Free cursive writing paragraph worksheets

[Age Rating] [Introduction] [Printable Worksheets] Age Rating All children develop as individuals. Parents and caregivers should use the age ratings below as a general guideline, taking the abilities, temperament and interests of their children into account. Ages 9+ Can complete without assistance. Age 8 Can complete with minimal assistance after directions are given. Age 7 Introduction to cursive writing concepts -- can complete with adult assistance. Introduction Just like printing, cursive writing is typically not presented in alphabetical order. I've chosen to present the letters in groups that are formed in a similar manner (you'll find this is what most schools do). The worksheets build on one another so you'll want to begin with the letter a and add letters in the order listed. It is important to build when it comes to handwriting as the key difference between cursive writing and printing is that the letters flow together (connect). Present lower case letters first -- you can quickly begin forming words so that cursive handwriting can be incorporated with other lessons such as spelling and social studies. Note: Of course, the first thing every child I've ever met has wanted to learn to write is their name -- and I always approach learning as something fun, so by all means encourage them to do this. The worksheets on this page won't help you, but pop over to our customizable cursive tracer pages to type in your child's name (or anything else that tickles their fancy). Also, check out the Cursive Alphabet Coloring Pages for some fun cursive practice pages to compliment these worksheets.
