Stretched canvas

Superior canvas prints designed for trade and retail.

Each custom stretched canvas begins with a 12-colour Giclée print, produced from a choice of substrates. We then make a custom wooden frame - in any size needed up to a maximum of 3 metres - and stretch the rolled canvas print over it.

Choose from 19mm, 38mm or 44mm European knotless pine canvas frames finished with your choice of canvas material.

We use finger jointed canvas frames to create corner tension which helps to resist warping. For larger sizes, we add wooden 'wedges' to each corner; ensuring the canvas surface remains taut and allowing for easy re-stretching in future years.

- Pro-lab print on demand process with 100+ year colour guarantee
- Choice of four different canvas print media
- Choice of three canvas frame depths: 19mm, 38mm or 44mm
- Four edge finishing options (black, white, image wrap, mirror wrap)
- Stretcher bars milled from the finest quality European kiln-dried knotless pine
- Tensioning 'wedges' and finger joints
- Handmade by experienced canvas framers

Framed canvas

Transform a standard canvas into a special work of art.

Our superior framed canvas prints feature a 38mm stretched canvas within a traditional picture frame. The simple addition of a wooden picture frame gives a completely different 'look' to your Giclée printed wall art; quite distinct to a standard canvas.

The thin frame sits approximately 5mm from the edge of the canvas helping to create a floating border.

- Superior float frame
- 38mm stretched canvas

Float frame specifications

Depth from wall	53mm
Face width (frame)	12mm
Face width (gap)	5mm
Base width	32mm
Rebate depth	40mm

Our rolled canvas on demand prints are perfect for clients who wish to frame or stretch the final product themselves. Each rolled canvas print is produced using our professional pro-lab processes.

Aluminium dibond is a composite material. It's 3mm thick with three layers; a black polyethylene core between two platinum white aluminium sheets.

Dibond mounted prints are a perfect contemporary option for displaying your artwork or photographs. We use fine art inks with a Giclée printing method to ensure increased saturation and luminosity. Due to the inherent water, fade and UV resistance of the material, dibond prints are suitable for either indoor or outdoor use.

Our dibond bespoke prints are available in a wide range of sizes. Choose from a matte, gloss or satin laminate finish. Each print comes with a hidden subframe hanging system, floating your artwork 15mm from the wall.

Gatorboard

A rigid, water resistant display board.

Gatorboard printing toughens up your artwork. Stronger than most foam board core materials and just as lightweight, our gatorboards utilise a dense, rigid substrate that is resistant to denting and bending, and will not warp over time.

The prints are versatile and rigid; the material comprises resin-impregnated wood fibre finished with a clay face and smooth black edges. Our 10mm gatorboard mounted prints are exceptionally light and very strong. They provide a more refined, durable alternative to foam board.

A stunning fine art Giclée print is mounted onto this popular water resistant substrate and sealed with a choice of laminates; matte, gloss or satin.

- Rigid wood fibre core prevents warping
- Lightweight yet durable
- Wide range of sizes
- Full bleed borders

Perfect for displays and exhibitions, each foamex print comprises a 12-colour Giclée print mounted onto 10mm thick PVC board. Foamex prints are available on a black or white board; effectively 'self edging' and thus requiring no additional hand-finishing.

Each print comes ready to hang using a special subframe hanging system, floating your artwork 15mm from the wall. Available in a wide range of sizes.

Our round custom keyrings are just as practical as they are giftable. The perfect print on demand accessory, each keychain can be personalised with initials, names, dates or photos.

A durable plastic shell helps protect against knocks and scratches, while the aluminium split ring provides plenty of room for attaching your keys and enables you to fix your keyring to bags and backpacks.

Using a high-tech printing process, Prodigy custom keychains are dye-sublimated on both sides for a fade-resistant, full-colour image.
