The sample(s) MEET the following requirement(s):

- The flammability requirements of 16 CFR 1500.3(c)(6)(vi), "Flammable solid" (FHSA regulations).
- In lieu of testing and at the request of the client, documentation has been provided which indicates compliance with the heavy metals content in packaging requirements of Model Toxics Legislation of the Coalition of Northeastern Governors (CONEG).
- In lieu of testing and at the request of the client, documentation has been provided which indicates compliance with the lead content requirements of crayons and art supplies of the Consumer Product Safety Commission (CPSC), "Guidance for the determination of extractable lead from crayons and art supplies - June 23, 1994."
- The total lead content of 300ppm requirements in substrate materials (Consumer Products Safety Improvement Act (CPSIA) of 2008).
- The samples were labeled to be in conformity to ASTM D-4236. In lieu of testing and at the request of the client, documentation has been provided which indicates compliance with the labeling requirements of 16 CFR 1500.14(b)(8), "Art materials" (LHAMA and FHSA regulations).
- The packaging and labeling requirements of the client's testing program.

Note: No accessible surface coating was present on the received sample(s). Consequently, the lead content analysis of surface coatings according to modified 16 CFR 1303, "Ban of lead-containing paint and certain consumer products bearing lead-containing paint" (Consumer Products Safety Improvement Act (CPSIA) of 2008), was not conducted.

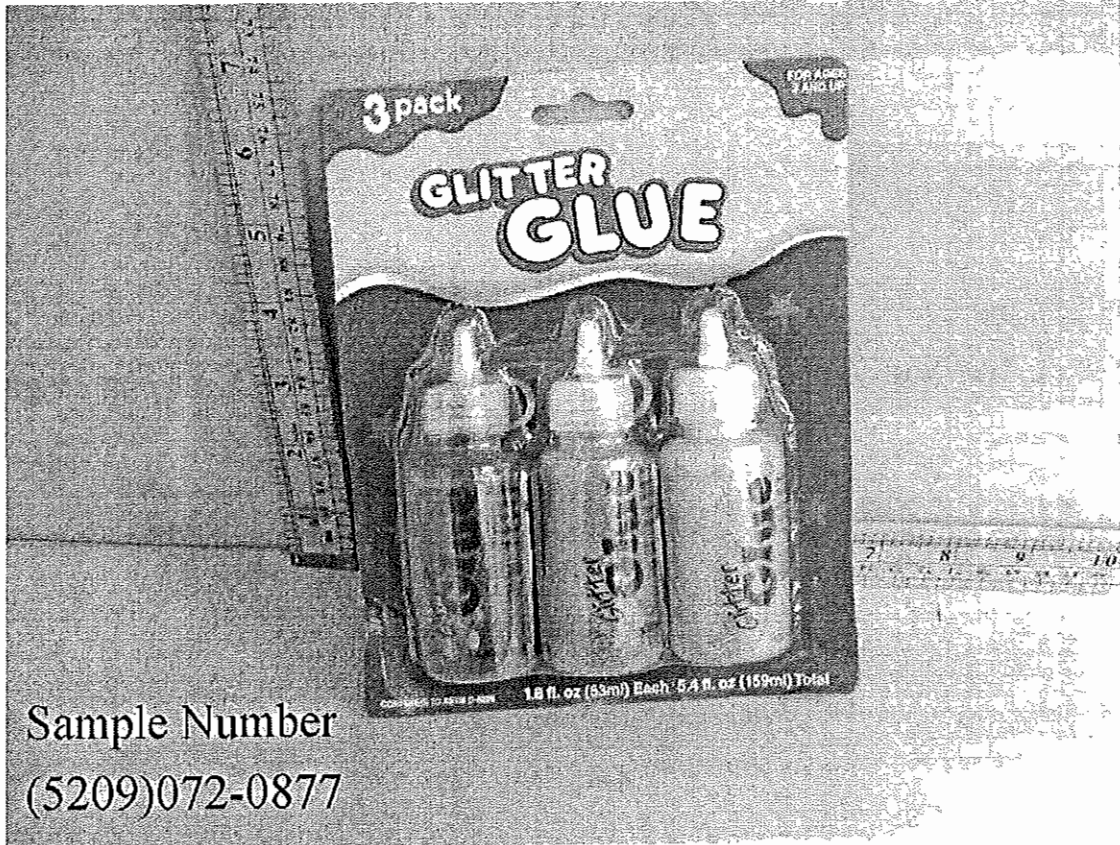

Note: No accessible surface coating was present on the received sample(s). Consequently, the heavy metals content analysis of surface coatings according to ASTM F963-07, "Standard consumer safety specification on toy safety", Section 4.3.5, was not conducted.
