

The excluded medications shown below are not covered on the Express Scripts drug list. In most cases, if you fill a prescription for one of these drugs, you will pay the full retail price.

Take action to avoid paying full price. If you're currently using one of the excluded medications, please ask your doctor to consider writing you a new prescription for one of the following preferred alternatives. Additional covered alternatives may be available. Costs for covered alternatives may vary. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your plan. For specific questions about your coverage, please call the number on your member ID card.

Express Scripts manages your prescription plan for your employer, plan sponsor, health plan or benefit fund. These excluded medications do not apply to Medicare plans.

[^] Multisource brand exclusion – The generic equivalent of this brand-name medication is covered under your plan. FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance. As new generic medications become available, additional multisource brand products may become excluded.

~ Medications will be excluded beginning 04/01/2021
