Inventory Storage

Storage fees are charged for all Units stored in an Amazon fulfilment centre based on calendar month and your daily average volume (measured in cubic metre). The cubic metre of any Unit will be based on the Unit's size as properly packaged and ready for shipment to customers in accordance with the FBA Programme Policies. A semi-annual Long-Term Storage Fee of £882.50 per cubic metre (£25 per cubic foot) will be applied to any Units that have been stored in an Amazon fulfilment centre for one year or longer. The fee is in addition to the regular Inventory Storage Fee and will not be charged if a request has been made to remove or dispose of the Units prior to the fee being charged. Each seller may maintain a single Unit of each ASIN in its inventory, which will be exempted from the annual Long-Term Storage Fee. Frequently Asked Questions

Q: Are Oversize items eligible for Zero Fee Fulfilment?

A: No. Only Standard-Size Units that sold on Amazon.co.uk for £300 or more are eligible for Zero Fee Fulfilment. Learn more about [Zero Fee Fulfilment](#).

Q: Am I restricted on the types of products I can fulfil through FBA?

A: Yes. Please consult the [FBA Programme Policies](#) for detailed information about product restrictions. The maximum weight for any single Unit to be fulfilled by Amazon is 30 kg.

Q: What is FBA's policy for customer returns and inventory that is lost or damaged?

A: We maintain high standards when it comes to taking care of your inventory. However, occasionally accidents do happen. Learn more FBA's [Lost and Damaged Inventory Reimbursement Policy](#).

Q: Do I still pay Selling on Amazon fees?

A: Selling on Amazon Fees only apply to orders placed on Amazon.co.uk and not for Multi-Channel Fulfilment orders. For current selling plan features and prices, please visit [Selling on Amazon Fees](#).

Q: Can Oversize Units be shipped together or with Standard-Size Units?

A: Each Oversize Unit is generally sent as a single shipment in its own package; therefore Amazon does not aggregate the fees for multiple-Unit orders that include Oversize Units. When calculating the fulfilment fees for orders that include Oversize Units, each Oversize Unit in the order is assessed the applicable fulfilment fee as a unique order.

Fulfilment by Amazon (FBA) Programme Fees - European Fulfilment Network Service

If you list products for sale on Amazon's other European Marketplaces from your Amazon European Marketplaces account, you can use Fulfilment by Amazon to deliver these orders using our European Fulfilment Network (EFN).

To calculate FBA fees:

- Add the EFN flat fee in the table below.
- Choose the 'Fulfilment Country' i.e. the country your inventory is being shipped from and the 'Order Origin' i.e. the Amazon site where the item is purchased.

Important: Sellers who are registered for Fulfilment by Amazon with inventory stored in a fulfilment centre in the UK can make these products available for sale for customers purchasing on amazon.de, amazon.fr and amazon.it. For the respective Fulfilment by Amazon and EFN flat fees for these services, please refer to the specific rate cards for each of these countries on the respective country websites, i.e. services.amazon.de, services.amazon.fr and services.amazon.it. The rate card is also available in English.

The local selling on Amazon fees will apply from the market the order originated from and will be on top of the fulfilment and EFN fees e.g. if an item is sold on amazon.de then the German selling on Amazon fees will apply. The Selling on Amazon fees can be found on the respective country websites.

Frequently Asked Questions

Q: Can I charge different prices for the same product on different marketplaces with my Amazon Europe Marketplaces Account?

A: Yes you can charge different prices for the same product in Germany, France, Italy and UK (which may include your EFN fees, which in the majority of cases are more attractive than local international postage fees). For each product you want to sell, you need to create and upload a localised listing to each marketplace.

Q: Am I obliged to use EFN to fulfil my international FBA orders?

A: No, if you have already registered or wish to register with a separate account to sell on and use FBA in another Amazon EU marketplace as a local seller you can do so. You will of course need to send inventory to Amazon fulfilment centres in the other EU Marketplaces you wish to sell in and manage separate inventory pools.

Q: When does it makes sense to use the FBA Export to EU option and when EFN?

A: The FBA export to EU option is only for items purchased by customers on your Amazon home marketplace or other Amazon EU marketplaces you may have registered to sell from and requesting delivery to another EU country. With EFN you can also make your products available for sale on other Amazon EU marketplaces from one Seller Account with shipment originating from your local inventory pool.

Q: Will my EFN orders be eligible for fast track delivery options and Amazon Prime?

A: Only orders originating from your home marketplace will be eligible for fast track status. All orders will be eligible for Amazon Prime, regardless of marketplace.

Q: Are there any tax implications if I use EFN?

A: We advise you to check with your local tax advisor concerning tax implications and to comply accordingly.

For fulfillment of Multi-Channel orders on a seller's home market place eg a UK seller requesting delivery to an off Amazon customer within the UK, please refer to the pages 2, 3 and 4 of this rate card, and choose the appropriate category i.e. standard-size media, standard-size non-media and oversize media and non-media.
