Excluding the new/applied for BTL mortgage

BARCLAYS

Applicant level income, commitments and expenditure

This section captures the number of applicants for the new mortgage, and allows you to record details of your client's personal income (employed or self-employed), the aggregate annual rental income from existing BTL properties and current commitments. Applications must meet our minimum income requirement (minimum annual gross income of £25,000 (for joint applications at least one applicant must earn £25,000))

Did you know?

If there are two or more applicants, an additional set of input fields will be shown on the calculator for you to complete.

Number of financial dependents
Used to automatically derive relevant essential expenditure and living costs

Annual bonus for the current year
A 2 year bonus history is required. Allowable bonus income automatically calculated as lower of current year's bonus or average of last 2 years – This figure must be at least £10,000 to be used in affordability

Number of applicants
Max. number of applicants is 4 (note: max. of 2 applicants' income considered, but all applicants' commitments and liabilities considered in affordability assessment)

Annual basic gross income
Input employed applicant's gross annual basic earned income

Annual bonus for the previous year
Input self-employed applicant's gross annual income before tax for previous year

Annual income before tax for the most recent year
Input self-employed applicant's gross annual income before tax for most recent year

Annual income before tax for the previous year
Input self-employed applicant's gross annual income before tax for previous year

Results

There are 3 potential results that could be presented back to you.

1. This mortgage is affordable

Based on information supplied, your client meets our affordability requirements, subject to full application and credit score

This mortgage is **affordable**

Based on the information supplied above, your client meets our affordability requirements, subject to a full application and credit score.

This case would pass our personal solvency review, and the calculated net disposable income is sufficient to meet the requested borrowing amount in full. Please note that the result is dependent upon the accuracy of information input and will be checked as part of our underwriting process. This calculation provides an indicative view of a borrower's affordability.

Personal solvency decision

Income	Commitments	Result
£ 4,247.27	£ 2,531.00	Pass

Income affordability test

Income	Commitments	Result
£ 5,114.87	£ 3,964.33	Pass

2. This mortgage is not affordable

Remodel allowed: Based on information supplied, your client does not meet our affordability requirements, but we can consider lending sum shown in results box, subject to full application and credit score

This mortgage is **not affordable – remodel allowed**

Based on the information supplied above, your client does not meet our affordability requirements on this occasion. We will however consider lending up to £235,532, subject to a full application and credit score.

This case would pass our personal solvency review, but the calculated net disposable income is not sufficient to meet the requested borrowing amount in full

Personal solvency decision

Income	Commitments	Result
£ 2,530.60	£ 2,190.00	Pass

Income affordability test

Income	Commitments	Result
£ 3,448.20	£ 3,633.33	Fail
