EQUINOX[®]
LOUVERED ROOF

What is Equinox®?

Equinox® is a louvered roof system that moves at your command for full sun, filtered shade, or fully closed for sun and rain protection, allowing you to bring your living space outdoors. No matter what the occasion, **live life uninterrupted.**

Why Equinox®?

The Equinox® Louvered Roof is manufactured with quality elements and precision engineered for exclusive comfort and control. Equinox® enhances any outdoor living area through uncompromising versatility and style. Our patio system is strong, conforming to most wind and snow load requirements. Equinox® Louvered Roof is designed to deliver a premium experience through premium quality allowing you to transform any outdoor space.

“Our Equinox system is the best investment I’ve put into my home.”

- Arizona Homeowner

Create your **VIP Experience**

Value - lower cost of ownership over the lifetime of your pergola
Integrated - all elements working as one
Innovative - redefining what’s possible
Inspired - personalize the space beyond your walls
Personal - customize to match your environment

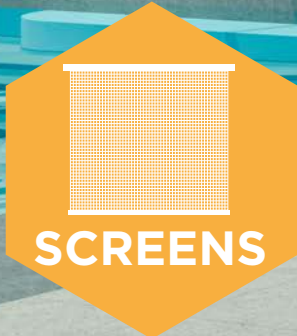

SCENIC RETREAT

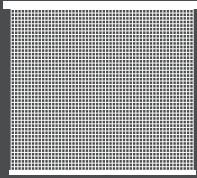

Equinox® Louvered Roof systems allow you to customize your outdoor environment to create a versatile, relaxing retreat or unique space to host gatherings with friends and family.

INTEGRATED

All elements working as one

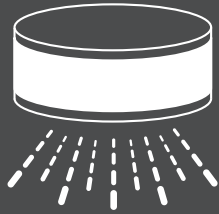

IT'S YOUR CUSTOM OASIS ENJOY IT TO THE FULLEST

SCREENS

BLOCK THE SUN, NOT THE VIEW

- Shade, energy savings and ventilation with the touch of a button
- Reduce heat & glare
- Protect furnishings from fading
- Customized to suit your home and lifestyle
- Eco-friendly, corrosion resistant aluminum components

MISTERS

OUTDOOR COOLING, EVEN ON THE HOTTEST DAYS

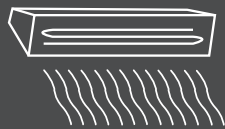

- Turn your patio into a cool oasis with ease
- Bring comfort outdoors for family and friends
- Evaporative cooling technology to cool without condensation
- Ruby nozzles to optimize performance
- Different styles for customized cooling options

LIGHTS

A NEW WAY TO BRING LIFE TO YOUR EVENINGS

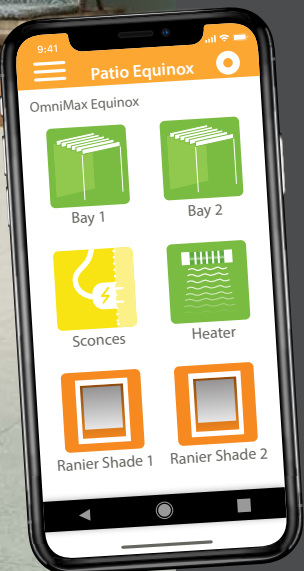

- Illuminate your space in style with the touch of a button
- Color matched mono point, sconce, and down light options
- Electrical permit not required, low-voltage design
- Eco-friendly LED lighting solutions for your Equinox® System
- IP65 waterproof fixtures
- Contemporary, low-profile design

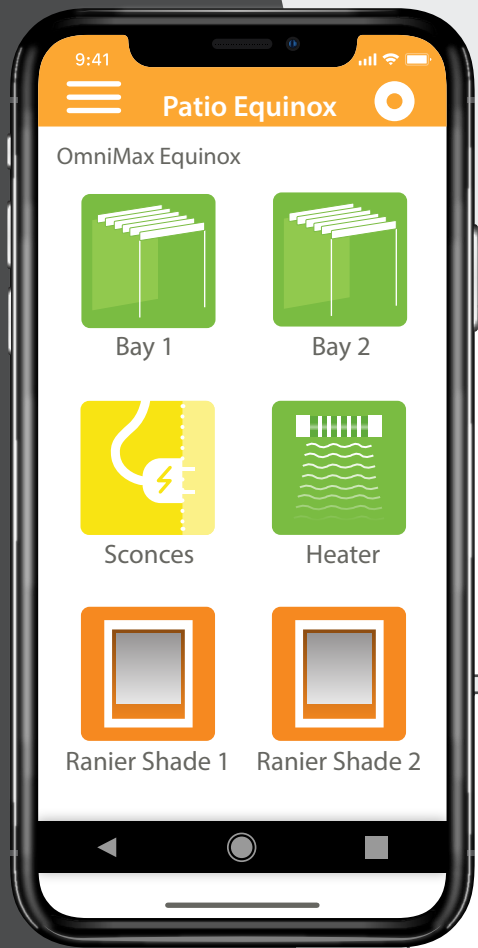

HEATERS

COZY AND COMFORTABLE, ALL WINTER LONG

- Create a cozy outdoor space from anywhere
- Gas or electric options available
- IP55 waterproof design
- Safe, maintenance free & odorless
- High efficiency and high performance

VERY INTEGRATED PATIO

Create a variety of scenes on the app to set different moods with lighting or levels of comfort with shade and ventilation with the simple touch of a button.

Out of town and bad weather strikes at home? **Control your system from anywhere** via Wi-Fi or incorporate optional sensors to give you peace of mind.

Create **custom schedules** to automate your Equinox® scenes and step into your ideal outdoor living space.

Don't waste time searching for a collection of remotes to adjust individual elements on your system. Use the app to **control everything from one source** with ease.

Relax and enjoy your outdoor space knowing your **app control system is password protected and securely integrated** with your existing Wi-Fi.

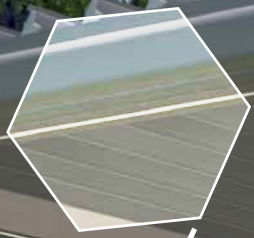

With **limitless add-on capabilities**, enjoy the freedom to incorporate more elements to your system in the future.

Control your Equinox® system with Amazon's Alexa – simply enable the Somfy® myLink™ skill, and say (for example) “Alexa, tell myLink™ to play BBQ scene.”

Smart Home System Integration

The Somfy system is compatible with popular smart home systems available on the market today. Incorporate your outdoor oasis into your technology driven home. For complete details: www.somfysystems.com

INNOVATIVE

Redefining what's possible

Precision Engineered Motor and Louvers

An innovative smart motor system moves the louvers into the perfect position for ventilation, sun blocking or rainfall protection. Designed with extruded aluminum, the system is strong, lightweight and durable. The low maintenance louvers can be positioned for the perfect amount of protection or ventilation.

Built-In Gutters

The Equinox® Louvered Roof system utilizes a high-capacity integrated hidden gutter system that manages rainwater runoff. At installation, the louvered roof is precisely angled to ensure that rainwater flows into the gutters along the perimeter of the system, keeping your space dry and comfortable.

Solar Battery

Harnessing the sun's energy, the battery cell powers the motor that rotates the louvers. Combined with the remote control, the louvered roof needs no wiring and uses no power from the home making it an eco-friendly and sustainable design. The Equinox® Louvered Roof solar battery is securely mounted in a discreet and sunny corner of your patio.

Rain & Wind Sensors

These state-of-the-art sensors are designed to protect your Equinox® Louvered Roof system even when you're not home. They detect weather occurrences and automatically adjust your louvers, screens, and more to prevent damage, maximize energy savings and ensure your comfort everyday. The system will close your roof during an unexpected downpour or open it during windy conditions.

**BUILT
TO
PERFORM**

**“Our Equinox
louvered roof
provides everything
we wanted -
functionally and
aesthetically.”**

- Homeowner, Georgia

MAKE A STATEMENT.

Gable style roofs allow space for custom options such as fans, lighting or other accessories.

Design Details:

louvers in clay, beams, columns and posts in bronze

"Equinox has allowed us to add another room to our house, another living area... We have been just delighted with the product and what it's given to us, allowing us to expand our space and enjoy the outdoors."

- Homeowner, California

PRIVACY WITH COMFORT.

Equinox® Louvered Roof is also ideal for side wall ventilation and lighting, not only ideal for ceiling applications.

Design Details:

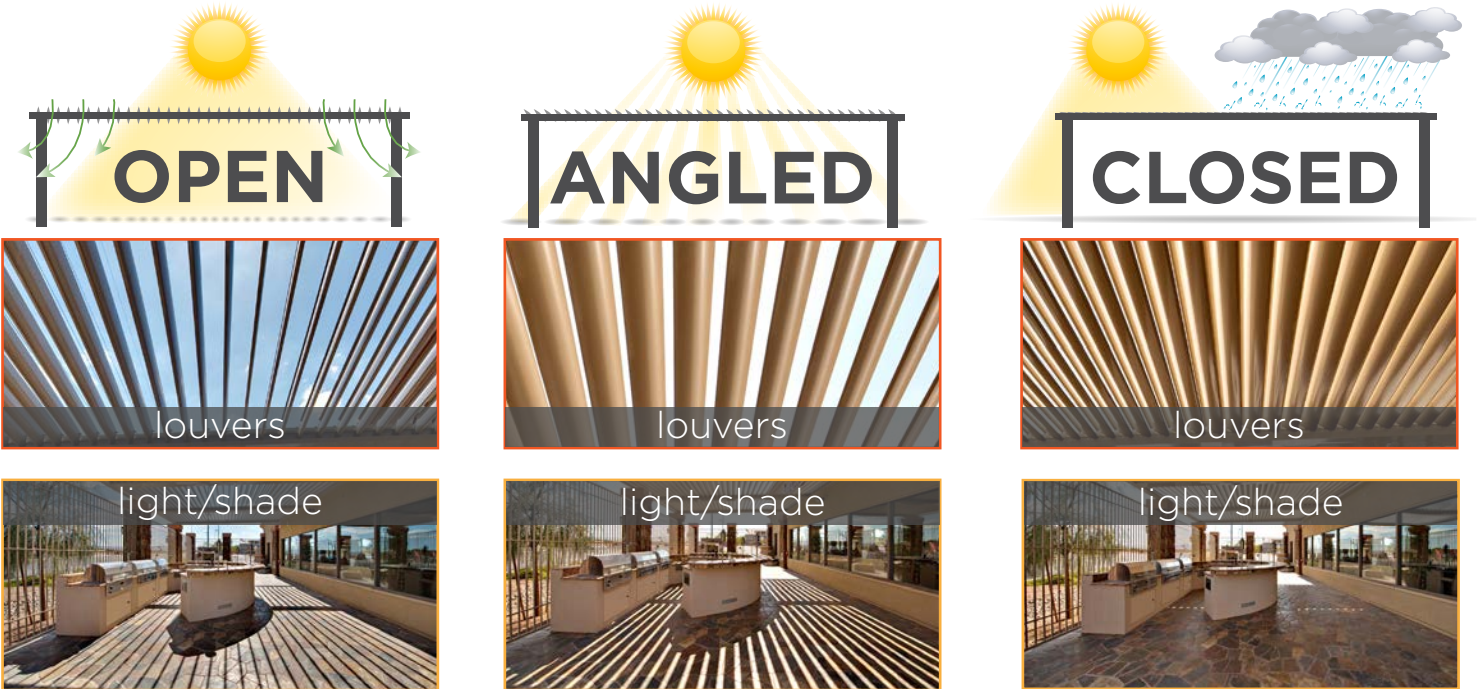

louvers in white and columns in custom green

"With the Equinox Roof, you can adjust the louvers to follow the sun so we always have shade. It covers the entire patio, no more groups of people squeezed under umbrellas. Sometimes I'm out here barbecuing and it starts to rain. No big deal. We just love it."

- Homeowner, Texas

COMFORT & PROTECTION

The wide range of motion of our louvers allows control of the amount of light and ventilation for your outdoor space no matter the time of day. Your Equinox® system's optional rain, wind and sun sensors automatically control your louvers based on current weather conditions.

ALL METAL CONSTRUCTION

Benefits of Aluminum

The Equinox® Louvered Roof is made from extruded aluminum and offers greater durability and longevity than traditional wood, composite or steel patio covers. Equinox® Louvered Roof aluminum components are made to last and will outperform in heat and rain. Your Equinox® pergola will deliver long-term performance without the use of paint, stain or harmful cleaning chemicals. Enjoy low-maintenance, corrosion-resistant and insect-proof construction that stands the test of time.

UP TO **3x**
longer life
than traditional
wood or
composite.

"I would highly recommend to anyone that has this kind of a need where they want to control not just the sunlight but the weather."

- Architect, Florida

"Equinox delivers the quality it promised."

- Homeowner, Wisconsin

"We've just enjoyed it enormously. We found that we had no excuse to go inside, no matter what was going on outside."

- Homeowner, Georgia

"We never really enjoyed our backyard until we got an Equinox."

- Homeowner, North Carolina

**RELAXING
OASIS**

Equinox® Louvered Roof systems move at your command to allow full sunshine, filter shade or provide solid rain protection.

CUSTOMIZE WITH DESIGN OPTIONS

Customized columns and beams provide options that complement your home's style. Round, tapered, square, and fluted are just a few possibilities.

Create your VIP Experience at EquinoxRoof.com

PEACE of MIND

20-Year Warranty

Equinox® Louvered Roof systems are made to last. Equinox® Louvered Roof is made from all metal components providing greater durability than traditional patio covers. Unlike plastic or fabric, our metal components will perform in both heat and rain environments. We are committed to bringing you products of the highest quality and value. *(The 20 year warranty only applies to the aluminum parts and paint. Electrical items and the control system have a 3 year warranty.)*

Envision your Equinox® Louvered Roof system complementing your home and lifestyle. Applications include patios, decks, spas, swimming pools, outdoor kitchens, BBQ areas, gazebos, courtyards, entryways or anywhere that sun, light and weather control is desired.
