

intuit OFX Connectivity

Account Access Methods

There are two ways Financial Institutions support account access:

 **Use Direct Connect** to access your account information, pay bills, transfer money and send other instructions to your institution right from within Quicken or QuickBooks. Specific services may vary by institution.

 **Use Web Connect** to automatically enter transactions and update balances in Quicken and QuickBooks simply by logging on to your financial institution's web site and clicking the "Download to Quicken" or "Download to QuickBooks" button.
