless families not only during the holidays, but also throughout the school year. In addition, the district partnered with the United Way, Fulton Family Connections, and LIFT, Inc. who assisted families with funds between \$100 and \$1,000 to obtain stable housing or pay for emergency needs in the household.

A partnership with Stand Up for Kids, resulted in over 60 unaccompanied homeless youth receiving on-going mentoring and stipends. Fifteen of these students and their

mentors attended Cirque de Soleil at Atlantic Station to broaden their world views and help them foster healthy relationships with caring adults.

2014-15 Program Highlights

The most successful component of the district's McKinney-Vento program was the afterschool programming for students. The grant paid for the homeless students to participate in Boys and Girls club programs. The Boys and Girls Club recently opened a teen center that offers Friday night movies and dances as well as the more traditional afterschool activities of Power Hour (homework help) and intramural sports.

2014-15 Program Highlights

The district was resourceful in obtaining transportation for homeless children and youth. It utilized a contract with a local agency that transported students until bus transportation was arranged and a substitute bus driver was utilized by the department to also help transport students.

Tutoring services were offered to elementary school students identified as needing support. Community resources were utilized to help provide weekend food, as well as provide other identified needs.

GWINNETT COUNTY

2014-15 Program Highlights

The district's McKinney-Vento program offered:

- One-on-one weekly tutoring
- Fuel card assistance for school of origin and education-related support services
- Academic assistance and credit recovery
- Summer school assistance

HARALSON COUNTY

2014-15 Program Highlights

The district's McKinney-Vento program focused on student success. Two career fairs were offered, with over 60 companies and individuals in attendance on the second day.

The district focused on college and career readiness and improving the graduation rate. Last year, 69% of McKinney-Vento students enrolled in college, including the University of Georgia and Hawaii Pacific University.

2014-15 Program Highlights

The district's McKinney-Vento program offered:

- Backpacks and school supplies
- Enrollment assistance
- Assistance with immunizations, EEDs and birth certificates
- Tutoring
- Guidance and resources for parents
- A homeless liaison for parents to have a primary contact
- Summer literacy kits

LIBERTY COUNTY

2014-15 Program Highlights

The district provided a variety of services to assist homeless children and unaccompanied youth during their transition to permanent housing. These services included the following:

- School uniforms
- School supplies, including book bags and Kitz for Kids supply boxes
- Kitz for Kids hygiene kits
- Transportation to school of origin
- Free breakfast and lunch at school
- One-on-one tutoring and mentoring
- Participation in one of two summer STEAM camps

LOWNDES COUNTY

2014-15 Program Highlights

The district provided services to meet the needs of homeless youth and to make the school environment as normal as possible. It was determined that the greatest need was educational success. As a result, the district provided access to tutoring services for any homeless youth who had failing grades or was in jeopardy of not graduating. Tutoring services were provided by teachers during their off duty time. Tutoring provided homeless students the opportunity to improve failing grades and to recover credit to ensure graduation. This resource proved to be effective for homeless children as well as rewarding to those teachers who have committed to ensuring the success of homeless students. Another success was the collaboration and partnership with local organizations that resulted in the donation of several items that assisted homeless youth and

2014-15 Program Highlights

The district provided students and families with extensive case management and a wide variety of services. The district relied heavily on community collaborations with over 20 outside agencies. Services provided include (but are not limited to) the following:

- Medical services (shots, records transfers, eyeglasses)
- School supplies
- Private tutoring
- Fuel cards to parents for transportation
- School fees and afterschool programming assistance
- Host-home shelter options for unaccompanied homeless youth
- Care closet support immediate access to clothing, shoes, hygiene products, bedding, and other needed items
- Agency referrals, education support, mentoring, and resource connections

2014-15 Program Highlights

In order to promote the academic success of the district's McKinney-Vento students, the district offered:

- Bus transportation
- Gas cards
- External services information
- School supplies
- Weekly bags of food
- School uniforms

MCINTOSH COUNTY

2014-15 Program Highlights

The district had a well-developed support system for transient families that extended to the homeless population. Many churches, through the Ministerial Alliance, contributed to an emergency fund, which was administered through the police department. The district also had a community outreach program called McSeed (McIntosh County Sustainable Environmental Economic Development) and Family Connections that served the needs of the homeless in the community.

MURRAY COUNTY

2014-15 Program Highlights

The district's homeless liaison and social worker worked with academic instructional coaches at each school to identify homeless children and youth who would benefit from individualized tutoring to ensure success in the core academic areas. Over the past three years, approximately 37 students were provided certified teachers to work one-on-one with students up to three hours per week, depending on individual needs. In addition, any student identified as not meeting standards on state tests was offered tutoring over the summer to remediate specific skill deficits.

2014-15 Program Highlights

The district focused on the philosophy that "Schools Can't Do It Alone". Collaboration and coordination between schools and community partners improved identification and recruitment of children experiencing homelessness while increasing the potential for expanding services to families. The McKinney-Vento staff focused on building fundamental partnerships and relationships with community leaders, school personnel, and policy makers with resources to provide to HCY.

There are currently 20 agencies providing direct services to students and parents in the program. Awareness and sensitivity trainings with these agencies led to many new outreach programs for HCY.

2014-15 Program Highlights

The district's goal was to properly identify homeless students, assess their needs and provide assistance and support to allow each student to attain academic success. The school district provided funding for salary and benefits to the Homeless Education Liaison through Title I grant funding. Consultation between the Homeless Education Liaison and the Director of Title I continued throughout the school year to review current data and ensure that student needs were being met. This information was used by the Homeless Liaison to develop the LEA's plan for providing services to homeless students and unaccompanied youth for the upcoming school year.

Another accomplishment was the creation of a McKinney-Vento operations manual.

POLK COUNTY

2014-15 Program Highlights

Tutoring was a successful component of the McKinney-Vento program. Data from counselors revealed that 75 percent of K-12grades K-12 showed increased attendance and academic progress. Standardized test scores, credits for high school students, and graduation rates also increased. School supplies and emergency clothing were also very beneficial to the homeless students. In the three years of the grant, 897 students received supplies and 184 students received emergency clothing. Transportation was provided for five students to remain in their school of origin, and 433 requests for transportation to parent conferences and emergency medical visits were handled by utilizing the LEA's bus and gasoline vouchers.

2014-15 Program Highlights

The following brochures were developed by the McKinney-Vento homeless liaison:

- Children and Youth in Transition:
 A Guide for Families Experiencing
 Homelessness (also available in Spanish)
- Educating Students in Transition:
 A Guide for Community Agencies
 Working with Families Experiencing
 Homelessness

The brochures were distributed to all district schools and to local agencies that provide financial assistance or similar services. Additionally, Children and Youth in Transition toolkits were created and disseminated to all district schools.
