AN UNUSUAL EXPERIENCE

title

One day, long time ago my friends and I **were** on holidays. I **stayed** in a hotel. So, we **left** all my suitcases **closed** and **locked** in the hotel room and **wanted** to go around the city. We **were** in Rome, near the Coliseum and the views of the city **made** us feel like walking around and visiting all the main monuments.

- Presentation of the story.
- Talk about the time, the place, where you stayed

As I **went** there with my close friends, we **were** all together in the same room (a room for three). So, I **told** them to go out and they quickly **accepted**. We **had** a wonderful day, we **ate** ice-creams, (Italian ice-creams), they are the best. We also **got on** the underground and **went** to sunbathe in the beach. Everything **was** perfect until the moment that we **went back** at night. The hotel lights **didn't work** that night and we **felt** something strange in our room. Our suitcases were opened and all our clothes were thrown all over the floor, chairs, beds, desks, all around the room. It **was** a ghost. It only said: 'Get out of my room'.

- Problems or bad experiences

So, as we **were** so afraid, we **didn't** even **worry** about our things and we just **left** and **flew back** home. When we **arrived** home, the staff of the hotel **called** us to say sorry because it **was** part of the show of the hotel, but as we **left**, they **refunded** all the money we had spent there in Italy. Today, we are not sure if we would like to go there again. It **was** such a horrible experience!!
