

## 2021 Estimated Capital Gain Distribution Notice

Below are estimates of the capital gain distributions scheduled to be paid for AB mutual funds.

Actual distributions will vary from these estimates based on the following:

- Estimates do not reflect all required tax considerations. Actual capital gain distributions will be affected by all required tax considerations.
- Estimates are computed through October 31, 2021, and do not include the full measurement period.
- Portfolio trading between October 31, 2021, and the distribution date may increase or decrease the capital gain.
- Capital gains are paid on a per-share basis. Changes in the number of shares outstanding could increase or decrease the amount per share.

All investors who own shares, on the record date, of a fund paying a capital gain will receive the capital gain distribution on the payable date listed in the below chart.

The funds listed are currently projected to pay capital gain distributions. Because these are estimates, some of these funds may not pay capital gains or funds not currently on the list could pay capital gains.

**We strongly encourage you to discuss the implications of capital gains with your tax consultant and financial advisor prior to making any investment decisions.**

The status of any capital gains distributed to shareholders (i.e. whether or not they are considered short-term or long-term) depends on how long the fund owned the securities that produced the gain—not how long the shareholder owned shares in the fund. Short-Term Capital Gains: Capital gain income from assets held one year or less and is taxed at the investor's ordinary income tax rates in effect for the year. Long-Term Capital Gains: Capital gain income from assets held longer than one year and are generally taxed at a special long-term capital gains rate.
