Inventory Control

Get in control of your inventory with Wasp Inventory Control – the complete inventory tracking solution for small businesses. Wasp Inventory Control allows small businesses the ability to accurately track inventory, without the complexity and expense of an enterprise solution.

• Avoid cumbersome manual processes
• Audit your inventory with confidence
• Circumvent inventory shrinkage
• Track inventory at multiple sites & locations
• Track inventory by serial number, lot, pallet, date, or any other custom metric
• Integrate your inventory, financial, & sales order solutions*
• Update inventory records in real-time*
  *RF Professional & RF Enterprise

Manage your inventory from the time it enters your warehouse to the time it is sold & shipped to the customer. With a robust inventory management solution you empower your business to grow.   Never disappoint a customer by failing to fulfill an order when an item is out of stock. Utilize the 60+ comprehensive reports to make informed business decisions – what items are flying off the shelves & what items are taking up valuable warehouse real estate.

Update inventory data with mobile devices on-the-go wherever your stock resides. Inventory Control Standard edition allows batch updating to your PC using a cable whereas Inventory Control RF Professional and Inventory Control RF Enterprise edition allow real-time updates with 802.11 b/g/n wireless communication.
