Correct

Question:

In more than _____ of traffic collisions, human error is the cause.

- 1) a) 60%
- 2) b) 70%
- 3) c) 80%
- 4) d) 90%

Incorrect

Question:

Passing on the roadway should be done with:

- 1) a) abandon
- 2) b) caution
- 3) c) both
- 4) d) neither

Correct

Question:

Air bags are primarily designed to offer protection from crashes from the rear and side.

- 1) a) True
- 2) b) False

Correct

Question:

If your brakes fail, you should keep your foot on the accelerator to keep your speed up.

- 1) a) True
- 2) b) False

Incorrect

Question:

If your brakes fail, look for something to rub against. Try to pick something that will not give way.

- 1) a) *True*
- 2) b) False

Correct

Question:

No passing to the left should be done when:

- 1) a) approaching or upon the crest of a grade
- 2) b) curve of a highway
- 3) c) both
- 4) d) neither

Correct

Question:

Highway hypnosis puts drivers at higher risk for having a collision.

- 1) a) True
- 2) b) False

Correct

Question:

_____ is/are involved in the establishment of traffic laws.

- 1) a) Planning and research
- 2) b) Fundraising
- 3) c) Political experience

 Correct

Question:

Unsupervised and uncontrolled driving would lead to _____ on the roadways.

- 1) a) no affect
- 2) b) improvement in the driving envoinment
- 3) c) chaos

 Correct

Question:

To avoid impaired drivers, you should drive late at night on weekends as no one drinks on weekends.

- 1) a) True
- 2) b) False

 Correct

Question:

If one vehicle is traveling at 20 MPH and another is traveling at 60 MPH, the 60 MPH vehicle has _____ times the force at impact as the 20 MPH vehicle.

- 1) a) Three
- 2) b) Six
- 3) c) Nine
- 4) d) Twelve

 Correct

Question:

Additional time should be allowed for poor visibility and weather conditions such as fog and rain.

- 1) a) True
- 2) b) False

 Correct

Question:

If your motor vehicle experiences brake failure you should quickly pump your brakes and try to use any residual pressure in the brakes.

- 1) a) True
- 2) b) False

 Incorrect

Question:

Drivers should exercise _____ when approaching and proceeding through intersections.

- 1) a) yourself
- 2) b) extreme caution
- 3) c) both
- 4) d) neither

 Correct

Question:

The liver's function is to _____ all-toxic substances from the body.

- 1) a) Concentrate
- 2) b) Remove
- 3) c) Keep the same

 Correct

Question:

A _____ is a type of drug that temporarily stimulates some vital process or organ in the body.

- 1) a) Stimulant
- 2) b) Depressant
- 3) c) Narcotic
- 4) d) Hallucinogen

Incorrect

Question:

Theoretically speaking, if you are convicted of DUI, the penalties incurred can lead to the cost of "one" beer mounting to somewhere in the neighborhood of \$8,000.

- 1) a) True
- 2) b) False

Correct

Question:

When there are no other ways to return home after consuming alcohol, you must drive.

- 1) a) True
- 2) b) False

Correct

Question:

The safe designated driver is the person who has _____ drinks.

- 1) a) Less than three
- 2) b) Two
- 3) c) One
- 4) d) No

Correct

Question:

If you are going the same speed, the greater the vehicle _____ the greater the force of impact.

- 1) a) Weight
- 2) b) Length
- 3) c) Width
- 4) d) All

 Correct

Question:

Correct position of the headrest is when the headrest is close to the _____ of the occupants head with the headrest level with the middle of the ears.

- 1) a) Front
- 2) b) Back
- 3) c) Side
- 4) d) None of the above

 Correct

Question:

Starting in model year 1998, all new cars and in model year 1999 all new light trucks must have dual airbags.

- 1) a) True
- 2) b) False

 Correct

Question:

When you check your lights, you should ensure that all the lights work and the lenses are clean.

- 1) a) True
- 2) b) False

 Correct

Question:

You do not need to worry about checking the engine oil; rebuilding or replacing the engine is easier and cheaper than changing the oil.

- 1) a) True
- 2) b) False

 Correct

Question:

Some techniques to aid the driver in aggressively scanning the roadway are:

- 1) a) Look ahead
- 2) b) Look to the sides
- 3) d) Neither
- 4) c) Both

Correct

Question:

During your scanning, you should look two seconds down the road for immediate hazards.

- 1) a) True
- 2) b) False

Correct

Question:

This is the distance traveled from the time your brain tells your foot to move from the accelerator until your foot is actually pushing the brake pedal.

- 1) a) Perception distance
- 2) b) Reaction distance
- 3) c) Braking distance
- 4) d) Total stopping distance

Correct

Question:

Drivers should rely solely on their side mirrors when changing lanes.

- 1) a) True
- 2) b) False

Correct

Question:

On the crossbuck or gate at the railroad crossing, there is a sign telling you how

many tracks are at that crossing.

- 1) a) True
- 2) b) False

 Correct

Question:

Traffic signs and street markings warn the driver of upcoming hazards or road changes that wait ahead.

- 1) a) True
- 2) b) False

 Correct

Question:

Alcohol does not affect an experienced driver's judgment.

- 1) a) True
- 2) b) False

 Correct

Question:

Regardless of your size and weight, it takes your liver about ____ hour(s) to remove one drink from your system.

- 1) a) Three
- 2) b) Two
- 3) c) One
- 4) d) No

 Correct

Question:

Some of the factors used to approximate the value of loss for crashes are:

- 1) a) Public service costs

- 2) b) Property damage costs
- 3) c) Lost productivity
- 4) d) All of the above

 Correct

Question:

For those convicted of DWI, society has to pay for their defense.

- 1) a) True
- 2) b) False

 Correct

Question:

If possible, change lanes and allow the tailgater to pass.

- 1) a) True
- 2) b) False

 Correct

Question:

Immediately after it has started to rain, dust particles and oil residue float on the water and drastically _____ the traction of tires.

- 1) a) improves
- 2) b) have no affect on
- 3) c) reduces
- 4) d) none of the above

 Correct

Question:

When you follow a bicycle, _____ your following distance.

- 1) a) do not adjust
- 2) b) increase
- 3) c) decrease

 Correct

Question:

When you are following a large vehicle, you should tailgate the large vehicle.

- 1) a) True
- 2) b) False

 Correct

Question:

When following a large vehicle, if you cannot see the driver in the large vehicle's mirrors, the driver can still see you.

- 1) a) True
- 2) b) False

 Correct

Question:

You should be on the lookout for pedestrians that cross:

- 1) a) at mid-block
- 2) b) against the light
- 3) c) both
- 4) d) neither

Exam Review:

Correct answers will be highlighted in **green**.
Incorrect responses will be in **red**.

Correct

Question:

When passing a vehicle, first check to your front and rear, and move into the passing lane only if it is clear and you are in a legal passing zone.

- 1) a) True
- 2) b) False

Correct

Question:

When you follow a bicycle, _____ your following distance.

- 1) a) do not adjust
- 2) b) increase
- 3) c) decrease

Correct

Question:

Developing appropriate attitudes depends on making a personal commitment to change attitudes that are unsafe.

- 1) a) True
- 2) b) False

Correct

Question:

One of the two collisions that happen in a crash is:

- 1) a) Impact of the car with the object
- 2) b) Impact of the car with the air
- 3) c) Both
- 4) d) Neither

 Correct

Question:

When you grip the steering wheel, you should place your hands on the steering wheel at the 3 and 9 or 4 and 8 o'clock positions to allow room for air bags to deploy.

- 1) a) True
- 2) b) False

 Correct

Question:

When you are following a large vehicle, you should tailgate the large vehicle.

- 1) a) True
- 2) b) False

 Correct

Question:

In more than _____ of traffic collisions, human error is the cause.

- 1) a) 60%
- 2) b) 70%
- 3) c) 80%
- 4) d) 90%

 Correct

Question:

Driving a motor vehicle requires many coordinated functions which are _____ impacted by alcohol and other drugs.

- 1) a) Not
- 2) b) Adversely
- 3) c) Positively

 Correct

Question:

As you continue to drink alcohol, the amount of alcohol stored in your body continues to:

- 1) a) Decrease
- 2) b) Stays the same
- 3) c) Increase

 Correct

Question:

Loose objects flying around in your car during a collision cannot harm you.

- 1) a) True
- 2) b) False

 Correct

Question:

Tires are designed to grip the road and give the driver directional control.

- 1) a) True
- 2) b) False

 Correct

Question:

In rainy weather, braking distance is increased two or three times as the inability to brake hard leaves one traveling beyond the intended stopping point.

- 1) a) True
- 2) b) False

 Correct

Question:

Where possible, you should avoid driving through standing water.

- 1) a) True
- 2) b) False

 Correct

Question:

When you yield the right of way to another driver, it means that you go first.

- 1) a) True
- 2) b) False

 Correct

Question:

Driving while _____ will substantially alter one's judgment when behind the wheel.

- 1) a) Irritated
- 2) b) Upset
- 3) c) Shaken
- 4) d) All of the above

 Correct

Question:

Adrenaline stimulates your senses preparing you to fight or flee from a dangerous situation.

- 1) a) True
- 2) b) False

 Correct

Question:

Unsupervised and uncontrolled driving would lead to _____ on the roadways.

- 1) a) no affect
- 2) b) improvement in the driving envoinrment
- 3) c) chaos

 Correct

Question:

Matching the vehicle speed and direction to the situation is one of the traits of a good driver.

- 1) a) True
- 2) b) False

 Correct

Question:

Alcohol does not affect an experienced driver's judgment.

- 1) a) True
- 2) b) False

 Correct

Question:

In the synergistic effect, each drug compounds the effect of the other, further altering the driver's ability to safely operate a motor vehicle.

- 1) a) True
- 2) b) False

 Correct

Question:

Regardless of your size and weight, it takes your liver about ____ hour(s) to remove one drink from your system.

- 1) a) Three
- 2) b) Two
- 3) c) One
- 4) d) No

 Correct

Question:

Drivers do not need to be aware of road hazards and road conditions that may affect their vehicle.

- 1) a) True
- 2) b) False

 Incorrect

Question:

A driver whose vehicle becomes involved in a skid should not attempt to regain control of their vehicle; that will only make matters worse.

- 1) a) True
- 2) b) False

 Correct

Question:

Hydroplaning is when traction is lost as the wheels start to ride on the water and not on the road surface.

- 1) a) True
- 2) b) False

 Correct

Question:

Giving up the right of way to others helps to _____ collisions.

- 1) a) cause
- 2) b) avoid
- 3) c) understand

 Correct

Question:

Around construction sites, the driver should be alert for construction workers and

equipment.

- 1) a) True
- 2) b) False

 Incorrect

Question:

At a railroad crossing, you should look for a train approaching the crossing.

- 1) a) True
- 2) b) False

 Correct

Question:

You can go around a traffic gate at a railroad crossing. Even if the gate is down, you could probably beat the train to the crossing.

- 1) a) True
- 2) b) False

 Correct

Question:

When the train has passed, start up right away; it is not necessary to look for another train on the same track or on another track.

- 1) a) True
- 2) b) False

 Correct

Question:

Limit lines show where drivers must stop prior to an intersection.

- 1) a) True
- 2) b) False

 Correct

Question:

The most extreme example of aggressive driving is called:

- 1) a) Road rage
- 2) b) Inattention

 Correct

Question:

The ability to anticipate and determine upcoming driving hazards and conditions is adversely affected by stress.

- 1) a) True
- 2) b) False

 Correct

Question:

When disturbed by emotions, the driver is concentrating on the driving task.

- 1) a) True
- 2) b) False

 Correct

Question:

Traffic laws are made based on rash and hasty decisions.

- 1) a) True
- 2) b) False

 Correct

Question:

When you are emotionally distressed, you should talk to someone you trust and get some perspective on your problems.

- 1) a) True
- 2) b) False

 Incorrect

Question:

The _____ of the brain is the first part of the brain that is affected by alcohol.

- 1) a) frontal lobe
- 2) b) *cerebrum*
- 3) c) cerebellum
- 4) d) mesencephalon

 Correct

Question:

The synergistic effect is _____ with each combination, each time and each person.

- 1) a) Different
- 2) b) The same
- 3) c) Has no affect
- 4) d) None of the above

 Correct

Question:

It's okay to fix your stare straight ahead and drift of into daydreams while driving.

- 1) a) True
- 2) b) False

 Correct

Question:

Drivers should adjust their driving actions accordingly when:

- 1) a) the sun goes down

- 2) b) dusk approaches
- 3) c) nighttime driving conditions take effect
- 4) d) all of the above

Correct

Question:

A driver should insist on the right of way and force their way into traffic.

- 1) a) True
- 2) b) False
