

# Occupational Classification System (Job Codes)

This list is adapted from a classification system originally devised by Hollingshead, A. B. & Redlich, F. C. (1958). Equivalent numeric codes follow the alphabetic code. Either code may be used, depending on the processing method. Numbers in parentheses following the occupation categories are the 1980 Standard Occupational Classification code equivalents. The abbreviation "pt" means "part" and "n.e.c." means "not elsewhere classified."
