

Nature Scientific Reports articles, published since May 16 through May 25, 5pm CT.
(<https://www.nature.com/srep/articles>)

Total 527 articles found, including a small number of corrigendums. After deducting them, there were more than 500 normal articles. Only 15 out of 500+ articles have been accepted within 40 days from submission, which is less than 3% of the published articles. Only 5 out of 500+ articles have been accepted within 30 days, which is less than 1%. All the articles, except Santer et al, report results of experiments, and none of them involves complex models.

The following is the full list of the articles, accepted within 40 days:
