Three-letter words

Three-letter words are a natural progression from two-letter words. They are an essential weapon in every Scrabble player's armoury. It's worth trying to become familiar with them all, but if that's a tall order then you should at least focus on those that can be formed as one-letter extensions (hooks) of two-letter words (before or after) and strive to be familiar with those that contain a higher-scoring letter (three points or more).

There are 1,341 valid three-letter words in Scrabble, all of which are listed in this section, showing which can take an –S extension. The list includes plurals of two-letter words to emphasise these. Not all the threes are valuable in Scrabble but are all listed here for completeness.

Suffixes

Suffixes are just as useful as prefixes for the same reasons, but it can be less easy to spot opportunities to employ them. Therefore, it's a good idea to study the lists of the most commonly available suffixes to help you find those elusive bonus words. This list is also useful for studying which adjective stems also form adverbs, as a glance at the -LY list demonstrates.

As with the prefixes list, words which end in the suffix letters by coincidence rather than etymology are excluded. For example, ENCAGE is omitted from the AGE words, DEMOLISH is omitted from the ISH words. Example of words omitted, if any, are given at the start of each suffix list.

Unlike prefixes though, the root part of the word may not always be a stand-alone word because often the root is modified when the suffix is added (eg DUTIFUL, EQUABLE).

Words 6-8 in length ending in the suffix ABLE

Some can be pluralized as shown by the s. The addition of -ABLY shows where valid adverbial forms are allowed.

Words that happen to end in ABLE but not as a suffix are excluded so words such as BISTABLE and OVERABLE are omitted.

Here are some fascinating words with unique beginnings and endings to impress your opponents with, some perhaps more useful in Scrabble than others. Note that in some cases with beginnings there are other forms of the same word or its plural form that also begin with the same two letters (eg ZLOTE ZLOTYS ZLOTIES ZLOTYCH are also valid as well as ZLOTY but it is still worthy of being considered a word with a unique beginning. An additional list of words with a rare J or Q ending has also been included.

Words with unique first two letters

BD : BDELLIUM	African or Asian tree yielding gum resin

Words with multiple Us

Four-letter words with two Us

Patter – U – U with repeated parts

BUBU	MUMU
HUHU	PUPU
JUJU	RURU
KUKU	SUSU
LULU	TUTU

Note

For this set, it is deemed worthwhile including the few with other vowels apart from the Us.

Others with pattern – U – U

FUGU	PUDU
GURU	PUKU
JUKU	PULU
KUDU	SULU
KURU	WUDU
KUTU	YUZU
KUZU	ZULU

Note

Quite a few of the above words, and those following are worth noting as hooks of three-letter words, eg HUH(U), (K)UTU, (L) ULU, (M)UMU or MUM(U).

Other patterns

UNAU	URUS
------	------

Five-letter words with three Us

UHURU	URUBU
-------	-------

Six-letter words with three or more Us

MUTUUM	MUUMUU
--------	--------

Note

MUUMUU is one of the most unlikely six-letter word in Scrabble, requiring all the Ms and Us from the set on the rack at the same time, or at least five of them and one available on the board.

Light words

While duplicate vowels on your rack can be a real pain, having too many vowels in general can be frustrating. For this reason, it's helpful to have a number of 'light' words up your sleeve – words that contain a high proportion of vowels. The lists of light words include words from three to six letters, excluding -S plurals, where more than half the letters are vowels. In addition there are lists of vowel-heavy seven- and eight-letter bonus words. In this case they include -S plurals. The sevens and eights are those with five or more vowels. Seven-letter words with four vowels are in abundance and not considered especially vowel heavy.

UTOPIA	VOUDOU	WOODIE	ZOARIA
UVEOUS	WAIATA	WOOHOO	ZOECIA
UVULAE	WAIRUA	WOOLIE	ZOOEAE
VAUDOO	WEENIE	WOOPIE	ZOOEAL

VOIDEE	WEEWEE	ZAIKAI	ZOOZOO
VOODOO	WIENIE	ZOAEAE	ZOUAVE

Seven-letter bonus words with five or more vowels, including -S plurals

ABOULIA	AURORAE	EVACUEE	OAKARI
ACEQUIA	AUTOCUE	EXUVIAE	OUGUIYA
AECIDIA	CAMAIEU	IPOMOEA	QUEENIE
AENEOUS	COUTEAU	KOEKOEA	RAOULIA
AEOLIAN	DEQUEUE	MIAOUED	ROULEAU
AEONIAN	DIANOIA	MOINEAU	SAOUARI
AERADIO	DOULEIA	NOUVEAU	SEQUOIA
AEROBIA	EATERIE	OIDIOID	TAENIAE
AGEUSIA	ENQUEUE	OLEARIA	URAEMIA
AIERIES	EPINAOI	OOGNIA	ZOOECIA

AREOLAE	EUGENIA		
AUDITEE	EULOGIA		
AUREATE	EUOUAES		
AURELIA	EUPNOEA		
AUREOLA	EUTAXIA		
AUREOLE	EUTEXIA		

Note

MIAOUED is an aesthetically pleasing vowel-heavy bonus word containing all of the vowels AEIOU together in the middle, and the only seven to have five vowels in a row apart from the plural of EUOUAE shown above.

Eight-letter bonus words with five or more vowels including -S plurals

ABOIDEAU	ACIDURIA	AECIDIUM	AEROFOIL
ABOITEAU	ACIERAGE	AEDICULE	AEROLITE

Note

EPOPOEIA means the same as EPOPEE (an epic poem) and is also noteworthy as being one of only five eights with six vowels.

Heavy words

In contrast to light words, 'heavy' words have a high proportion of consonants. Arranged by word-length, these lists contain words with no vowels (and no Ys), words with Y as the only vowel, and words of six letters with only one vowel (AEIOUY). Plurals ending in S have not been included in these lists. Even if you have a rack of seven consonants you may only need an appropriate vowel on the board to use four or five of them.

Words with none of AEIOUY

CH	TSK
HM	TWP

CWM	PFFT
GRR	PSST
HMM	SHHH
MMM	CRWTH
NTH	CWTCH
PHT	GRRRL
PST	PHPHT
PWN	TSKTISK
SHH	

Note

Words such as MMM, HMMM, TSKTSK are unlikely to be valuable because they would need a blank to be played, and ZZZ even more so, requiring both blanks. And you are unlikely to want to waste two Ss in PSST. Whereas words like CRWTH and CWTCH are much more useful with five different letters.

Words with only a Y as a vowel
