Notes:

1. The following subjects were not considered for QS WUR 2019 by subject:

   Archaeology, Art & Design, Mineral & Mining Engineering, Agriculture & Forestry, Anatomy & Physiology, Anthropology, Library & Information Management

   Listed below were the reasons from QS for not having results in the said subjects:

   "a. It may not offer a program

   b. It may not have published a sufficient number of papers

   c. It may not have attracted a minimum level of recognition through our surveys

   d. Receiving a score for a particular subject does not guarantee that we have checked for its presence in your institution. These checks are only carried out for
   institutions with a score high enough to receive a published rank in the subject"

2. The ranking positions of institutions are shown in QS website up to the no. of ranked institions specified by QS (in the fact file) only. For institutions that are ranked beyond that
   specified no., no information is provided in QS website on their actual ranking positions. Therefore for these subjects, HKU's ranking positions are listed as below a certain rank
   (e.g. 51+) and information is insufficient to ascertain the exact ranking positions of HKU, as well as those of the other universities that are ranked below the said specified no..
