

Fidelity Exchange Traded Funds

Year-to-date distributions and tentative schedule

Please note: The amounts below represent the actual and realized undistributed capital gains and income for Fidelity Exchange Traded Funds. Data is year-to-date, through 09/30/17, and represents an estimate of what will be distributed at calendar year-end. Dates below represent the scheduled December ex-dividend and pay date for the funds. The distribution figures may differ from the actual amounts to be paid in December.

Fund Name	Tickers	Non-Qualified Dividends	Qualified Dividends	Short Term Capital Gain	Long Term Capital Gain	Total Per Share	Ex Date	Pay Date	Distribution Status

1. Qualified and Non-Qualified dividends are not estimated for funds that make daily, monthly, or quarterly income distributions. The allocation of income distributions between Qualified Dividends and Non-Qualified Dividends will be determined at the end of the calendar year and will be reflected on Forms 1099 sent to shareholders in early 2018. The allocation between Qualified Dividends and Non-Qualified Dividends is based on the 2016 actual allocation between Qualified Dividends and Non-Qualified Dividends.
2. The Record Date, Reinvest Date, Ex Date and Pay Date reflected on the September 30 Year-End estimate are subject to change. Any changes to these dates will be made prior to November 15, 2017.
3. The December distribution for funds with a November fiscal year end will include gains realized through November 30th. The "Estimated Year End" capital gains do not include all gains and losses realized in November, so the Final Year End Distribution will be adjusted for certain gains and losses realized during the month of November.
4. Only capital gains are estimated. Income is not estimated.
