Gynecology, Surgery of the Cancer, Fertility Consultant, Obstetrician, Laparoscopic Surgery M.B.S, F.C.P.S (Gynecology & Obstetrician.) M.C.P.S, M.R.C.S, M.I.G.S, C.H.P.E Gynaecologists are doctors with extensive training in the diagnosis and treatment of diseases or disorders related to the female reproductive system. They need to have acquired a thorough knowledge of female physiology. Gynaecologists are competent in performing the total health control of women and see to it that their reproductive health is not at risk. Check-up includes breast check-up, STD check-up, physical check-up and reproductive system control. Treatments that gynecologists often provide are for cervical cancer, vaginal infections, urinary tract problems, irregular periods and other diseases. In addition, gynecologists also help women suffering from infertility. They treat various diseases that cause the problem in conception. The best gynecologists advise women to visit Gynecologist regularly. It assures them their health and safety. Girls from 13 to 15 can start seeing a gynecologist. The situations in which a gynecologist should be seen include incontinence of urine, problems related to periods (absence or excess,) abnormal vaginal discharge, and sexually transferred diseases. Bhubaneswar gynecologists provide reliable treatments of all gynecological diseases and disorders in women. They have high-class equipment and technological help. Visiting the gynecologist can help women stay healthy and safe from various diseases that affect due to ignorance. Book an appointment with the best gynecologist in Bhubaneswar on 365doctor. Instant appointments on the favorite date of the p Advertise with us, the best SEO Expert India Guaranteed results " Very good doctor " - S mohanty " My sister suffers from cynical problem so plz help..we want to meet u. " - Sagatika sahu " I married 8 years but no child. I want to give solution " - Sudhakar " I suffered from endometriosis and my condition was very bad. I am from Jabalpur (Madhya Pradesh) and I had consulted all the good gynecologists here, but I did not receive correct diagnosis. By God's grace I decided to go to Delhi and meet Bijoy Sir. The best thing is, he didn't write so many tests. He was the one who performed laparoscopic surgery and removed huge ovarian cysts from both my ovaries and fibroid from my uterus. And now I feel better. I can't describe in words how good it is as a doctor and a human being. His experience and trust is reflected in the way he passes to his positivity. Being a sports person I met enough some doctors in my life, but Bijoy ladies is the best. I can guarantee it. Even after the surgery he was always there for me and explained everything in detail. It's really brilliant. I recommend it to all " Kaur " Dr Bijoy Kumar Nayak is really a gift to us. My wife had endometriosis for a long time. There were huge cysts of 12cm and 6cm in both her ovaries and fibroids in And he suffered a lot during his periods. Most gynecologists we met did not diagnose it properly and told us to do a lot of tests. Then we met Bijoy Sir. When he saw the Sonography report, he diagnosed it correctly as endometriosis and suggested laproscopy to remove cysts. The way he explained everything, for the first time in six months we really felt confident. It was very clear in his suggestions, listening patiently and we felt connected with him. It is really generous and very down on the ground and is also very confident in its abilities that gave us positivity. Last week he successfully performed laproscopy to remove the huge cysts and fibroids. And now my wife is healing. Even after laparoscopy he was always there to explain everything, take care of the patient. We already knew he was a pioneer in laproscopic surgery. But it exceeded all our expectations and that's why we will always remain in debt with him. Anyone who ever needs a good Gynaec laproscopic surgeon should keep it as first priority. " - Amit Jha" Dr.Bijoy Nayak One of the most talented doctor I've ever seen, far down the ground, makes complex operations very simple. It is an excellent trainer, laparoscopic surgeon and robotics with extra ordinary skills. Doctor is very quick and confident with his treatment. Listen and answer questions patiently and make patient and people around feel comfortable and stress free. He's an excellent doctor with a human touch. I highly recommend it to others. Excellent experience " - Arpana Jha" Mera monthly two Hauchi time periods. " - Anonymous" swoling in one side of the amplit just above the left Brest " - Priti" Gyne Problem Au Malakantak " - Gita" My husband and I are Thalassaemia Minor. I have 13 weeks of 1 day pregnant now. Our doctor suggested for amniocentesis the sixteenth week to understand the trait of the child's thalassaemia. Currently we reside in Bangalore but during my 16th week I will be in my mother-in-law place (Rourkela). So, please let me know if you can undergo amniocentesis under your guide and what date would be advisable. Thank you " - Shaista Zafar" Surely happy to write this review for a reason for sure - And this is giving hope to all those who suffer from infertility. My sister suffered from this pain of not becoming a mother and she took her last chance by consulting Dr. Mohapatra. He was under inspection and treatment for a few months and now he's going to be a mummy. I can't describe his happiness. I would like to thank Dr. G. S S Mohapatra from the bottom of my heart and I would like you to help many more people from this pain and bring happiness in their lives. " - Anwesha Dash" Gynelostict " - Swapna Swain Advertising with us, the best SEO expert IndiaGuaranteed "no doubt is a great doctor and his staff is well trained. However, it would mean that he should try hard for normal delivery and do not take before a caesarean is inevitable. Inevitable. inform each patient about the pros and cons of the surgery and carefully explain the Caesarean section process and how long it will take the patient to recover from the surgery. You should not rush to check the next patient and should give at least 10 minutes to each patient (not applicable at the time of surgery and in an emergency). The review should not be considered negative because she is a really good doctor and thank God, she smiles! Good pregnancy and childbirth to the reader of the review or to her relative. Sil Mam is a very good doctor. Á " à Sangeeta Priyadarsini Á" Good morning sir i m sapna rani mahapatra from bhawanipatna dist-kalahandi.
