AIG Students

Background

Advance Innovation Group has been an industry leader in the consulting and training space in areas of Lean Six Sigma Consulting, Management System implementations. Our niche comes from closely working with industry and devising more innovative and cost effective methods and tools to make business more successful, predictable and profitable.

We have, over the past few years been able to help several very talented people get to their logical success path which has been an emotional high for us. Many still call us the Manager's factory. Having been able to touch 100s of lives, we have been successful in making our small contribution to huge Data industry.

Our Partners

Having delivered **millions of exams** in over **150 countries**, **PEOPLECERT** is today one of the leading players in the global certification industry,

VMEdu is a leader in the professional training and certification industry and has facilitated the training of 500,000+ students from 3500+ corporations across 150+ countries

PECB is a Canada based company providing certifications for ISO programs at all levels.
