# National Interagency Coordination Center Incident Management Situation Report <br> Friday, August 19, 2022 - 0730 MDT <br> National Preparedness Level 3 

## National Fire Activity:

| Initial attack activity: | Moderate (202 fires) |
| :--- | :---: |
| New large incidents: | 3 |
| Large fires contained: | 14 |
| Uncontained large fires: ** | 25 |
| Area Command teams committed: | 0 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 8 |
| ${ }^{* * *}$ Complex IMTs committed: | 0 |

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 41 fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.

## Northwest Area (PL 3)

New fires: 69
New large incidents: 1
Uncontained large fires: 5
Type 1 IMTs committed: 2
Type 2 IMTs committed: 2
White River, Okanogan-Wenatchee NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Irving Peak fire. Twenty-three miles northwest of Leavenworth, WA. Timber. Active fire behavior with flanking, backing and single tree torching. Numerous residences threatened. Evacuations and area closures in effect.

Irving Peak, Okanogan-Wenatchee NF, USFS. Twenty-six miles northwest of Leavenworth, WA. Timber. Active fire behavior with flanking, backing and isolated torching. Residences threatened. Evacuations and area closures in effect.

Windigo, Umpqua NF, USFS. IMT 2 (NW Team 10). IMT is also managing the Potter and Big Swamp fires. Twenty miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Potter, Willamette NF, USFS. Forty-six miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Moderate fire behavior with wind-driven runs, single tree torching and spotting. Area, road and trail closures in effect.

Big Swamp, Willamette NF, USFS. Thirty-seven miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Moderate fire behavior with flanking, single tree and isolated torching. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Cedar Creek, Willamette NF, USFS. Transfer of command from IMT 1 (PNW Team 2) to IMT 1 (PNW Team 3) will occur today. Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Active fire behavior with flanking, isolated torching and smoldering. Structures threatened. Area, road and trail closures in effect.
Precipitation occurred over the fire area yesterday.

* Thor, Colville NF, USFS. Six miles southeast of Metaline Falls, WA. Timber and closed timber litter. Moderate fire behavior with flanking, isolated torching and smoldering. Road closures in effect.

## Northern Rockies Area (PL 3)

New fires: 22
New large incidents:
2
Uncontained large fires:
6

Garceau, Flathead Agency, BIA. Seven miles northeast of Hot Springs, MT. Tall grass and timber. Extreme fire behavior with short-range spotting, group and isolated torching. Structures and energy infrastructure threatened.

Quinn, Craig Mountain Supervisory Area Office, IDL. Seventeen miles southwest of Grangeville, ID. Tall grass and timber. Moderate fire behavior with running, flanking and backing. Residences threatened.

Blister, Fort Peck Agency, BIA. Twenty-five miles north of Wolf Point, MT. Grass. Minimal fire behavior with smoldering. Residences threatened.

Sutton, Kootenai NF, USFS. Thirteen miles southeast of Eureka, MT. Timber. Minimal fire behavior with single tree torching and creeping. Road and trail closures in effect.

Elmo, Flathead Agency, BIA. Eight miles west of Elmo, MT. Grass and timber. Minimal fire behavior with creeping and smoldering. Structures threatened.

Deep Draw, Crow Agency, BIA. Ten miles east of Bridger, MT. Timber and brush. Minimal fire behavior with smoldering. Residences and energy infrastructure threatened.

Indian Ridge, Bitterroot NF, USFS. Previously reported incident. Thirty miles southwest of Darby, MT. Timber. Active fire behavior with short crown runs, flanking and backing. Area and trail closures in effect. Last narrative report unless significant activity occurs.

* Quartz, Glacier National Park, NPS. Twenty-five miles north of West Glacier, MT. Timber. Active fire behavior with short crown runs and uphill runs. Structures threatened. Area and trail closures in effect. Last narrative report unless significant activity occurs.
* Eneas Peak, Idaho Panhandle NF, USFS. Six miles west of Copeland, ID. Closed timber litter and brush. Active fire behavior with uphill runs, flanking and single tree torching. Last narrative report unless significant activity occurs.

Predictive Services Discussion: Isolated to scattered mixed wet and dry thunderstorms are likely to be ongoing this morning across portions of northwest Oregon and western Washington along and west of the Cascades, including the Olympics. Isolated to scattered mixed wet and dry thunderstorms are forecast to develop across northern Washington and from central Oregon into central and southern Idaho and northeast Nevada. Temperatures will cool across the northwestern US, but remain 5-15 degrees above normal, with relative humidity of $10-25 \%$. Locally gusty winds are possible in the Cascade Gaps as well. Widespread wet, monsoon thunderstorms will develop over the Southwest into the Greater Four Corners, with localized flash flooding likely across Arizona and New Mexico. Scattered thunderstorms are expected to develop across portions of central Texas into the Southeast, with the greatest coverage and heaviest rain possible over Georgia and the Carolinas. Showers and scattered thunderstorms are forecast over portions of the northern Plains into the western Great Lakes, Iowa, and northern Missouri as well.

## Parking An Engine On The Fireline

Vehicle/Roads Category

You've been engaged in mobile attack on the left flank of a fire for over an hour. Every time you come close to hooking the head of the fire, a wind pulse pushes it out of your reach. It seems the Incident Commander (IC) is asking for progress reports every five minutes. Ahead the fire is burning onto a steep rocky slope, looks like it's hose packs from here...

When fighting wildland fire, there are occasions when crews must leave their engines and equipment to implement suppression tactics. In doing so, fire equipment remains the responsibility of all crew members and its safety must be seen to. In the heat of the moment, with pressures to get to work, it can be hard to remember to pause and think about things like where we park our vehicles.

When parking vehicles on or near wildfire incidents:

- What do you look for in a fireline parking spot? Look up, look down, look all around.
- Look for cold black, bare soil, sparsely vegetated areas, plowed fields, or other natural or humanmade barriers. Be careful to not get stuck in soft soils.
- Complete a walk around looking for ash pits, penetrating stobs, unburned adjacent fuel, snags, or other hazards that may damage the apparatus.
- Do not block the access or egress of others. Be careful to not block dozer lines, safety zones, or helispots. Back in and face your danger when turning around. Chock your tires.
- What types of situations may require you to park your vehicle in unburned fuels?
- What should be considered when leaving an individual with a fire vehicle?

The following mental checklist and flowchart can be used to ensure the safety of yourself and your equipment.

Is your truck S.E.C.U.R.E.?
Set parking brake
Environmental hazards mitigated
Chock the wheels
Under carriage inspected
Roll up windows
Ensure equipment is safe to leave
