Advanced Accounting Work-Based Learning

A class that provides students the opportunity to connect what they learn in school with worksite application. Students are placed in an occupation that relates to the accounting area. The school and business community work together to plan activities that will enable each student to apply the knowledge, attitudes and skills learned in the classroom to actual business situations and positions. This course must be a part of a Work-based Learning Program. The coordinator for this program must have the Supplemental Work-based Learning Endorsement. The Nebraska Department of Education recommendations for implementation of a high-quality work-based learning program are available for successful programming. These recommendations can be found on at <http://www.nebraskaworkplaceexperiences.com>.
