Quenvold's

Safety Shoes - "For the Right Fit!"

The Right Reason:

Quenvold's is the Right Fit:

- Tough - Durable- Comfortable
- Registered State of California small bussiness - #29983
- Registered with Better Business Bureau - A+ rating
- Our warehouse stocks over 12,000 pairs of shoes
- Providing shoemobile service for over 55 years - first mobile service on the West Coast
- Our staff is trained to recommend and fit the right product for each person and every work enviroment, including specialty environments
- We add value and convenience by bringing the store to your door
- New **cleaner and greener** fleet of shoemobiles. Lowest emission diesel trucks available
- We stock the latest technology and update styles regularly
- Sizes available from women's 4 to men's 18, multiple widths.

Shoemobiles Carry:

- Over 85 styles
- 1,400 pairs of shoes
- 14 quality brands
- 2 types of insoles
- Socks, laces and sno-seal

All shoes are stocked in medium widths, except those noted.

All shoes, except those noted as soft toe, have protective toes as stated in the ASTM F2413-05 safety standard.

Index:

Shoe Characteristics (Características de zapatos)	3

Pull-On Boots (Tira-en Botas)	14
Specialty Shoes (Zapatos Especiales)	15
Accessories (Accesorios)	15

Delivered to you...as close as 866-SAF-T-SHU or 866-723-8748 "TOLL FREE"

We Offer the Finest Crafted Brands

Take us on your phone!

Lighter Weight Metal Toe		Toe is of a lighter weight metal, providing the same safety standard as stated in the ASTM F2413-05.
Anti-Fatigue		Anti-Fatigue technology footbed for all day comfort and energy return.
Conductive		WARNING - Only to be worn in controlled environments. Designed to facilitate the discharge of static electricity from the body through shoes into grounded conductive floors. ASTM F2413-05
Cold Formula		Thermoplastic urethane providing enhanced traction on frosted ice surfaces.
Composite Toe		Toe is of a non-metallic material, providing the same safety standard as stated in the ASTM F2413-05.
Dual Density		Outer density is abrasion and slip resisting. Inner density provides a soft bed of thick absorbing comfort.
Durashock		Lightweight outsoles for shock absorbing comfort and durability.
Electrical Hazard		Designed to protect the wearer from electrical circuits of 600 volts or less under dry conditions. ASTM F2413-05 EH
Waterproof		Membrane lined to stop water absorption.
Insulated		Shoe contains an insulated lining.
Met Guard		ASTM F2413-05 MT - Metatarsal guard.
Puncture Resistant		Puncture resistant outsole.
Rubber Outsole		Oil resisting rubber outsole.
Static Dissipating		Constructed to reduce the accumulation of static electricity by conducting the body charge to a properly grounded flooring system. ASTM F2413-05 SD
Slip Resistant		Superior traction even in wet, oily environments.
Vibram		Rugged outdoor outsoles designed for durability and high performance.
