ABOUT OUR CAMPUSES

Boca Raton Campus/Online Division

The Main Campus of Everglades University is located in Boca Raton, Florida, which is conveniently accessible for residents of both Palm Beach and Broward Counties. The Boca Raton Campus provides ample free parking and is easily reached by I-95, Tri-Rail, and public bus service. The University building encompasses over 37,000 square feet of air-conditioned and well-lit offices, classrooms, computer labs, a library and a student lounge. The Online Division of Everglades University is located on the second floor of the Boca Raton Main Campus.

Miami Campus

The Miami off-campus instructional site is located just off Florida's Turnpike and Kendall Drive on Mills Drive in a spacious 24,404 square-foot beautifully remodeled facility located at the Palms at Town and Country shopping district and restaurant center. The facility features student lounge areas with an outdoor patio eating area, library, administrative offices, computer lab and stadium seating classrooms with wireless technology. The Miami campus is conveniently accessible to the Miami International Airport and from both Broward County as well as Monroe County.

Orlando Campus

The Orlando Branch Campus of Everglades University is located in a spacious 28,000 square-foot building on Trafalgar Court, Maitland, Florida. The facility houses well-lit offices, classrooms, a computer lab, a library, faculty lounge and a student lounge. The campus is conveniently located close to I-4, the SunRail Station via Neighborlink shuttle service, Orlando International Airport, Altamonte Mall, and Florida Hospital. The Orlando Campus is a branch of the main campus in Boca Raton, Florida.

Sarasota Campus

The Sarasota Branch Campus of Everglades University is located in a spacious three-story building just off I-75 and University Parkway in Sarasota, Florida. The university occupies approximately 36,000 square feet of space. This includes well-lit offices, classrooms, two computer labs, two student lounges and a student career center. The Sarasota Campus shares a spacious library with a relaxing study area and a large auditorium with state-of-the-industry technology with Keiser University. The campus is surrounded by a beautiful landscape of 20 plus acres bordered by Lake Osprey. The Sarasota Campus is a branch of the main campus in Boca Raton, Florida.

Tampa Campus

Our Tampa off-campus instructional site is located right off the 275 interstate and just minutes from US Highway 589, Route 60, on Kennedy Boulevard across from West Shore Plaza and 2 miles south from International Mall. The 21,000 square foot facility features classrooms designed for an ideal learning environment: 17 classrooms, 15 offices, a library, a computer lab, a bookstore and 2 student lounge areas. The new location offers a convenient option for those located in the City of Tampa as well as neighboring counties of Hillsborough, Pinellas, Pasco and lower Polk counties.

MOST COMMONLY ASKED QUESTIONS

Is Everglades University the right choice for you?

If a quality education is what you're looking for, a small university may be the answer for you. The university you choose will not only affect your potential for success in the chosen field, but it can also make a big difference in completing your degree.

With the small classes at Everglades University, our faculty's first concern is its students. From its opening days to the present time, Everglades University has continued to maintain a standard of excellence to help students meet the demands of today's workforce.

Can a full-time working student attend Everglades University?

Our convenient schedules allow students to work full-time or part-time while completing their degrees.*

* Please contact the campus of your choice for class schedule availability.

Does Everglades University offer classes online?

All degree programs are offered 100% online. Contact the campus nearest you for more information.

Is Everglades University affordable?

In most cases prospective students are able to afford Everglades University. The Financial Services Department provides assistance to those students who qualify for financial aid in order to pay tuition expenses.

Does Everglades University accept transfer credits?

For students enrolling at Everglades University, transfer credits will be subject to approval by the University. Courses must be similar in content and duration to those offered in the program for which the student has applied.

Is Everglades University accredited?

Everglades University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor's and master's degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Everglades University.

Does Everglades University participate in reciprocity agreements?

Everglades University has been approved to participate in the National Council for State Authorization Reciprocity Agreements.

THE EVERGLADES UNIVERSITY ADVANTAGE

- Everglades University's unique class scheduling allows undergraduate students to take one class at a time and complete it in one month. Graduate students can take one or two classes over a two month time period. This concentrated approach permits students to focus on each subject and enhance their overall learning experience.
- Our on-campus and online faculty have industry experience and are dedicated to excellence in teaching. All faculty members hold a Master's or Doctoral degree in their discipline.
- Everglades University provides students with individualized attention in a caring and professional environment. Our faculty and staff are dedicated to helping our students succeed.
- Classes are available on-campus and online. The flexibility of taking classes on-campus or online enables our students to tailor their education to suit their needs. Small classes both on-campus and online encourage greater interaction between faculty members and students.
- Everglades University provides career service assistance to students upon graduation. Our Student Services Department works with both graduates and employers in the community to build employment opportunities.

Individualized education with your future in mind

- A private, not for profit university offering bachelor's and master's degree programs
- Everglades University is a member of the Independent Colleges and Universities of Florida (ICUF)
- Approved by the U.S. Department of Education to participate in Title IV financial aid programs available for those who qualify
- Small classes on-campus and online for meaningful interaction with faculty
- All degree programs are available 100% online
- Career advising and placement assistance available upon graduation
- This school is authorized under Federal law to enroll nonimmigrant students
- Proud supporter of Florida Resident Access Grant (FRAG)
- Approved for veterans' training
- Everglades University maintains articulation agreements with various institutions of higher learning

UNDERGRADUATE DEGREE PROGRAMS

Alternative and Renewable Energy Management

The Bachelor of Science Degree in Alternative and Renewable Energy Management enables students to explore courses in Solar Energy and Photovoltaics; Energy and the Environment; Alternative Energy Safety; Nuclear Energy; Wind Energy; Geothermal Energy; Hydroelectric Energy; and Managing an Alternative Energy Project. Emphasis is placed on communication skills, global awareness, management skills, organizational behavior, critical thinking, codes and standards, and construction and environmental regulations and requirements. As our modern-day society seeks to be more responsible with our natural resources and less dependent on unsustainable sources of energy, the need for competent professionals with an Alternative and Renewable Energy Management Degree is on the rise.

Alternative Medicine

The Bachelor of Science Degree in Alternative Medicine enables students to explore the exciting field of Alternative Medicine with courses in: Herbology and Botany; Nutrition and Aging; Traditional Chinese Medicine; Homeopathy; and Antioxidants. This degree will enable the graduate to become a well-rounded and educated professional with a broad basis for decision making in the ever-changing field of healthcare. Courses are suited for practicing healthcare professionals such as Nurses, Massage Therapists, Spa Directors, and Medical Assistants who want to incorporate these natural healing arts into their careers. Everglades University is proud to be one of the few regionally accredited universities delivering such a comprehensive degree program. A concentration in **Science Studies** is ideal for students preparing for advanced education.

Aviation/Aerospace

The Bachelor of Science Degree with a major in Aviation/Aerospace combines a specific aviation/aerospace industry component with a general education foundation and can include an area of concentration.

Specific concentrations include: **Unmanned Aerial Systems (UAS), Management, Airport Operations Management, Aviation Safety, Flight Operations, Aviation Maintenance Management and Aviation Security.**

The program provides the aviation professional with an extensive academic background to complement his/her aviation technical background whether it is in Air Traffic Control, Aviation Maintenance, Flight Operations, Dispatch Operations through verified FAA Certifications or Military Aviation Operations. The degree prepares graduates for entry into and advancement within the diverse field of aviation specific to their desires and industry needs. Graduates will be equipped to meet the challenges of the diverse and dynamic aviation industry.

Business Administration

The Bachelor of Science Degree in Business Administration gives students the opportunity to explore industry specific topics including International Business, Management Information Systems, Marketing Management and Research and Statistical Analysis among others. Students will learn how to think critically, make sound business decisions, and be active participants in the dynamic and ever-changing business world. Opportunities are provided to apply theories to real world problems in a supportive environment of small and personalized classes. Graduates will be qualified for managerial employment in their chosen discipline in both private and public sector organizations.

UNDERGRADUATE DEGREE PROGRAMS

Construction Management

The Bachelor of Science Degree in Construction Management focuses on the management skills and construction business knowledge required for the continually changing environment of the industry. With courses in Construction Contracts; Building Codes and Quality Control; Construction Scheduling; Construction Law; Building Construction Drawing; and Managing a Construction Project, this degree provides students with a solid education and training in business and management applications. The Construction Management Degree program prepares graduates for productive careers in the industry as Construction Managers, Project Managers, and more.

Crisis and Disaster Management

The major in Crisis and Disaster Management will prepare students for careers in public and private industries including local and state government, healthcare, and community services. Individuals with a Crisis and Disaster Management Degree are the very men and women who design and carry out plans to reduce the loss of life and property when disaster inevitably strikes.

Courses include, but are not limited to Emergency Preparedness and Response; Emergency Management and Public Policy; Human Resource Management; Basic Emergency Planning; and Disaster Health Management. Emphasis is placed on communication skills, global awareness, management skills, critical thinking, theory, planning, response, relief, recovery and specific cases associated with public emergencies, disasters, and catastrophes. Included in the curriculum are natural, technical, and human-induced crises.

Environmental Policy and Management

The Bachelor of Science Degree in Environmental Policy and Management provides instruction in management skills, environmental policy, and specific technical and occupational subjects, such as the Impact of Industrialization on the Environment, Regulation and Law, Climate Change and Environmental Technology and Management. Students will also have the opportunity to focus on several emerging fields of study including global environmental change, environmental planning, and environmental sustainability.

Healthcare Administration

The Bachelor of Science Degree with a major in Healthcare Administration provides instruction in the practical, legal, and ethical issues faced by professionals in healthcare administration. The program is designed to provide students with a broad-based knowledge of general education, business, leadership and management, as well as a firm grasp of the specific aspects that challenge the healthcare administration field.

The Bachelor of Science Degree with a major in Healthcare Administration provides students with knowledge in healthcare theories and components of the healthcare delivery system in the United States, as well as the skill to lead and manage in that industry. The program explores the impact of factors that affect policies, management, and operation of healthcare organizations, as well as the analysis of qualitative and quantitative healthcare data and

UNDERGRADUATE DEGREE PROGRAMS

information for effective decision-making. The program further analyzes the legal and ethical principles and responsibilities of healthcare organizations to individual patient and community healthcare needs, as well as to explain strategic and marketing priorities of healthcare organization in relationship to the needs and values of a community.

Hospitality Management

The Bachelor of Science Degree in Hospitality Management provides students with a comprehensive curriculum of hospitality management entities from a financial, economics, marketing and management perspective combined with a solid general education foundation. Graduates will understand a variety of the hospitality management principles that include analytical, technical, and critical thinking skills to solve problems in an ethical manner and communicate effectively in today's business environment.

Topics covered include Convention and Exhibition Management, Front of the House, and Business and Technology of Sustainability. This program of study will prepare graduates for managerial employment positions such as Managers, Assistant Managers, Supervisors, and other related administrative assignments in the field.

International Business

The Bachelor of Science Degree with a major in International Business offers instruction in business management skills. Students can examine courses in Management Information Systems; Global Strategy and Policy; Politics in International Business; Marketing Management; Negotiation Communications and much more. This program of study will prepare graduates for managerial employment positions such as Managers, Assistant Managers, Supervisors, and other related administrative assignments in the business environment, globally.

Land and Energy Management

The Bachelor of Science Degree in Land and Energy Management delivers instruction in management skills, land and energy specific technical and occupational subjects, such as Land Use Planning Regulations; Oil, Gas and Energy Geopolitics and Law; Communication and Environmental Justice; and Geographic Information System Data Analysis and Mapping (GIS). Students will obtain a broad based knowledge of the negotiations in the landwork and energy industries combined with a general education foundation and business and management applications. Emphasis is placed on communication skills, global awareness, management skills, critical thinking, law and policy, and environmental regulations and requirements.

Marine Resources Management

The Bachelor of Science Degree with a major in Marine Resources Management provides instruction in environmental sciences that is designed to allow students to apply specific knowledge of marine, coastal and wetlands areas to the business of managing natural resources. Emphasis is placed on the policies that govern the management of resources in marine, coastal and wetlands environments, as well as human interactions with those ecologies. The program explores the intersection of business, environmental science, and environmental policy, with a focus on ethical and

UNDERGRADUATE DEGREE PROGRAMS

sustainable decision-making in regards to marine, coastal and wetlands resources. The program augments the environmental science background with additional education in communication, business, management, critical thinking, sustainability, regulations, and policies.

This degree includes courses in Marine Biology, Environmental Science, Coastal Wetlands Management, Environmental Policy and Management, Environmental Impact Analysis, Marine Policy and Management, and Marine Resources Sustainability. The degree is designed to prepare graduates for professions focused on marine resources, working with government entities, non-profit organizations, or private industry related to the management, development, or sustainability of coastal or wetland environments or ecologies.

Parks, Recreation and Leisure Management

The curriculum is designed to allow students to acquire a Bachelor of Science Degree with a Major in Parks, Recreation and Leisure Management, as well as to prepare them for entry-level positions in the field. This degree focuses on the issues, skills and topics needed to succeed in managing all aspects of this dynamic industry.

Students earning the Bachelor of Science Degree with a major in Parks, Recreation and Leisure Management will attain abilities to understand the business and management aspects of the recreation and leisure industry, including high levels of learning in communication, critical thinking, marketing, operations, and team and project management. Students will also learn to design programs and experiences with an emphasis in the private sector of the hospitality field as it relates to the leisure and recreation industry, including tourism and community considerations.

Surveying Management (for Construction and Roadway)

The Bachelor of Science Degree with a major in Surveying Management delivers instruction in management skills and surveying for construction, industry specific technical and occupational subjects, such as Surveying for Route and Boundary, Platting, and Geotechnical Technology. Students will obtain a solid general education and extensive training in business and management applications as well as law, regulations, planning, design, theory and methods used in the surveying field. Graduates of this program will be prepared for productive management careers in surveying for construction and roadway.

Sustainability

The Bachelor of Science Degree with a major in Sustainability is designed to provide its students with preparation in the areas of environmental science, public policy, public health, community planning, and sustainable business practices. The interpersonal and analytical skills provided by this program, combines with the management, policy and business emphasis, should prepare graduates from this program to hold positions as sustainability managers or directors, sustainability consultants, researchers, and environmental analysts in both the private and public sectors.

Graduates from the Bachelor of Science Degree with a major in Sustainability will have a high level of learning in the business background to provide understanding of the business, economic and policy repercussions of sustainability in various industries. Students will attain the knowledge and skills needed to effectively manage organizations and evaluate policy decisions in the public and private sectors with a deep understanding of the environmental science, political, and business aspects of Triple Bottom Line thinking.

GRADUATE DEGREE PROGRAMS

Aviation Science

The Master's Degree in Aviation Science offers aviation professionals the opportunity to significantly enhance their knowledge of the aviation community and aerospace industry.

This program delivers a rigorous, broad-based curriculum for students to gain a mastery of the aviation field. Students will complete technical aviation coursework that will include Analysis of Transportation Systems, Airport Operations, Aerospace Communications Systems, Aerospace Logistics, Aircraft Simulation, Advanced Crew Resource Management Procedures, Aerospace Systems Safety, Advanced Security, and Safety Program Management. An Aviation Graduate Capstone Course will culminate the program, allowing students to demonstrate their mastery of program topics prior to advancing their careers. Concentrations are available including: **Aviation Security, Aviation Operations Management and Business Administration.**

Business Administration

The Master's Degree program in Business Administration emphasizes sound general principles and decision-making techniques that provide a base for continued learning and professional development in today's dynamic and ever-changing business world.

Students pursuing a Master's Degree in Business Administration from Everglades University will take courses in Accounting for Decision Makers; Strategic Sales and Marketing Management; Advanced Organizational Behavior; and Business Policy and Decision Making among others. Concentrations are available including: **Accounting for Managers, Aviation Management, Construction and Management, Human Resource Management and Project Management.** A Graduate Business Capstone Course is also required as a culmination of this intensive program, allowing prospective graduates to demonstrate their newly acquired skills and expertise in the field of business administration prior to embarking on their careers.

Construction Management

The Master's Degree in Construction Management allows students seeking upper-level management positions in various sectors of the construction industry to improve their competency in project, program and company management areas. The program is designed to provide students with the opportunity to apply advanced theoretical concepts and knowledge from all functional areas of the construction business through an analytical, decision-making process which focuses on solving practical problems.

The Master's in Construction Management curriculum provides a challenging and creative learning environment, including courses such as Strategic Management of Construction Organizations, Advanced Construction Estimating, Construction Claims, Construction Cost Analysis and Financial Control, Construction Productivity, and Legal Aspects in Construction.

The Master's Degree in Construction Management seeks to provide students with a well-rounded view of the purpose, operation, and management of construction business entities. Graduates will be able to understand how analytical tools apply to business policy and decision-making as well as be able to understand management theory and organizational behavior. Graduates with a Master's Degree in Construction Management will attain strengthened skills in the business and management of construction organizations, as well as to provide the tools to understand how economic and financial events impact business decision making, and apply them to the construction industry.

GRADUATE DEGREE PROGRAMS

Entrepreneurship

Students will explore basic business fundamentals as well as current industry trends while taking courses such as Leadership Skills for Managers; Strategic Sales and Marketing Management; Entrepreneurial Innovation and Technology; and Global Business Ventures among related classes. An Entrepreneurship Capstone Course will culminate the program, enabling students to demonstrate the knowledge and expertise gained throughout their coursework.

The Master's Degree in Entrepreneurship provides a challenging learning environment with an emphasis on entrepreneurial theories with the skills needed to understand the risks and rewards associated with developing a working model from which to start an innovative business venture. Graduates of the Master's Degree in Entrepreneurship will be able to analyze various models and demonstrate effective decision making practices.

Hospitality Management

The Master's Degree in Hospitality is designed to provide the skills and knowledge needed for success in the hospitality industry by professionals for high-level operations and management. The program combines foundational managerial and business background in accounting, decision-making, human resources, project management, and business strategy with courses in hospitality theory, management, and sustainable operations.

The Master's Degree in Hospitality offers courses that should prepare graduates for employment in managerial positions in hospitality. The degree will prepare students with skills in project management, leadership and critical thinking and decision-making. Opportunities for these graduates will range from hotels and restaurants to travel, resorts and tourism, to event planning and customer service.

Leadership

The Master's Degree in Leadership curriculum is designed to create leaders with practical knowledge applicable to a variety of professional, personal, and civic environments, and enable graduates to apply their knowledge to effect real change and transformation. The program is designed to provide the necessary skills and strategies to support the goals of its graduates in becoming the next generation of leaders, whether they are interested moving up to the next level in their current occupations, or embarking on a new path in their careers.

The Master's Degree in Leadership seeks to provide students with a broad view of the meaning of leadership. The degree is designed to prepare students to apply theories of leadership to real-world situations. Graduates will be prepared to inspire teams, and create change in organizations, and model leadership in contexts of all types.

GRADUATE DEGREE PROGRAMS

Public Health Administration

The Master's Degree in Public Health Administration curriculum provides a challenging and creative learning environment with an intensive program of study that has a broad-based administrative emphasis. Public Health Administration professionals come from varying educational backgrounds and specialize in an array of fields. Graduates will be able to confront complex health issues such as improving access to healthcare, controlling infectious disease, influencing healthcare policy, community health assessment, and epidemiology.

Specific concentrations include: **Complementary and Alternative Medicine (CAM) and Functional Nutrition (MPHFN)** These degree program offers personal fulfillment by working towards improving the public's health and well-being.

Sustainability

The Master's Degree in Sustainability represents an approach to sustainability concepts built around the "Triple Bottom Line," which comprises the three pillars of sustainability: economy, society, and the environment. Courses in this program include a multi-disciplinary approach to each of these aspects of sustainability. This program asks students to examine the impacts on business and society caused by the changing environment, and to imagine improvements to existing systems in fields including business and management, economic development, public policy and public health, and environmental justice. Graduates in the growing field of Sustainability can find jobs in clean energy, community organizing, technology, education, management, planning, business and more.

The Master's in Sustainability curriculum provides a challenging and creative learning environment, seeking to provide students with a well-rounded view of the various disciplines encompassed by the Triple Bottom Line, and how concepts of sustainability can be implemented into business, public policy, community development, and public health. Graduates will be able to leverage a broad understanding of sustainability concepts to applications in many sectors, and to integrate various approaches in strategy and decision making for the future.

YOUR SUCCESS IS OUR SUCCESS

"I would highly recommend anyone interested in pursuing a career in construction to enroll in the construction management degree at EU. The vast knowledge I learned in school (while actively applying it to my career in real life) was vital to catapulting me up to speed with my peers who had been working in the construction industry during my 7+ years in the military following high school. Attending EU 100% online gave me the best advantage and opportunity to bridge the gap of knowledge I lacked and helped me start my career on the right path." **Charles Vardman, 2017, Bachelor's in Construction Management, EU Orlando**

"After earning my masters degree, doors were opening, and employment opportunities were being offered to me. I was offered a few jobs, and I have chosen to pursue a teaching position which will allow me to share my knowledge and passion for aviation." **Ralph Seurattan, 2020, Master's in Aviation Science, EU Tampa**

"I completed my B.S. in Alternative Medicine in July of 2017 and started my Master's in Public Health Administration, with a concentration in Functional Nutrition in January 2018. I continued with Everglades University Orlando, because of my positive experiences during the time I was there for my Bachelor's degree. I believe that I will achieve and succeed in my profession, because of my education at Everglades University and all of the instructors and staff who encouraged and helped me along my journey." **Doreen Munson, 2020, Master's in Public Health Administration, EU Orlando**

"I was very eager to start the program and learn new ways to take better care of myself in a more natural and holistic fashion. I have gained more knowledge in the field of health, the human body and how things affect us not just on a physical level, but on an emotional level as well." **Marjorie Champagne, 2019, Bachelor's in Alternative Medicine, EU Orlando**

"I owe EU Sarasota for success in my career with Manatee County and the next step of studying for the State exams. I can't thank Everglades University, for helping me complete this important step in my career." **Priscilla Seleska, 2019, Bachelor's in Surveying Management, EU Sarasota**

"Attending Everglades University has been one of the best decisions I've made. As an airline pilot I have a rigorous work schedule, and I've found with the flexibility EU programs offer they allow me to succeed with a structure of learning that is conducive to success. I can log in anywhere that has internet to complete my school work. The online classes are held in an easy to use interface that makes it convenient to get things done as time in my schedule allows."

Gregory Custer, 2020, Bachelor's in Aviation/Aerospace Flight Operations Management, EU Online

"I was working as a Project Engineer, and while working full time, I never thought I would be able to complete my degree. Everglades University provided the support I needed to keep me engaged and interested in completing my degree. Earning this degree has provided me with options to grow within my company, as well as get more notice from local recruiters looking for specialized talent in the industry."

Jake Wiseman, 2020, Bachelor's in Construction Management, EU Online

"I highly recommend going to school at Everglades University. Not only are their education programs very effective but they offer so many opportunities for growth and provide many resources for students. Everglades University's online program was great. The faculty and staff were always willing to help you succeed. They also help alumni stay involved with the University. The future is bright for Everglades University." **Charles McDonald, 2017, Bachelor's in Alternative and Renewable Energy, EU Online**

YOUR SUCCESS IS OUR SUCCESS

“Everglades has opened opportunities for career advancement that would not be possible without this education. It served as a launching pad for me and I will be doubling my salary upon graduation. This is a major blessing that has been made possible by attending Everglades University.” **LeeRoy Salainas Jr., 2019, Bachelor’s in Environmental Policy and Management, EU Orlando**

“While in my program, I gained hospitality experience at a local Hyatt property and found a keen interest in the financial side of the business. I became especially interested in the finance and accounting field when I was in my accounting class with Ms. Scott at the Tampa campus. She inspired me to pursue my talents and interest, and now I plan to continue my education in Finance.” **Fabrice Hoareau, 2020, Bachelor’s in Hospitality Management, EU Tampa**

“My classes at EU provided invaluable real-world crisis management experience, and my degree in Crisis and Disaster Management allowed me to achieve my goal of becoming a U.S. Military base & installation, Emergency Manager. My Everglades education gave me the edge in this everchanging world where we must adapt to our surrounding environments and global competition.” **Stephen Matthews, 2020, Bachelor’s in Crisis and Disaster Management, EU Sarasota**

“It was very important for me to set an example for my five children, and now I am continuing my education to earn his Master’s Degree in Construction Management. Even though it is hectic balancing a full-time job, a family, and school, I come to class and appreciate how the faculty members support me and engage with the class to make it a positive experience.” **Josh Muniz, 2017, Bachelor’s in Construction Management, EU Tampa**

“My experience at Everglades University has been exceptional! I feel like the dean, advisors, and other staff are like family because they genuinely care about my progress and have shown me their kindness and willingness to help whenever I needed it. Thank you.” **Veronica Nelson, 2020, Bachelor’s in Alternative Medicine, EU Tampa**
