

# The Approved List of Humanities and Social Science Courses for Engineering Degrees

Students should check the current catalog to ensure any prerequisite and departmental requirements are met.

“NOTE: Some curricula may require the completion of a specified number of upper-level Humanities/Social Science (H/SS) electives. An upper-level H/SS elective is generally understood to be a course at the 2000-level or above which requires as a prerequisite the successful completion of a lower level H/SS course. For example, a student might take History 1310 as a lower level H/SS elective. Then later the student takes History 3420 which requires either History 1300 or History 1310 as a pre-requisite. Therefore, History 3420 counts as an upper level H/SS elective. However, students must check with their academic advisor about specific department guidelines regarding upper-level H/SS electives“.
