That's exactly what we're going to work on during the next 20 days!

I'll take you lesson by lesson through the various areas of English – grammar, vocabulary, speaking, pronunciation, reading, listening, and more – so you can improve ALL your skills.

These lessons are designed to help you **learn quickly and effectively**.

They are “short and sweet,” meaning you just need 10-15 minutes a day (no need to study for hours and hours).

Each of these lessons is a **free sample** from an Espresso English course or e-book – so if you like the lesson format, you can get a lot more lessons like it when you buy the full course or e-book.

The sequence of 20 lessons starts with the easier ones and gets increasingly more advanced. Even if you're already at the intermediate level, I suggest you start at the beginning (so that you can review some essential grammar and vocabulary) and then follow these 20 lessons in order.

One final tip – you can **print out the checklist** on the next page so that you can **track your progress** and mark each lesson complete as you finish it.

- “I work” vs. “I’m working”?
- “We go” vs. “We’re going”?
- “He studies” vs. “He’s studying”?

In today’s lesson you’ll learn the difference between the **present simple** tense (I work) and the **present continuous** tense (I’m working) as well as a number of “signal words” that are commonly used with each tense.

DAY 3:

ENGLISH PHRASES FOR TELEPHONE CALLS

For many English learners, talking on the phone is terrifying.

It's really difficult to understand the other person when you can't see him or her.

But it's much easier to talk on the phone when you know the common phrases that native English speakers use!

Today you'll learn 60 telephone English phrases you can use in both formal and informal conversations.

DAY 4:

COLLOCATIONS FOR SUCCESS & FAILURE

Collocations are the typical combinations of words that native English speakers use. If you're wondering how to take the English words you know and put them together **in a natural way**, then focus on learning collocations!

Today's lesson will teach you 25 collocations in the form of a story about "Successful Samantha" and "Disastrous Dan":

DAY 5:

PRACTICE YOUR PRONUNCIATION

One of the first things that other people notice about your English is your pronunciation – it's what gives the first impression of your English skill level!

Practicing and improving your pronunciation can make the difference between having successful conversations... and being unable to communicate :-/

In today's lesson, you'll practice by repeating after me!

We'll focus on perfecting the sounds in the words SIT, SEAT, and SET.

It's very important to master this difference, because you don't want to mix up the words "beach" (a nice place for vacation) and "bitch" (a very offensive name to call a woman).

DAY 6:

PRACTICE SHADOWING TO SOUND MORE LIKE A NATIVE ENGLISH SPEAKER

Today you'll continue improving your pronunciation by practicing "shadowing."

Shadowing is a technique in which you repeat whole phrases immediately after me, imitating my pronunciation and intonation very closely.

It's a great way to reduce your foreign accent and learn to speak more continuously (without so many pauses between words).

This lesson makes it so easy – simply repeat each phrase aloud after me (I've left space in the audio for you to do it!)

Have you ever been shy about participating in a meeting in English?

LEARN 90 IRREGULAR VERBS

Did you know that about 70% of the time when we use a verb in English, it's irregular?

The English language has so many irregular verbs that it can make you go crazy... but even irregular verbs follow some patterns.

In this lesson, you'll learn groups of irregular verbs that can make it easier to remember them. For each group, I've given one pronunciation example.

Don't just study this list – try to create your own sentences and use all the verbs you know! This will help the verbs stay in your memory much better.

READING SKILLS – HOW TO STAY MOTIVATED

For a lot of English learners, reading is slow and frustrating.

You might “get lost” in the text because you need to check the dictionary frequently, and then it’s really hard to understand what the article is saying.

That’s why I teach a step-by-step method for improving your reading comprehension, and in today’s lesson you can try it with a text called “How to stay motivated.”

LISTENING SKILLS – CREATIVE WORK ENVIRONMENTS

Listening to native speakers can be really hard... especially when they're speaking fast! Sometimes you don't hear one word, and then it's impossible to understand the whole sentence.

Today you'll practice listening in a way that actually improves your skills step by step, so you can make progress towards understanding every word. It's important to do all the steps in order, to get the most benefit from the lesson.

The audio is also available in both slower and faster speeds, so you can choose which one is best for you! The topic of the listening is "Creative Work Environments," about companies that have innovative spaces.

CONVERSATIONAL ENGLISH – DISCUSSING THE NEWS

When native English speakers talk, we use a LOT of informal expressions, idioms, phrasal verbs, and slang.

This is why you might be able to understand “textbook English,” but it’s hard to understand conversations in movies and TV shows!

In today’s lesson, you’ll learn more advanced conversational expressions from a dialogue about news and current events.

DAY 17:

IDIOMS WITH TIME

Do you know what expressions like **made my day**, **spur of the moment**, and **have the time of your life** mean?

English has a lot of idiomatic expressions – short phrases with specific meanings that are often not obvious from the individual words.

The best way to learn these is NOT by trying to translate each word – that won't work! Instead, you should learn idioms in context, so you can see exactly how they are used.

Today you can learn and practice idioms that contain “time” words.
