ACCESSORIES

Shown on cover: 2017 Camaro 2SS.

Preproduction models shown. Actual production models may vary. Optional equipment shown on some models. GM reserves the right to make changes at any time, without notice, in prices, colors, materials, equipment, features, specifications, models, accessories and availability. Every Chevrolet Accessory has a quality story to tell. Find out more in the pages following, and see the full lineup of Chevrolet Accessories at chevrolet.com/accessories.

Most Chevrolet Parts and Accessories sold and installed on a Chevrolet vehicle by a Chevrolet Dealer or a Chevrolet-approved Accessory Distributor/Installer (ADI) before delivery to the customer are covered under the applicable portion (Bumper-to-Bumper, Powertrain, etc.) of the New Vehicle Limited Warranty. If Chevrolet Accessories are installed after vehicle delivery, or are replaced under the New Vehicle Limited Warranty, they will be covered, parts and labor, for the longer of the following: a) 12 months/12,000 miles (whichever comes first), or b) the balance of the applicable portion of the New Vehicle Limited Warranty. Chevrolet Parts sold over the counter, or those not requiring installation, will continue to receive the standard GM Dealer Parts Warranty of 12 months from the date of purchase, parts only, regardless of miles. Does not apply to Associated Accessories. See your dealer for details. GM Licensed and Associated Accessories are covered under the accessory-specific manufacturer's warranty and are not warranted by GM or its dealers. GM is not responsible for the safety or quality of independent supplier alterations.

¹ – Associated Accessories are not tested by Chevrolet, or necessarily undergo the same third-party testing procedures as Chevrolet accessories.

WHAT WILL YOU MAKE OF IT?

**DESIGNED, ENGINEERED, TESTED
AND BACKED BY CHEVROLET!**

There's only one choice when it comes to accessories for your Camaro. Chevrolet Accessories are completely in tune with the engineering and design standards set forth by Camaro.

Our front grille options are developed and optimized using CFD (Computational Fluid Dynamics) to achieve the necessary engine airflow requirements. They are engineered to meet all the aerodynamic, airflow, safety and styling requirements of Camaro. In addition, our Illuminated Bowtie has been turned on and off 1.5 million times during extensive LED testing and has endured extreme temperatures ranging from -40°F to 158°F to help provide a long-lasting, consistent glow. This bowtie touts a distinct backlit appearance that illuminates through chrome, a design you'll be hard-pressed to find anywhere else on the road.

ACCESSORIES

Most Chevrolet Parts and Accessories sold and installed on a Chevrolet vehicle by a Chevrolet Dealer or a Chevrolet-approved Accessory Distributor/Installer (ADI) before delivery to the customer are covered under the applicable portion (Bumper-to-Bumper, Powertrain, etc.) of the New Vehicle Limited Warranty. If Chevrolet Accessories are installed after vehicle delivery, or are replaced under the New Vehicle Limited Warranty, they will be covered, parts and labor, for the longer of the following: a) 12 months/12,000 miles (whichever comes first), or b) the balance of the applicable portion of the New Vehicle Limited Warranty. Chevrolet Parts sold over the counter, or those not requiring installation, will continue to receive the standard GM Dealer Parts Warranty of 12 months from the date of purchase, parts only, regardless of miles. Does not apply to Associated Accessories. See your dealer for details.

¹ - Associated Accessories are not tested by Chevrolet, or necessarily undergo the same third-party testing procedures as Chevrolet accessories.

**PREPARE FOR
LAUNCH.**

We know what you want – the same things we do: less drag and more speed; flat cornering, faster laps and more control. Chevrolet Performance Parts can amplify exactly what you want Camaro to be on the track or give it a look all its own. Designed by the same engineers who created Camaro, these parts have been tuned to match the driving characteristics and high standards of this iconic nameplate. Why not trust the same team that knows every move Camaro was engineered to make?

Our 1LE parts were born on the test track and carry the same uncompromising, tailored capabilities. In addition, our Lowering Kits meet the exact specifications of the Camaro chassis while enhancing the feeling of responsiveness. Plus, available brake packages feature the same benefits of corrosion resistance and lowered vibration as the Camaro factory brakes.

When it comes to adding looks or speed, there's only one choice. Chevrolet Performance offers power, durability and innovative technology to ensure your Camaro performance is just right for you. Visit chevy.com/performance for more details.

PERFORMANCE

The parts listed in this catalog are intended primarily for use in racing, track applications or "off-road" vehicles only – they are not intended for use on public roads. U.S. federal law and Canadian law prohibit an automobile manufacturer or dealer from removing, modifying or rendering inoperative any part installed on a motor vehicle in compliance with an applicable Federal Motor Vehicle Safety Standard or any part of federally required emission control systems on a motor vehicle used on public roads. Further, many states and provinces have enacted laws with various penalties for tampering with, or otherwise modifying any required emission or noise control system.

Many parts intended for racing, track applications or "off-road" use are not designed or tested for crashworthiness or to meet the safety needs of the motoring public, and may adversely affect the original intended performance or handling characteristics of the vehicle. These parts are designed and intended to be used with experts supervising their installation and use, to help assure the proper and safe operation of the vehicle.

Unless specifically noted to the contrary herein, vehicles equipped with Chevrolet Performance Parts may not meet Federal Motor Vehicle Safety Standards and emission regulations and should not be operated on public roads. Chevrolet Performance customers are responsible for ensuring their use of Chevrolet Performance Parts complies with applicable federal, state and local laws, regulations and ordinances.

These components are intended for installation and operation in off-road uses only. They may not meet the full durability requirements that Chevrolet validates for its street legal, production vehicle components. The use of these components in a GM vehicle may result in adversely affecting vehicle performance. In some cases, use of certain Chevrolet Performance components may result in the failure of other components or systems, which would not be covered under the New Vehicle Limited Warranty. For Performance Parts in this catalogue designated with an asterisk (), installation of such parts may void part or all of the New Vehicle Limited Warranty; further warranty information and other specific restrictions are called out with each Performance Part. Otherwise, vehicles do retain their New Vehicle Limited Warranty coverage with Chevrolet Performance components installed by an authorized GM Dealer or qualified Independent Service Center.*

PERFORMANCE PARTS

TAKE IT TO THE NEXT LEVEL.

Camaro has always been about progressive levels of performance. Take your SS up a level by adding on elements of the iconic 1LE Option Package designed to intensify your handling feel in and out of the corners.

SUSPENSION UPGRADES

1LE SUSPENSION HANDLING PACKAGE

(1LE Track Pack-Street. SS Coupe with Magnetic Ride Control™) This 1LE kit uses the same hardware and shock calibration as the production 1LE. The stiffer stabilizer bars, higher-rate springs and handling links reduce body roll and increase steering feel.

P/N 84233245.
MSRP*: \$1,500.

LOWERING SUSPENSION UPGRADE SYSTEM

Designed to lower your Camaro 20mm at each corner and help improve the handling feel. Uses high-rate front and rear coil springs, along with specifically tuned struts and shocks.

P/N 84188726 (SS Coupe without Magnetic Ride Control).
P/N 84188728 (SS Convertible without Magnetic Ride Control).
P/N 84188725 (LS/LT Coupe with 20-Inch Wheels).
P/N 84188727 (LS/LT Convertible with 20-Inch Wheels).
MSRP*: \$1500.

Not available on models with Magnetic Ride Control. Available for LS/LT and SS models with specific kits for coupes and convertibles.

SWAY BAR SUSPENSION UPGRADE SYSTEM

Help enhance the handling of your Camaro by adding the Handling Kit to your Lowering Kit. Includes front stabilizer bar, front handling links, rear stabilizer bar, instruction sheet and performance emblem. When combined with the Lowering Kit, vehicle roll is reduced by up to 18%. Testing on the Milford Proving Grounds Autocross Course resulted in an average lap time decrease of 1.6 seconds (overall time improvement from 1:04.2 to 1:02.6), when also paired with the Suspension Lowering Kit.

P/N 84242386.
MSRP*: \$495.

REDUCES VEHICLE ROLL UP TO
↓18%

CHASSIS AND DRIVETRAIN UPGRADES

SHORT-THROW SHIFTER

The 1LE Performance Package shifter delivers shorter, more precise shifts for a greater feeling of control and immediate performance. It is a direct replacement for the standard manual shifter on Camaro LS/LT and SS models. No knob or boot included. The shift throw is reduced by 4.2% for the L4/V6 and 8.75% for the V8.

LT1 V8, P/N 24287123.
MSRP*: \$325.
LTG L4/LGX V6, P/N 24283947.
MSRP*: \$325.

REDUCES SHIFT THROW UP TO
↓8%

SUEDE SHIFT KNOB WITH BOOT

P/N 24287140 (2.0L TURBO AND 3.6L V6).
P/N 24287141 (6.2L V8).
MSRP*: \$170.

6.2L STRUT TOWER BRACE

Enhance the road feel of your Camaro. Standard on Camaro SS Convertible, this lightweight, aluminum underhood tower-to-tower brace enhances chassis stiffness, contributing to a more direct steering response. It's a direct bolt-on for 2016+ Camaro SS Coupe models only. Base and installation hardware included.
P/N 84125309.
MSRP*: \$195.

**Manufacturer's Suggested Retail Price. Tax and installation extra.*

Unless specifically noted to the contrary herein, vehicles equipped with Chevrolet Performance Parts may not meet Federal Motor Vehicle Safety Standards and emissions regulations and should not be operated on public roads. Chevrolet Performance customers are responsible for ensuring their use of Chevrolet Performance Parts complies with applicable federal, state, and local laws, regulations, and ordinances. Many parts intended for racing or other "off-highway" use are not designed or tested for crashworthiness or to meet the safety needs of the motoring public, and may adversely affect the original intended performance or handling characteristics of the vehicle. These parts are designed and intended to be used with experts supervising their installation and use, to help assure the proper and safe operation of the vehicle. Chevrolet Performance parts not requiring installation or purchased over the counter carry a 12-month limited warranty on parts only.

PERFORMANCE PARTS

POWER YOUR
PASSION.

Chevrolet Performance offers a wide range of factory-engineered crate engines. Each is designed, validated and built with the same quality and performance standards that go into GM production engines.

1

1. LT1 CRATE ENGINE

The LT1 6.2L opened the next chapter in the long, historic legacy of the Small-Block engine. It's architecturally similar to the LS family of engines, but with a unique block casting, cylinder head design, oiling system and more. It also combines advanced technologies including direct injection, Active Fuel Management¹ (cylinder deactivation) and continuously variable valve timing to support an advanced combustion system. The LT1 6.2L crate engine is rated at 460 horsepower and 465 lb.-ft. of torque; and it is offered with a wet-sump or dry-sump oiling system. A controller specially designed for retro fit application using an automatic transmission is available. Wet Sump (460 horsepower), P/N 19355405. MSRP*: \$11,644. Dry Sump (460 horsepower), P/N 19329997. MSRP*: \$11,644.

**Manufacturer's Suggested Retail Price. Tax and installation extra.*

¹ Chevrolet Performance control kits do not utilize the AFM components on this crate engine.

2

2. LT4 ENGINE

The supercharged LT4 6.2L SC is the most powerful engine ever offered in a regular-production Chevrolet. It features a more-efficient, more-compact 1.7L Eaton R1740 TVS supercharger, which spins at up to 20,000 rpm. That's enough to generate more than 9 pounds of boost and help produce 650 horsepower and 650 lb.-ft. of torque. The LT4 is based on the same Gen V Small-Block architecture as the LT1 engine, with several unique features designed to support its higher output and the greater cylinder pressures created by forced induction. They include Rotocast A356T6 aluminum cylinder heads that are stronger and handle heat better than conventional castings, lightweight titanium intake valves and stronger forged aluminum pistons. Wet Sump (650 horsepower), P/N 19368622. MSRP*: \$16,172. Dry Sump (650 horsepower), P/N 19332702. MSRP*: \$16,819.
