Players must only use the role of the opponent to fight and then the victory can be, the gameplay is very pure. Beautiful game opening animation, fighting refreshing and stable balance. The gameplay is not the way to choose the characters and then play against them in a normal combat game, but a card. Yes, this is a fighting game in the form of a card. The player uses the three character cards in hand to create a team combination and challenge other teams. The battle of the game is very special, the player cannot move the character, so we and our opponents strike you like a strain, and I took you to cleagle and asked you who won the final victory. Players only need to touch the screen continuously, you can complete the character's fist attack. It can use a simple operation with a high-time battle with even the hand that I can easily and smooth the section easily. The refreshing makeup can also be very smooth in the general moves between them, no longer agitates around the rocker game up to the broken thumb, but also easily beat the opponent, of course, the original flagship of the final technology is more He didn't disappoint! For the fighting game, this work even if simple operation, but it is still able to pursue the segment, not a trick without skills, is still able to pursue.
