Develop customer relationships

Learning outcomes

On completion of this unit you will:

- Be able to develop relationships with customers
- Understand how to develop customer relationships

Evidence requirements

- Environment
 Evidence for this unit may be gathered within the workplace or realistic working environment (RWE).
- 2. Simulation
 Simulation is not allowed in this unit.
- 3. Observation outcomes
 Competent performance of Observation
 outcomes must be demonstrated on
 at least two occasions. Assessor
 observations, witness testimonies and
 products of work are likely to be the most
 appropriate sources of performance
 evidence. Professional discussion may be
 used as supplementary evidence for those
 criteria that do not naturally occur.

Assessed observations should not be carried out on the same day for the same learning outcome. There should be sufficient time between assessments for reflection and personal development.

You need to meet the same standard on a regular and consistent basis. Separating the assessments by a period of at least two weeks is recommended as competence must be demonstrated on a consistent and regular basis.

4. Knowledge outcomes

There must be evidence that you possess all the knowledge and understanding listed in the Knowledge section of this unit. In most cases this can be done by professional discussion and/or oral questioning. Other methods, such as projects, assignments and/or reflective accounts may also be used.

Tutor/Assessor guidance
 Your tutor must refer to the 'Skills CFA
 Assessment Strategy' when delivering this
 unit. This can be found on www.vtct.org.uk
 under the relevant qualification page.

You will be guided by your tutor/assessor on how to achieve learning outcomes in this unit. All outcomes must be achieved.

For guidance on the assessment material for some individual units please refer to the 'Assessment Guidance'. This can be found on www.vtct.org.uk under the relevant qualification page.

6. External paper

There is no external paper requirement for this unit.

Achieving observations

Achieving observation outcomes

Your assessor will observe your performance of practical tasks. The minimum number of competent observations required is indicated in the Evidence requirements section of this unit.

Criteria may not always naturally occur during a practical observation. In such instances you will be asked questions to demonstrate your competence in this area. Your assessor will document the criteria that have been achieved through professional discussion and/or oral questioning. This evidence will be recorded by your assessor in written form or by other appropriate means.

Your assessor will sign off a learning outcome when all criteria have been competently achieved.

Relationship to National Occupational Standards

Developing knowledge

Achieving knowledge outcomes

You will be guided by your tutor and assessor on the evidence that needs to be produced. Your knowledge and understanding will be assessed using the assessment methods listed below*:

- Projects
- Observed work
- · Witness statements
- · Audio-visual media
- · Evidence of prior learning or attainment
- Written questions
- Oral questions
- Assignments
- Case studies
- Professional discussion

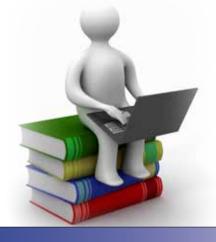

Where applicable your assessor will integrate knowledge outcomes into practical observations through professional discussion and/or oral questioning.

When a criterion has been orally questioned and achieved, your assessor will record this evidence in written form or by other appropriate means. There is no need for you to produce additional evidence as this criterion has already been achieved.

Some knowledge and understanding outcomes may require you to show that you know and understand how to do something. If you have practical evidence from your own work that meets knowledge criteria, then there is no requirement for you to be questioned again on the same topic.

^{*}This is not an exhaustive list.
