GPA Calculation Chart

To determine a Grade Point Average (GPA), we must be able to reference the following information about each course attempted:

1. Grade Symbol (i.e., A-, B, C+, WU)
2. Grade Symbol Value (i.e., A=4, B=3, C+=2.3)
3. Unit Value (i.e., 3 unit course, 1 unit course)

Refer to the chart below to find the **Grade Symbol** earned for each of your courses. Take a look at your Unofficial transcript to determine the **Units** for each of the courses. Match the Grade Symbol with the course Units in the chart to find the correct Grade Points.

Example:

How many Grade Points has a student earned if they receive a B- in a 3 unit course?

Grade Symbol = | B - | Grade Symbol Value = | 2.7 | Course Units = | 3 |

Grade Symbol Value | 2.7 | X Course Units | 3 | = Grade Points | **8.1** |
