#### **5.0 Administrative Responsibility**

##### **5.1 General**

The Chair of Aphria's Board, the Chief Executive Office and the Chief Financial Officer (the Responsible Parties) will be responsible for overseeing Aphria's disclosure practices, setting benchmarks for the assessment of materiality, determining when developments justify public disclosure and ensuring adherence to this Policy.

The Chief Financial Officer will be the individual primarily responsible for ensuring that Aphria complies with all legal and regulatory disclosure requirements, including:

- (a) overseeing Aphria's corporate disclosure practices and monitoring compliance with this Policy;
- (b) initiating, with input and advice from the other members of senior management, disclosure of material information in accordance with the processes and procedures set out in this Policy; and

Aphria's Chief Executive Officer and Chief Financial Officer and those individuals designated from time to time by the Chief Executive Officer (the "**Spokespersons**"), are the individuals responsible for communication with investment analysts, shareholders, potential investors and the media, for initiating and overseeing presentations, conference calls and other communications with analysts and other members of the financial community and for overseeing the electronic communications aspect of this Policy. In carrying out their responsibilities, the Spokespersons will seek to ensure that no undisclosed material information is made available to any select group. If, for any reason, undisclosed material information is disclosed to analysts, investors, the media or others, the Chief Executive Officer and Chief Financial Officer should be immediately notified.

##### **5.2 *The Responsible Parties to be Fully Informed of Corporate Developments***

All employees of Aphria, directly or through their immediate supervisor, must keep the Responsible Parties sufficiently apprised of potentially material developments so they can discuss and evaluate any events that might give rise to a disclosure obligation.

### 5.3 *Sub Certification for CEO/CFO Regulatory Certification*

Members of the Responsible Parties will be required, when deemed appropriate, to provide sub-certification to the Chief Executive Officer and Chief Financial Officer on relevant and appropriate matters in connection with the annual and quarterly CEO/CFO certification required to accompany the publication of annual and quarterly financial statements and results.

## 6.0 GENERAL GUIDELINES

### 6.1 *Principals of Disclosure of Material Information*

In complying with the continuous disclosure obligations imposed by Canadian securities law and the regulations and the rules of the TSX, Aphria shall be governed by the following principles in disseminating material information:

- (a) material information shall be publicly disclosed immediately by way of press release, the dissemination of which shall contemporaneously include all applicable regulators;
- (b) material changes in the business and affairs of Aphria shall be described in a material change report, which shall be filed with the applicable Canadian securities regulators as soon as practical and in any event no later than ten (10) days after the material change occurs. In the event of a material change which the Chief Executive Officer has determined should remain confidential, upon approval by the Board of Directors (the “**Board**”), a confidential material change report shall be filed with the applicable Canadian securities regulators, and the Chief Executive Officer and the Board shall review their decision to keep the information confidential not less than every ten (10) days;
- (c) there is no distinction between favorable and unfavorable material information for disclosure purposes and both types of material must be disclosed promptly and fully in accordance with this Policy;
- (d) disclosure must be complete and include any information which by omission would make the rest of the disclosure misleading;
- (e) there should be no selective disclosure whether to an analyst, significant investor or other person which is not made to the general public;
- (f) disclosure should, to the fullest extent possible, be written in accordance with the plain language principles set forth in Companion Policy 51-102CP – Continuous Disclosure Obligations; and
- (g) everyone to whom this Policy applies who becomes aware of information that appears to be material shall immediately disclose that information to at least one of the members of the Responsible Parties enumerated in Section 5.2.

## **6.2     *Material Information***

When determining whether or not information is material, the following factors should be taken into account:

- (a) the nature of the information, the volatility and liquidity of Aphria's securities and how prevailing market conditions will impact on materiality;
- (b) the determination of whether or not information is material often involves the exercise of sound business judgments based upon experience; and
- (c) if there is any doubt about whether or not information is material, Aphria must err on the side of caution and the information must be disclosed to the public.

It is not possible to define all categories of material information. However, information should be regarded as material if there is a reasonable likelihood that such information would be considered important to an investor in making an investment decision regarding the purchase or sale of Aphria's securities. For a general discussion of material information and a non-exhaustive list of examples of information that may be material, depending on the circumstances, see Schedule B "Examples of Information That May Be Material" to Aphria's Insider Trading Policy.

## **6.3     *Issuing Press Releases***

The CEO and CFO will make the determination as to whether any particular material information should be disclosed and the timing of such disclosure. Thereafter:

- (a) the Chief Financial Officer, or other party as deemed appropriate, shall prepare a draft of the press release which shall be circulated to the members of the Disclosure Committee, and such other employees as may be appropriate given the contents of the proposed press release, for their review and approval;
- (b) once completed, the press release shall be submitted to the Responsible Parties and, in cases where the press release contains financial information, the Audit Committee and the Board of Directors, for final review, approval and authorization for dissemination;
- (c) once approved:
  - (i) in respect of the TSX
    - (A) if the news release is to be released during regular business hours, such press release shall be submitted to the market surveillance division of the TSX for approval;
    - (B) when the market surveillance division has approved its release, in respect of news releases to be issued during regular business hours, the press release shall be forwarded to the appropriate newswire for dissemination to the public;

- (d) after the press release has been disseminated, Aphria shall forthwith file it on SEDAR and post its contents in full on the Aphria Website;
- (e) if a conference call is planned, provide advance notice by way of press release of the date and time of any conference call to discuss the material information, the subject matter of the call and the means for accessing it;
- (f) hold the conference call in an open manner, permitting investors and others to listen either by telephone or through internet webcasting; and
- (g) provide dial-in and/or webcast replay or make transcripts of the call available for a reasonable period of time after the conference call,

The board of directors shall consider on each occasion whether it is necessary to request that the TSX place a trading halt on Aphria's securities in the intervening period between Aphria becoming aware of material information requiring immediate disclosure under the TSX Listing Rules and the ultimate contemporaneous disclosure of the material information to the newswire pursuant to paragraph 6.3(c)(i)(B) as contemplated under this Policy.

#### **6.4 *Designated Spokespeople***

Employees other than the Spokespersons must not respond under any circumstances to inquiries from the investment community, the media, regulatory authorities or others unless specifically authorized by one of the Spokespersons. All such communications must be referred to a Spokesperson. Spokespersons for any subsidiary of Aphria shall be designated by the Chief Executive Officer.

Any spokesperson of Aphria, whether authorized or not, who makes a public oral statement that contains a misrepresentation, could be sued. In addition, Aphria and each of the directors and officers of Aphria may also be sued as a result of a spokesperson making a public statement containing a misrepresentation.

#### **6.5 *Confidentiality of Information***

All directors, officers and employees of, and consultants to, Aphria are legally bound not to disclose material undisclosed information, and shall not disclose confidential information, to anyone outside of Aphria. In addition to the legal requirements, directors, officers and employees of, and consultants to, Aphria are expected to observe the following:

- (a) do not discuss Aphria's business and affairs in places where the discussion may be overheard;
- (b) confidential documents should not be read or displayed in public places or discarded where they can be retrieved;
- (c) documents and files containing confidential information should be kept in a safe place with restricted access;

- (d) transmission of documents by fax, email or other electronic means should be made only where it is reasonable to assume that transmission can be made and received under secure conditions; and
- (e) documents containing confidential information should be promptly removed from conference rooms and work areas after meetings have concluded and extra copies of confidential documents should be destroyed.

Every effort shall be made to limit access to such confidential information to only those who need to know the information, and such persons shall be advised that the information is to be kept confidential.

Outside parties who receive or are privy to undisclosed confidential information in the course of conducting business with Aphria must confirm their commitment to non-disclosure in a written confidentiality agreement.

#### **6.6 *Selective Disclosure***

All directors, officers and employees of, and consultants to, Aphria are legally bound not to disclose confidential information, including material non-public information, to anyone outside of Aphria. Disclosure of such information that has not been publicly disclosed to any person or select group, including investment analysts, institutional investors, other market professionals and the media, is considered selective disclosure. Selective disclosure is illegal and is prohibited.

#### **6.7 *Unintentional Selective Disclosure***

Disclosure of material non-public information by a person who either did not know or was reckless in not knowing, prior to making the disclosure, is unintentional selective disclosure. If unintentional selective disclosure has been made, then the Disclosure Committee must be immediately notified. The Disclosure Committee shall immediately take all appropriate steps including:

- (a) notify the TSX immediately of the unintentional selective disclosure and determine with the TSX whether a trading halt should be instituted pending issuance of a press release;
- (b) publicly disclose the material information by way of press; and
- (c) notify the person to whom the unintentional selective disclosure was made that such information has not been publicly disclosed and must remain confidential and that they may not trade in securities of Aphria with knowledge of such information until it is generally disclosed.

#### **7.0 *Dealing with Regulators***

If requested by a stock exchange or other securities regulatory authority to make a public statement, including in response to a rumour, the Disclosure Committee shall consider whether to make a statement and determine the content of the disclosure, if any. In making its decision,

the Disclosure Committee may consider the advice, if any, of the securities regulatory authority or other external advisors, as it deems appropriate.

The Chief Financial Officer, or other party as deemed appropriate, will be responsible for receiving inquiries from the market surveillance division of the TSX, with respect to unusual trading activity, market rumours or other similar inquiries.

The Chief Financial Officer, or other party as deemed appropriate, is responsible for contacting the market surveillance division of the TSX, in advance of a news release of material information, to seek approval of the news release, to watch for unusual trading, and to determine if a halt in trading is required.

## **8.0 Dealing with the Investment Community**

### **8.1 *General***

In communicating with investment analysts, security holders, potential investors and the media, the following practices must be avoided:

- (a) announcing material undisclosed information that has not previously been announced by way of a press release;
- (b) selective disclosure;
- (c) attendance of less than two individuals designated by Aphria to communicate on its behalf during any such communication where possible;
- (d) distribution of investment analyst reports (only lists of all analysts providing coverage will be supplied) to the public or employees; and
- (e) commenting on current period earnings estimates and financial assumptions other than as may be generally disclosed.

### **8.2 *Analyst Meetings***

Aphria's executives may meet with analysts and portfolio managers on an individual or small group basis as required, and initiate or respond to analysts and investor calls in a timely manner. Normally, the Chief Financial Officer, or his/her designate, will attend such meetings. When the Chief Financial Officer, or his/her designate, is unable to attend such meetings, prior to such meetings, he/she may brief those participating in Aphria's public disclosure to help ensure consistency in messages and disclosure. Where practical, statements and responses to anticipated questions should be scripted or discussed in advance. The purposes of the Chief Financial Officer's attendance at such meetings and/or the pre-briefing is to ensure that selective disclosure of undisclosed material information does not occur and to allow follow-up cross-briefing to other authorized Spokespersons to ensure that communication is consistent amongst all authorized Spokespersons.

In general, conversations with analysts should be limited to explanations or clarifications of publicly disclosed material information or other non-material information or non-confidential

information. When information is formalized into a written schedule for wide distribution, it will be included in the official disclosure record containing copies of all such information, and maintained for at least five years. While Aphria must provide the same oral or written schedule information to any person who requests it, it is not required to formally capture the various non-material discussions held.

If for any reason material non-public information is selectively disclosed to analysts, investors or media in any forum, the members of the Disclosure Committee should be immediately notified, and the Disclosure Committee shall determine the appropriate courses of action in accordance with this Policy.

### **8.3     *Analyst Reports and Models***

No one may comment on draft analyst reports, financial models and their underlying assumptions. Aphria may correct the accuracy of factual information and discuss economic and industry trends, which are generally known, that may affect it.

Final reports of the analyst are proprietary to the analyst's firm and Aphria should not be seen as endorsing such reports by redistributing or making them generally available to the public or to employees. Notwithstanding this, subject to applicable laws, Aphria can distribute analyst reports to its board of directors, senior managers, credit agencies and financial and professional advisors to assist them in monitoring communications about Aphria and how corporate developments are affecting their analysis.

### **8.4     *Analyst Revenues, Earnings and Other Estimates***

Responses by the Chief Financial Officer, or other designated persons, with respect to inquiries by analysts regarding Aphria's revenues, earnings, and other estimates shall be limited to: company forecasts and guidance already publicly disclosed and the range and average of estimates made by other analysts. It is **not** Aphria's policy to guide analysts with respect to earnings estimates.

Should management determine that future results will likely be significantly or materially out of the range of any previously issued guidance by Aphria (whether or not earnings are expected to be above or below the range), the Disclosure Committee should immediately consider the appropriateness of issuing a news release and conducting a conference call to explain the change.

### **8.5     *Industry Conferences***

Aphria may participate in various industry conferences in Canada and elsewhere. In general, conversations with interested parties should be limited to explanations or clarifications of publicly disclosed material information or other non-material information or non-confidential information. Brochures or other hand outs must be approved by the Chief Financial Officer and, if required, by the Responsible Parties prior to dissemination to the public. The Chief Financial Officer, or other designated party, should be present to monitor that material information is not disclosed.

## 8.6 *No Trade Periods and Blackout Periods*

The period beginning thirty (30) days prior to the scheduled Board meeting for approval of financial statements and ending two Trading Days (as defined herein) following the date of public disclosure of the financial results for that quarter or fiscal year (a “**Blackout Period**”) is particularly sensitive, as officers, directors, certain employees, consultants or others may often possess undisclosed material information about the expected financial results for the quarter and year end. “Trading Day” means a day on which the TSX, or any other stock exchange upon which Aphria’s shares are listed, is open for trading.

From time to time, Aphria may also institute additional trading restricted periods for directors, officers, selected employees, consultants and others because of the existence of undisclosed material information (a “**No Trade Period**”).

During No Trade Periods and Blackout Periods, as set out in the Insider Trading Policy, all Spokespersons are prohibited from commenting on current period earnings estimates and financial assumptions, other than to cite or refer to existing public guidance. Communications must be limited to commenting on publicly available or non-material information. During No Trade Periods and Blackout Periods, all Spokespersons must also avoid initiating meetings (in person or by phone) with investment analysts, security holders, potential investors and the media on items significant to investors, other than responding to unsolicited inquiries concerning factual information. Aphria does not, however, have to stop all communications with analysts or investors during this period and may, for example, participate in investment meetings and conferences organized by other parties, as long as material information which has not been publicly disclosed, is not selectively disclosed.

## 9.0 **Dealing with the Media**

In communicating with the media, the following procedures shall be followed:

- (a) Aphria shall not provide any material undisclosed information or related documents to a reporter on an exclusive basis;
- (b) Spokespersons should promptly respond to all media inquiries. Senior management or subject matter experts should be utilized in key announcements, as appropriate, to build credibility and provide more informed disclosure; and
- (c) Media news conferences on financial matters are normally conducted in separate forums from investors but access to information disclosed should be similar in all material respects. The Chief Financial Officer, or other designated person, should attend media conferences to monitor that material information has not been generally disclosed.

## 10.0 **Dealing With Leaks, Rumours and Speculation**

In dealing with leaks, rumours and speculation, the following procedures shall be followed:

- (a) Aphria's policy is to not comment, affirmatively or negatively, on rumours, subject to any requirement to do so by the TSX Listing Rules. This also applies to rumours on the internet. Aphria's designated Spokespersons shall respond consistently to those rumours by stating "It is our policy not to comment on market rumours or speculation", subject to any requirement to do so by the TSX;
- (b) If the TSX requests that Aphria make a definitive statement in response to a market rumour, the Chief Financial Officer shall consider the matter and present a recommendation as to the nature and content of a response to the Responsible Parties and the Responsible Parties shall decide whether to make a policy exception, having regard to any requirement to do so by the TSX; and
- (c) If the rumour is true in whole or in part with respect to undisclosed material information an obligation to disclose such information may be created. In such circumstances, Aphria shall immediately contact the TSX to discuss whether trading in Aphria's securities should be halted pending the issuance of a press release disclosing the relevant material information.

## **11.0 Maintenance of Disclosure Record**

The Chief Financial Officer, or other designated person, shall maintain:

- (a) a five-year record of all disclosure documents prepared and filed with securities regulators;
- (b) copies of all minutes of the meetings and decisions of the Responsible Parties; and
- (c) copies of transcripts of presentations, conference calls and webcasts, notes from meetings with the media and analysts and analyst reports on Aphria.

- (b) disclosure on the Aphria website alone does not constitute adequate disclosure of information that is considered material non-public information. Any

disclosure of material information on the Aphria website shall be preceded by the issuance of a press release;

- (c) if Aphria is considering a distribution of its securities, the content of the Aphria website must be reviewed before and during the offering to ensure compliance with applicable securities laws;
- (d) all investor relations material shall be contained within a separate section of the Aphria website and shall include a notice that advises the reader that the information posted was accurate at the time of posting, but may be superseded by subsequent disclosures. - (e) the following information shall be included in the Investors Relations section of the Aphria website:
  - (i) a link to all public information that has been filed with the Canadian securities regulatory authorities on SEDAR; and

  - (vi) responding to all electronic enquiries and in so doing ensuring that only information that could otherwise be disclosed in accordance with this Policy shall be used in such responses.

### **12.3 *Internet Chat Rooms and Electronic Bulletin Boards***

In order to help ensure that no material non-public information is inadvertently disclosed, no director, officer, or employee of Aphria, or any consultant or contractor to Aphria, shall participate in any internet chat room, newsgroup discussion or electronic bulletin board on matters relating to the business, affairs or securities of Aphria, unless approved by the Chief Executive Officer, Chief Financial Officer or the Responsible Parties.

- (d) written and oral statements shall be accompanied by appropriate contingency and cautionary language or notices, which shall identify or refer to the risks and uncertainties that may cause the actual results to differ materially from those projected in the statements;
- (e) all forward-looking information shall be accompanied by a statement that disclaims Aphria's intention or obligation to update or revise the forward-looking information, whether the result of new information, future events or otherwise. Notwithstanding this disclaimer, should subsequent events prove past statements to be materially different, Aphria may in its discretion choose to update or revise the forward-looking information, subject to any requirements to do so under applicable securities laws;

#### **14.0 Consequences of Non-Compliance with Policy**

Failure to comply with this Policy may result in severe consequences, which could include internal disciplinary action or termination of employment or consulting arrangements without notice.
