SOMETIMES, IT'S NOT EASY TO UNDERSTAND THE HEALTH CARE SYSTEM OR KNOW EVERYTHING ABOUT HEALTH INSURANCE COVERAGE.

How does insurance work?

For many people, it's hard to understand the value of insurance. What if you never get sick? Are you just paying for something you won't use? Insurance can give you peace of mind and security. Not only does it help pay for routine health care, but it also helps pay for bigger bills like when you go to the hospital or need treatment for a disease or sickness.

Most insurance plans have a monthly cost. This monthly cost, or premium, can be very small, or higher depending on the insurance plan you pick. If you **choose an Exchange plan, you may be able to get some help** with your monthly cost. This is called an Advanced Premium Tax Credit (APTC) subsidy.

IN ADDITION TO THE MONTHLY COST, PEOPLE WITH INSURANCE USUALLY HAVE TO PAY A SMALL FEE WHEN THEY GO TO THE DOCTOR OR HAVE A TEST.

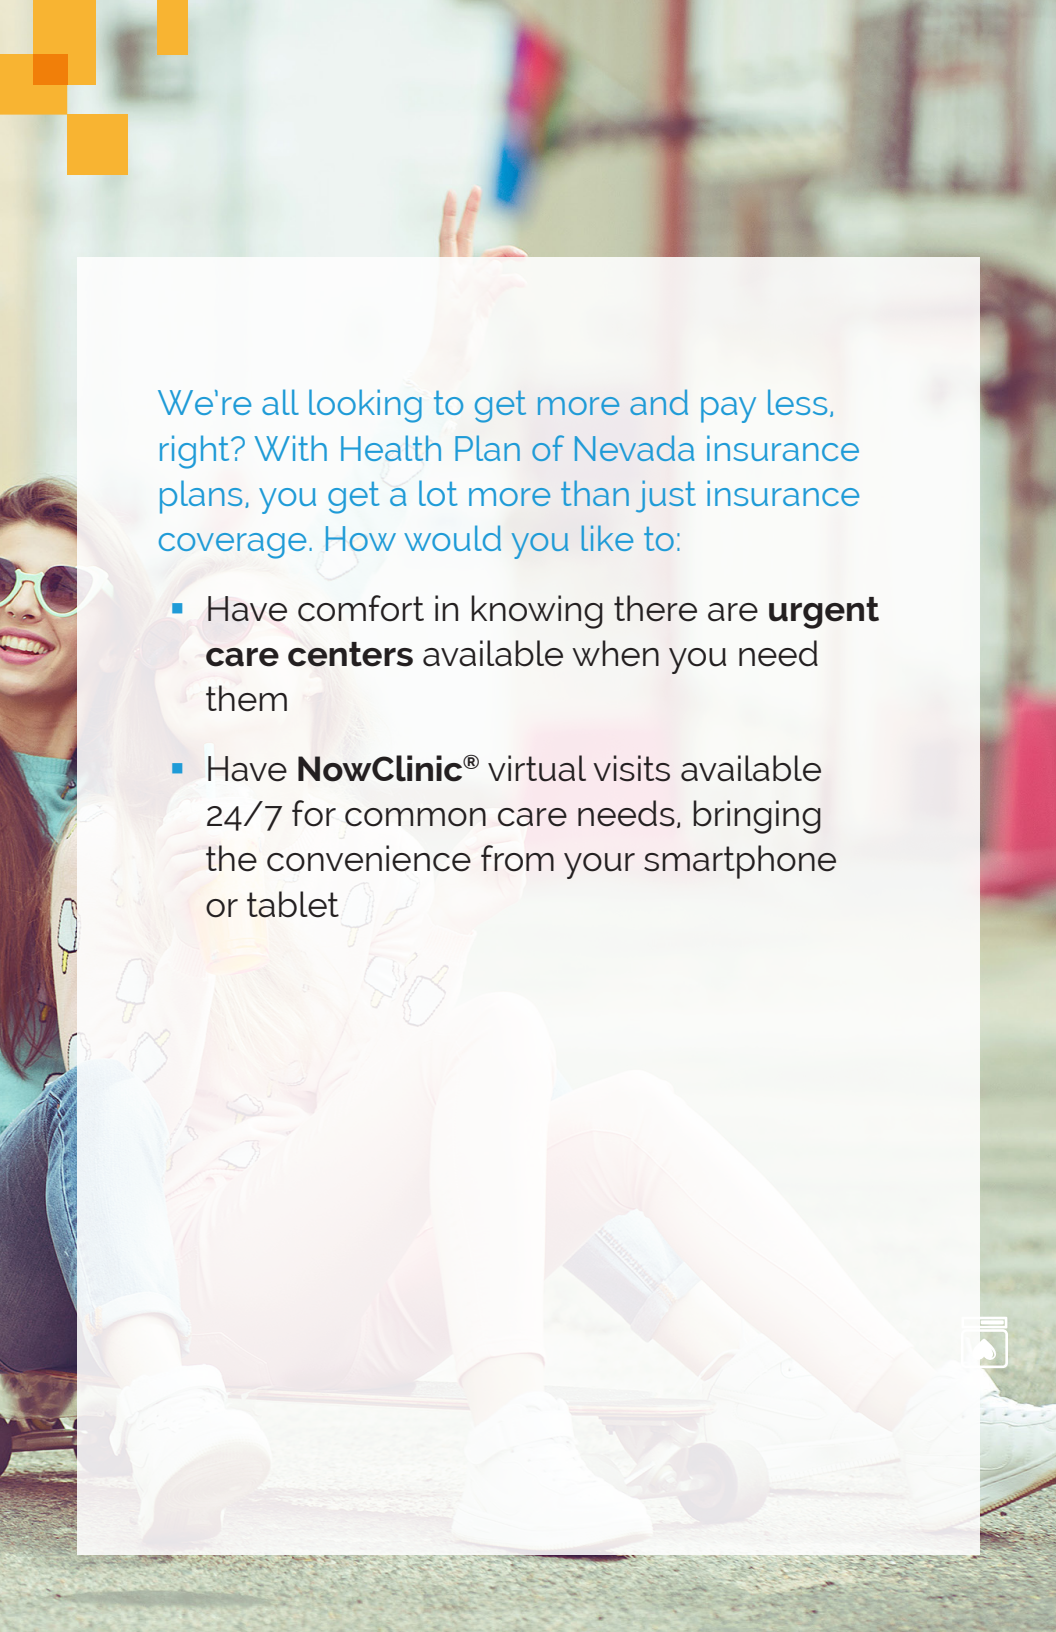

This cost can also range from being very small, like \$5, to being bigger. However, through an Exchange plan, **you may also qualify** for a different subsidy, called Cost Share Reduction or CSR. CSR is only available if you choose a Silver Level plan on the Exchange.

Some things, such as preventive care, may be at no cost.

What plans are available?

The good news is we have several plans available on the Exchange.
