GENERAL INFORMATION

The **GED** (General Education Development) test is designed to establish a student's High School Equivalency for the state of Nevada. When completed it will grant a HSE Certificate

GED is a program of the **American Council on Education (ACE)**, which is a private, not for profit education association. With a partnership with **Pearson Vue**, the GED is a computerized exam that reflects what graduating seniors know and are able to do when they complete a traditional four-year program of study. The passing standard for the GED tests is tied to the performance of graduating seniors on these same tests. Upon passing, examinees will receive a certificate and a transcript with their scores and ranking.

For those wishing to use the HSE exams for admission into a college or university, it is advisable to check in advance if their policy explicitly states whether or not it is accepted.

Eligibility requirements to take either exams in Nevada as described in the Nevada Revised Statutes are as follows:

- *Must be* a Nevada resident
- Must *not* have a high school diploma
- Must *not* be enrolled in high school
- Must *not* be under 16 years of age, those that are under 18 need a withdrawal form and may need permission from the school district..
