School Goals

Our goal is to provide opportunities that allow students to grow both academically and individually. The avenue we use to reach our goal is Advancement Via Individual Determination. AVID fosters a safe, open culture of high expectations for teachers and students and opens access while providing students with the tools to be successful. Our teachers are inherently passionate about education and deliver content to facilitate learning, resulting in an inquiry-based, collaborative student-centric classroom.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

Redmond School District strives to ensure a safe learning environment for all students by creating a welcoming and inclusive culture. Our school implements a multi-tiered system of support to promote positive, safe and respectful behavior among our students. We actively partner with families to achieve success for all students. This includes encouraging all of our students to speak up when they see or experience bullying or harassment.
